

## ACTION TAKEN REPORT

**Subject:** Annual Student Feedback Analysis and Curriculum Improvement Recommendations

**Introduction:** The International Centre of Excellence in Engineering and Management is committed to maintaining and enhancing the quality of education. As part of this commitment, the college collects feedback from students annually. This feedback is systematically analysed and the findings are communicated to the Internal Quality Assurance Cell (IQAC).

### Feedback Collection and Analysis:

- **Feedback Collection:**

- The college conducts an annual survey to collect feedback from students on various aspects of the curriculum, teaching methods, and overall academic experience.

- **Analysis:**

- The collected feedback is meticulously analysed to identify areas for improvement. The analysis reports are then compiled and reviewed by the IQAC.

### Role of IQAC:

- **IQAC Director Involvement:**

- Mr. Hemant Jadhav, the IQAC Director, is an integral part of the board of studies. His role involves ensuring that student feedback is incorporated into curriculum planning and implementation.

### Curriculum Planning and Implementation Meeting:

- **Meeting Attendance:**

- Mr. Hemant Jadhav attended the curriculum planning and implementation meeting conducted by Dr. B.A.M. University, Aurangabad. The meeting focused on the Third Year (TY) B.E Electronics and Telecommunication Engineering curriculum, specifically the Microcontroller and Embedded Systems paper.

• **Feedback-Based Recommendations:**

- Based on the feedback collected from students, Mr. Jadhav suggested several improvements to the curriculum. These suggestions aimed to enhance the relevance and applicability of the course content to better meet industry standards and student needs.

**Additional Faculty Contributions:**

• **Communication of Feedback:**

- Apart from the formal suggestions made by Mr. Jadhav, other faculty members have been proactive in communicating student feedback to their peers and colleagues at the university. They have requested updates and revisions to the syllabus to align it more closely with contemporary technological advancements and industry requirements.

The continuous process of collecting, analysing, and acting on student feedback underscores the college's dedication to academic excellence. By incorporating valuable student insights into curriculum development, the International Centre of Excellence in Engineering and Management strives to provide an education that is both comprehensive and forward-looking.
