Report on Expert Talk: "Innovation in Teaching, Learning, and Research".

Introduction: The Expert Talk titled **"Innovation in Teaching, Learning, and Research"** was successfully organized at the prestigious International Centre of Excellence in Engineering and Management. The primary objective of this event was to delve into modern strategies and innovative methodologies aimed at enhancing educational practices and research initiatives, both within the institution and in the broader context of education. The session attracted a diverse audience, including faculty, students, and administrative staff, highlighting the community's commitment to continuous improvement in education.

Details of Event:

- **Date:** 21st December 2024
- **Venue:** Seminar Hall, International Centre of Excellence in Engineering and Management
- **Guest Lecturer:** Prof. Dr. Vijay Pandharipande, Former Vice Chancellor of Dr. B.A.M. University
- **Chairman of the Event:** Dr. Subhash Jhavar
- **Campus Director:** C.S. Padmavat
- **Director of the Institution:** Dr. R.R. Deshmukh
- **IQAC Coordinator:** Prof. H.L. Jadhav

Objectives of the Expert Talk:

- To explore innovative strategies and methodologies that can significantly enhance teaching and learning experiences.
- To discuss the integration of technology in education and its impact on student engagement and academic performance.
- To bridge the gap between research and educational practices, showcasing how innovative research can inform teaching methodologies.
- To provide a platform for participants to engage in meaningful dialogue and collaborative brainstorming on educational challenges.
- To inspire and motivate faculty and students towards adopting innovative practices in their academic endeavors.

Key Highlights:

- **Opening Remarks:** The session commenced with welcoming remarks from Dr. Subhash Jhavar, who set an inspiring tone for the day. He acknowledged the challenges faced in the educational landscape and underscored the pivotal role of innovation in navigating these challenges. Dr. Jhavar's address encouraged active participation and constructive dialogue among attendees, fostering an environment conducive to learning and collaboration.
- **Guest Lecture:** The highlight of the event was the engaging lecture delivered by Prof. Dr. Vijay Pandharipande. With a wealth of experience in academia, he focused on the transformative potential of innovative practices in teaching and learning. Prof. Pandharipande articulated the necessity of harnessing technology to enhance educational experiences, emphasizing the need for educators to adapt to the evolving digital landscape. He advocated for creating collaborative learning environments that not only engage students but also promote critical thinking and problem-solving skills.
- **Research Innovations:** Prof. Pandharipande skillfully bridged the connection between teaching and research during his address. He elaborated on how innovative research practices can significantly impact educational methodologies and outcomes. Sharing successful case studies from his tenure at Dr. B.A.M. University, he illustrated the positive outcomes of integrating research-driven approaches in teaching. These examples provided clarity on practical applications and inspired attendees to think creatively about their own educational approaches.
- **Interactive Session:** The event concluded with a lively Q&A session, providing attendees with the opportunity to directly engage with Prof. Pandharipande. Participants raised thought-provoking questions regarding the practicalities of implementing innovative practices in their teaching. This session enriched the discussion by allowing diverse viewpoints to be shared, facilitating a profound exchange of ideas and collective brainstorming on confronting various challenges in education.

Summary: The Expert Talk emerged as a significant platform for exchanging insights regarding the future of teaching, learning, and research. It cultivated a collaborative spirit among faculty, students, and administrative members, underpinning a collective commitment to excellence in educational practices. The participation of distinguished guests, alongside the active involvement of attendees, significantly contributed to the event's success and laid the groundwork for future endeavors in innovation within the institution.

We extend our heartfelt gratitude to Prof. Dr. Vijay Pandharipande for his enlightening contributions and dedication to advancing educational practices. Additionally, we would like to thank all attendees and organizing members for their efforts in ensuring the event's success. The insights and discussions from this

talk are expected to pave the way for further innovations in teaching, learning, and research at our institution, ultimately benefiting the wider academic community.

Subject: Letter of Thanks.

Dear Sir,

On behalf of International Centre of Excellence in Engineering and Management, we deeply appreciate the time you have given to guide & share the knowledge with our faculty members. From the feedback received from faculty, we found that you were meticulous when explaining the at each step.

Our faculty members were very happy with the overall outcome of expert talk on **Innovation in teaching learning and research** for faculty. In totality, after this Expert talk, we have certainly had an enriching learning experience. I again express my gratitude for sharing your knowledge and providing a fruitful experience.

We wish the same kind of cooperation in future.

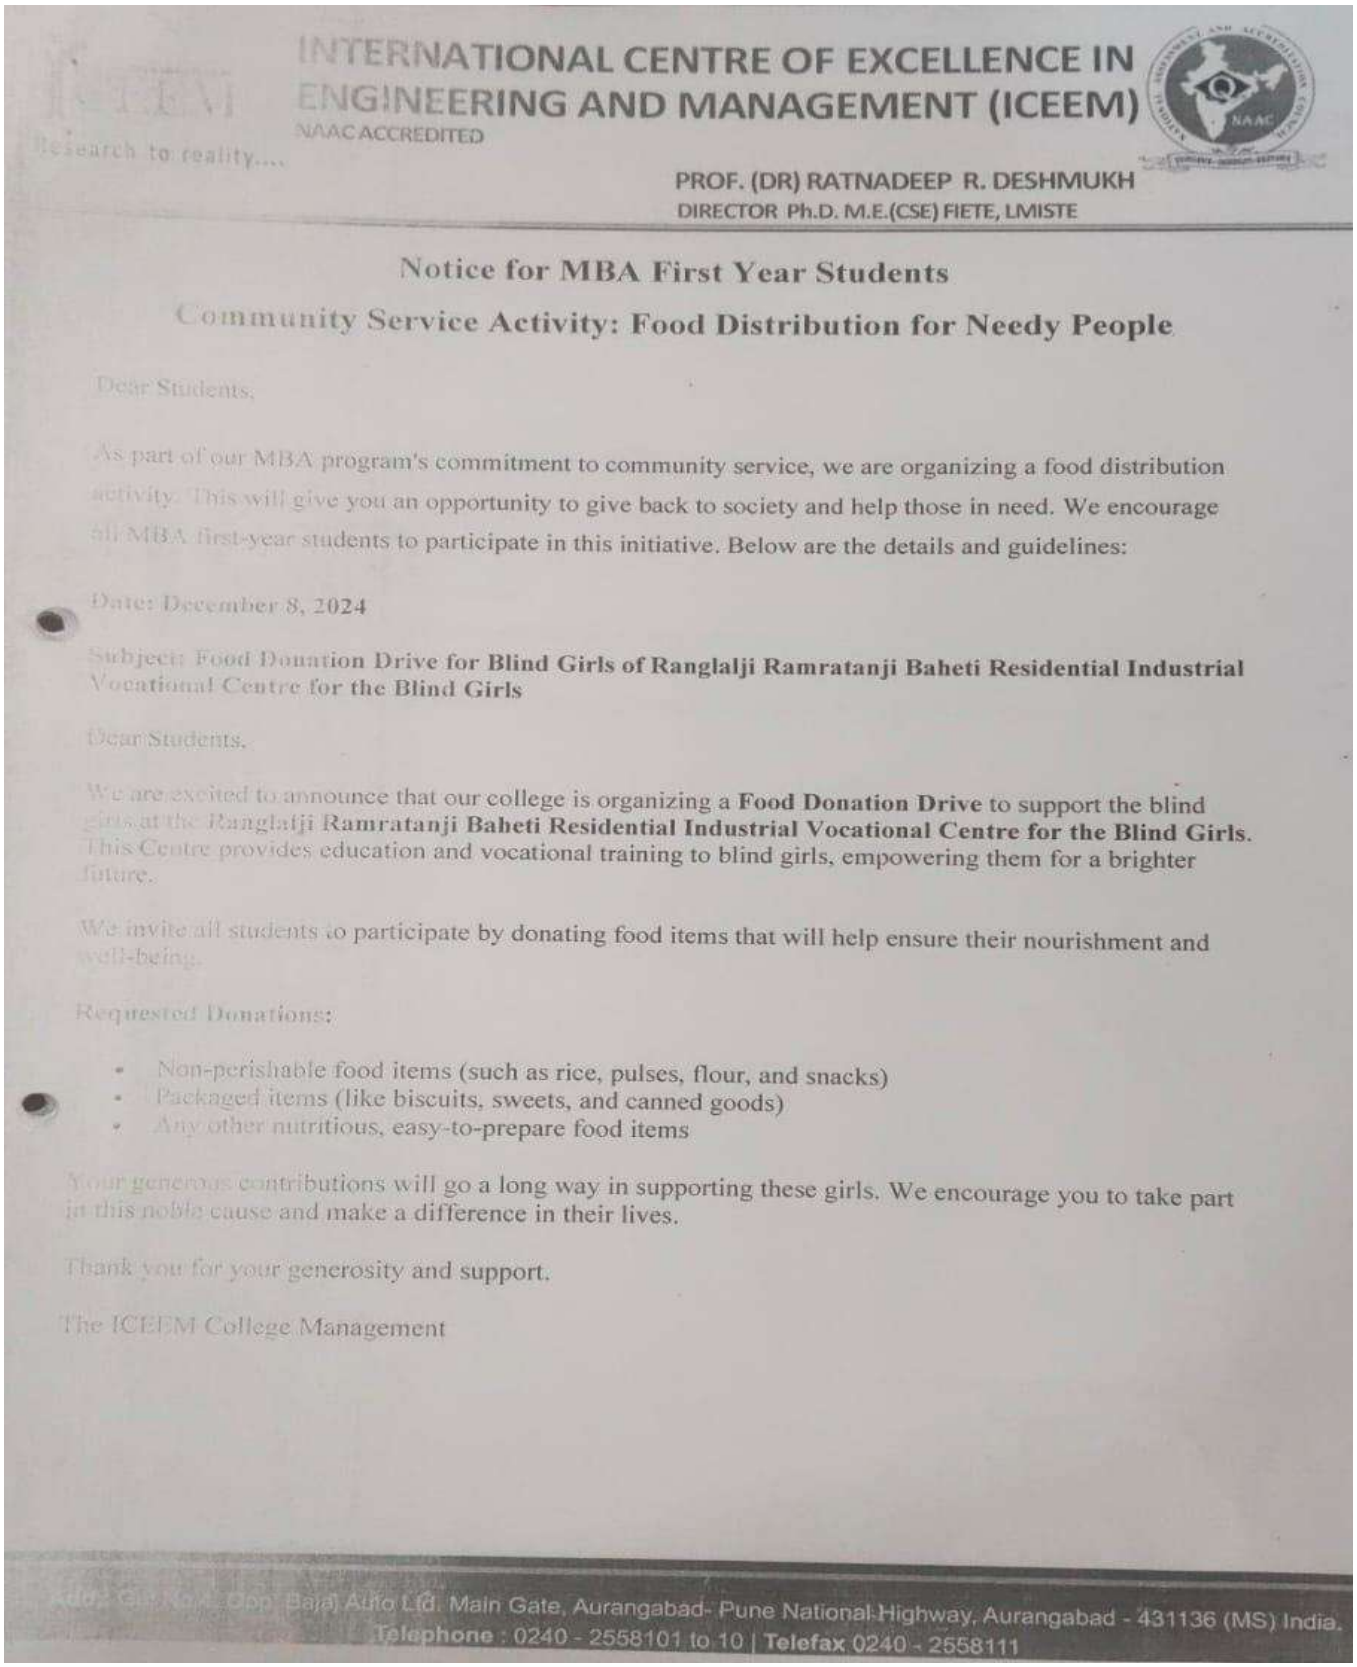

Thanks & regards.

Notice for MBA First Year Students

Community Service Activity: Food Distribution for Needy People

Dear Students,

As part of our MBA program's commitment to community service, we are organizing a food distribution activity. This will give you an opportunity to give back to society and help those in need. We encourage all MBA first-year students to participate in this initiative. Below are the details and guidelines:

Date: December 8, 2024

Subject: **Food Donation Drive for Blind Girls of Ranglalji Ramratanji Baheti Residential Industrial Vocational Centre for the Blind Girls**

Dear Students,

We are excited to announce that our college is organizing a **Food Donation Drive** to support the blind girls at the Ranglalji **Ramratanji Baheti Residential Industrial Vocational Centre for the Blind Girls.** This Centre provides education and vocational training to blind girls, empowering them for a brighter future.

We invite all students to participate by donating food items that will help ensure their nourishment and well-being.

Requested Donations:

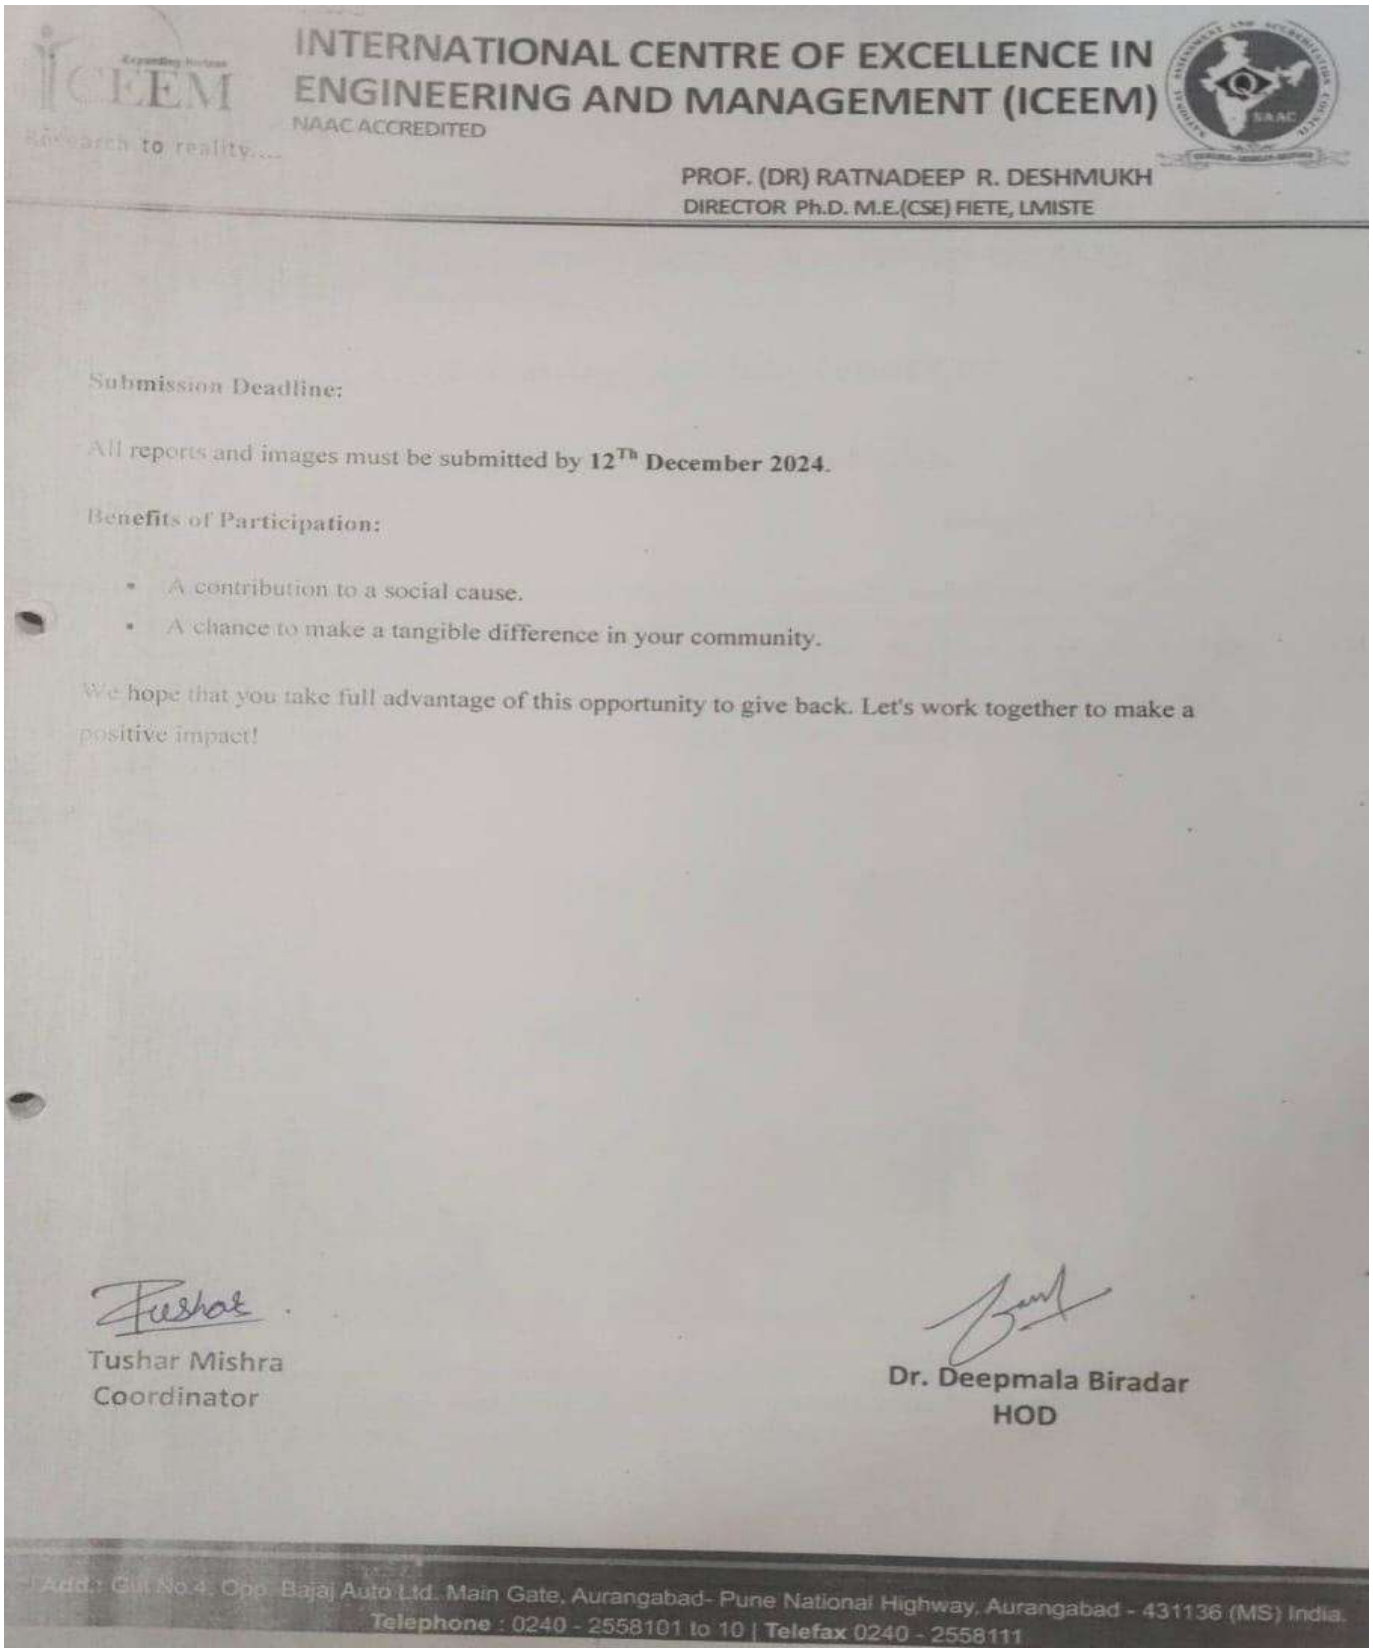

- Non-perishable food items (such as rice, pulses, flour, and snacks)
- Packaged items (like biscuits, sweets, and canned goods)
- Any other nutritious, easy-to-prepare food items

Your generous contributions will go a long way in supporting these girls. We encourage you to take part in this noble cause and make a difference in their lives.

Thank you for your generosity and support.

Submission Deadline:

All reports and images must be submitted by **12Th December 2024**.

Benefits of Participation:

- A contribution to a social cause.
- A chance to make a tangible difference in your community.

We hope that you take full advantage of this opportunity to give back. Let's work together to make a positive impact!

Community Service Report on

"Food Distribution to Blind Girls"

Date: 08 Dec 2024

The food distribution activity held at Ranglalji Ramratanji Baheti Residential Industrial Vocational Centre for Blind Girls was a meaningful and heartwarming experience for all participants. The event was meticulously planned and executed, offering an opportunity to serve and support visually impaired young women while fostering a sense of community and social responsibility among volunteers. From the warm welcome extended by the organizers to the moments of connection shared with the beneficiaries, the event exemplified the spirit of service and compassion.

Introduction

As part of our community service initiative, a food distribution program was organized at the Ranglalji Ramratanji Baheti Residential Industrial Vocational Centre for Blind Girls. The primary aim of this activity was to provide nutritious meals to visually impaired young women while promoting awareness about their needs and challenges. The initiative sought to emphasize the importance of empathy and community support in creating an inclusive society.

Event Overview

The food distribution activity took place at the vocational centre and was attended by volunteers, organizers, and the staff and students of the centre. The event began with a warm welcome and an introductory address delivered by Prof. Tushar Mishra, who outlined the objectives and significance of the initiative. The speaker highlighted the role of such activities in fostering a sense of social responsibility and creating a supportive environment for individuals with disabilities.

Following the introduction, Prof. Tushar Mishra, the program coordinator, introduced the team of volunteers who had worked tirelessly to make the event a success. The volunteers expressed their enthusiasm for contributing to the well-being of the visually impaired and shared their personal motivations for participating in the activity.

Key High lights

- **Distribution of Nutritious Meals:** Volunteers ensured that each student at the centre received a wholesome meal, prepared with careful consideration of nutritional value and dietary preferences. The meals included a variety of items, ensuring a balance of taste and health.
- **Interactive Sessions:** The event featured informal interactions between the volunteers and the students, where they exchanged stories and insights. These conversations highlighted the students' talents and aspirations, leaving a lasting impression on the volunteers.
- **Cultural Exchange:** As part of the event, a small cultural program was organized, featuring performances by the students. Their singing and storytelling showcased their remarkable talents and resilience, inspiring everyone present.

Reflections and Outcomes

The food distribution activity served as a reminder of the power of small acts of kindness in making a significant impact. For the volunteers, it was an opportunity to engage with the blind community and gain a deeper understanding of their strengths and challenges. The students at the vocational centre expressed their gratitude and shared how such initiatives bring them joy and encouragement.

Vote of Thanks

At the conclusion of the activity, Prof. Tushar Mishra, delivered a heartfelt vote of thanks, expressing sincere gratitude to the staff of Ranglalji Ramratanji Baheti Centre for their support and cooperation. Special thanks were extended to the volunteers for their dedication and efforts in making the event a success. The students were acknowledged for their enthusiastic participation and for inspiring everyone with their positivity and determination.

To,

Mrs. Sulbha Ther Madam.

Subject: Invitation for a Yoga Session at ICEEM College, Ch. Sambhajinagar.

Dear Madam,

We take this opportunity to introduce you to International Centre of Excellence in Engineering and Management Aurangabad, (ICEEM Aurangabad) is a premier institute in the state of Maharashtra offering Quality UG/PG programmes in Engineering as well as MBA, approved by AICTE.

We are striving to do our best academically. Our sincere efforts will be truly rewarding if are complemented & supplemented by Academicians & Industry experts.

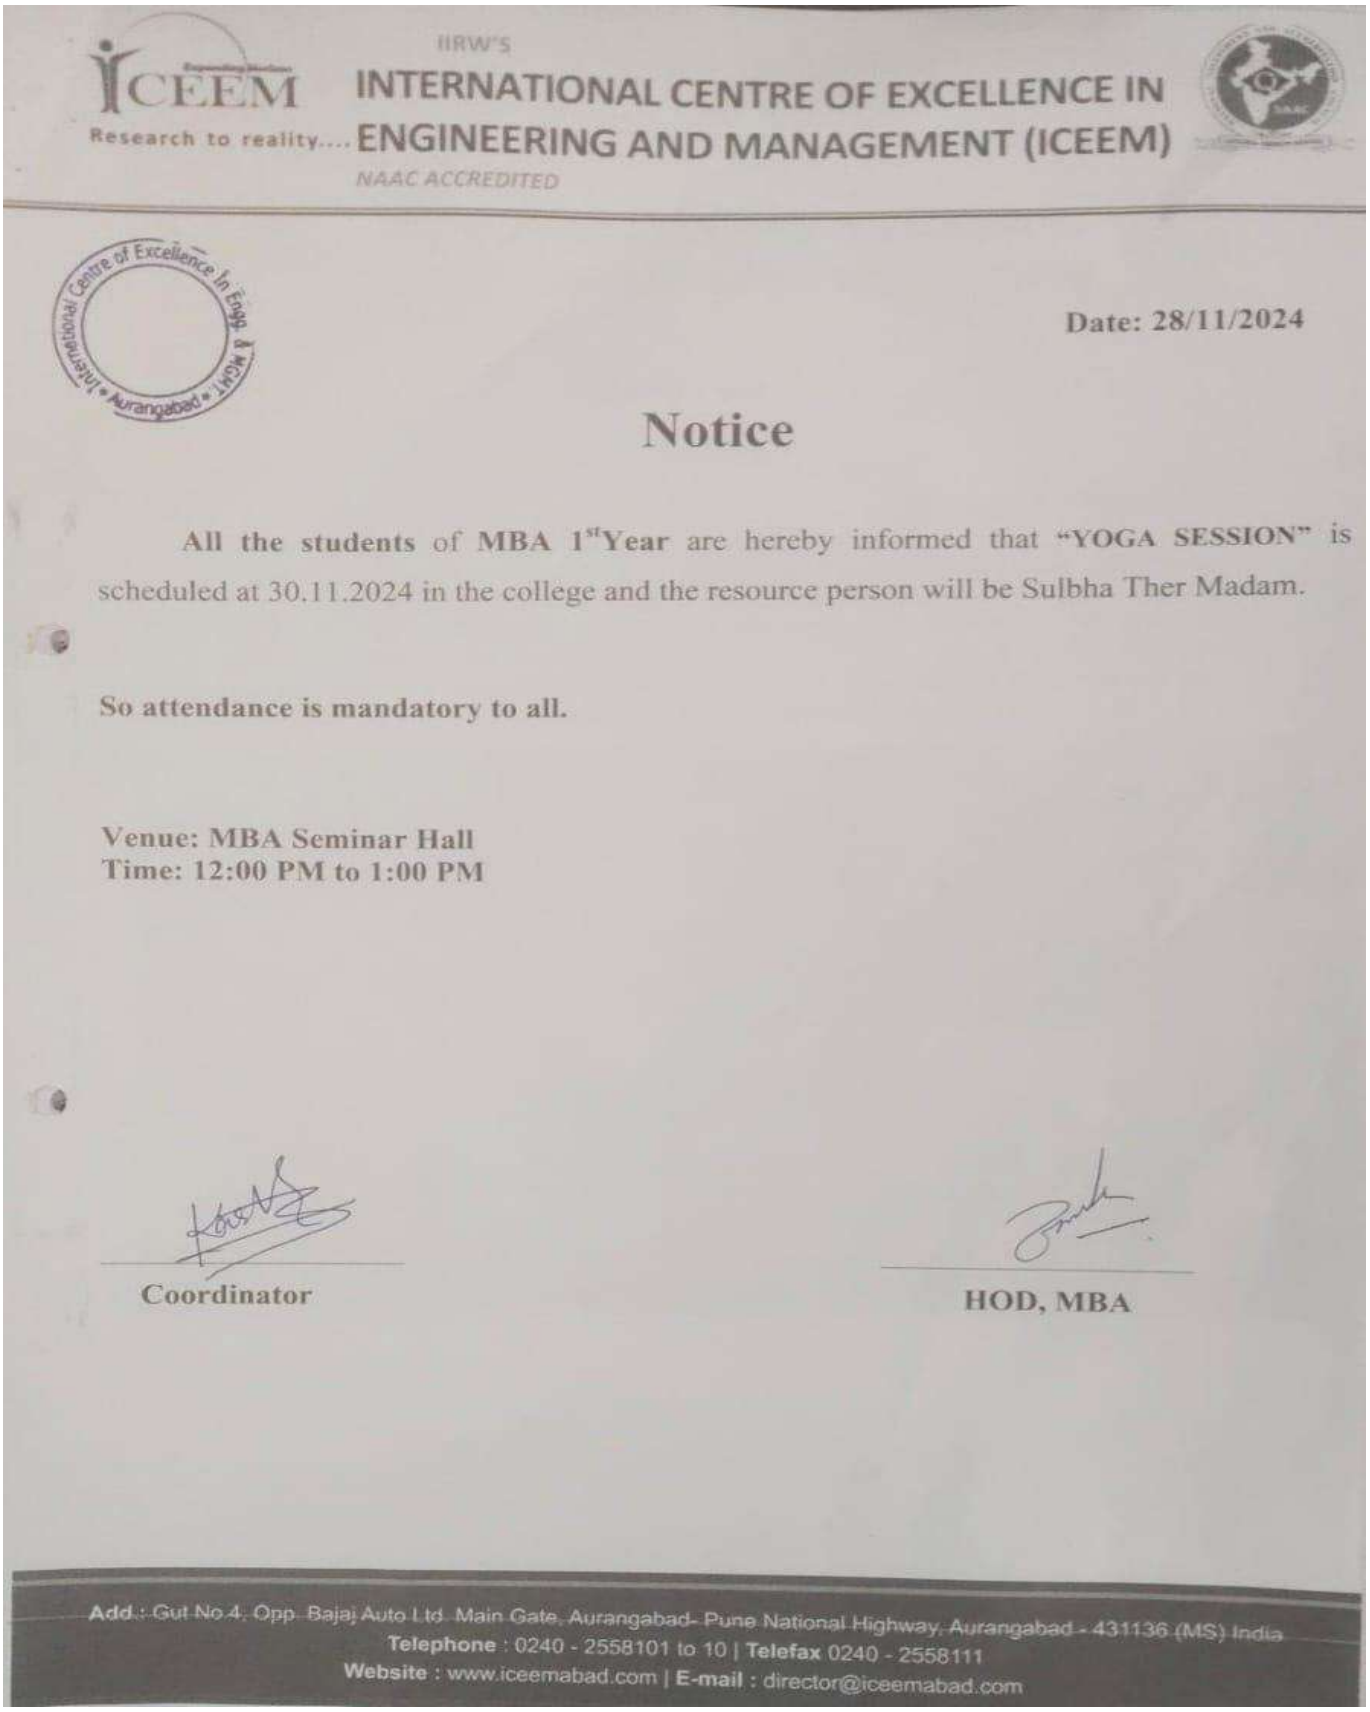

We are organizing Program on **"Yoga Session"** on **30th November 2024** at Our ICEEM Institute will be truly rewarding if you accept our invitation for session Sincere Gratitude to you in anticipation for accepting our invitation.

Yours Truly,

For International Centre of Excellence in Engineering and Management Aurangabad

HOD, MBA

Report on

"Yoga Session"

Date: 30 Nov 2024

The MBA Yoga Session held at the MBA Seminar Hall on **30th November 2024** was a refreshing and enlightening experience for all participants. The session was meticulously planned and offered students an opportunity to take a break from their hectic academic schedules and engage in a holistic practice that nurtures both the mind and body. From the warm welcome provided by the organizers to the engaging discussions led by **Mrs. Sulbha Ther Madam**, the event was designed to introduce students to the numerous benefits of yoga.

Introduction

In accordance with the Dr. Babasaheb Ambedkar University syllabus, a yoga session was scheduled for MBA first-year students on **30th November 2024**. The session aimed to introduce students to the significant benefits of yoga, which contributes to the physical, mental, and spiritual well-being of individuals. Yoga's importance in managing stress, enhancing concentration, and promoting overall health was highlighted during the session.

Session Overview

The yoga session was held in the MBA Seminar Hall and was attended by MBA first-year students. The session commenced with a warm welcome and an introductory speech delivered by Professor Amol Adik, who outlined the objectives and significance of the session. Professor Adik emphasized the importance of yoga in maintaining a balanced lifestyle, particularly for MBA students who often face the pressures of a demanding academic schedule. He highlighted how yoga can enhance both mental clarity and physical well-being, supporting students in achieving their academic and professional goals.

Following the introduction, the program coordinator, Professor Akash Wankhade, formally introduced the resource person for the session, Mrs. Sulbha Ther Madam. With her extensive experience in teaching yoga, Mrs. Ther Madam captivated the students with her insightful and engaging talk. She shared her knowledge about the numerous benefits of yoga, focusing on physical health, mental relaxation, and spiritual growth. Her practical demonstration of basic yoga postures and meditation techniques allowed students to experience the benefits firsthand, equipping them with tools to manage stress, improve focus, and foster overall well-being.

Key Points Discussed by Mrs. Sulbha Ther Madam

Mrs. Sulbha Ther Madam began the session by explaining the fundamentals of yoga and highlighting its importance in cultivating a balanced lifestyle. She emphasized how yoga can positively impact students' physical, mental, and spiritual well-being, which are essential for success in both personal and professional spheres. The key points covered by Mrs. Sulbha Ther Madam included:

The Benefits of Yoga: Yoga helps in reducing stress, enhancing flexibility, improving concentration, and boosting energy levels. It contributes to better physical health and mental clarity, enabling individuals to perform at their best in academic and professional pursuits.

Types of Yoga: Mrs. Ther Madam provided an overview of various types of yoga, such as **Hatha Yoga**, **Kundalini Yoga**, and **Vinyasa Yoga**, explaining their distinct benefits. She encouraged students to explore different forms of yoga and choose the one that aligns with their personal goals and lifestyle.

Yoga Practices for Physical and Mental Health: Mrs. Ther Madam shared practical yoga techniques that students can easily incorporate into their daily routines. She demonstrated simple yet effective asanas (postures) and guided the students through basic meditation practices, helping them understand the importance of mindfulness in managing stress and enhancing focus.

Key Points Discussed by Mrs. Sulbha Ther Madam.

Meditation and Yoga Practice

After discussing the theoretical aspects of yoga, Mrs. Sulbha Ther Madam led the students through a series of practical exercises, beginning with simple stretches and basic asanas (postures). These exercises were designed to improve flexibility, strengthen muscles, and promote overall relaxation. Students were encouraged to focus on their breathing and maintain mindfulness throughout the practice, helping them connect with their bodies and release tension.

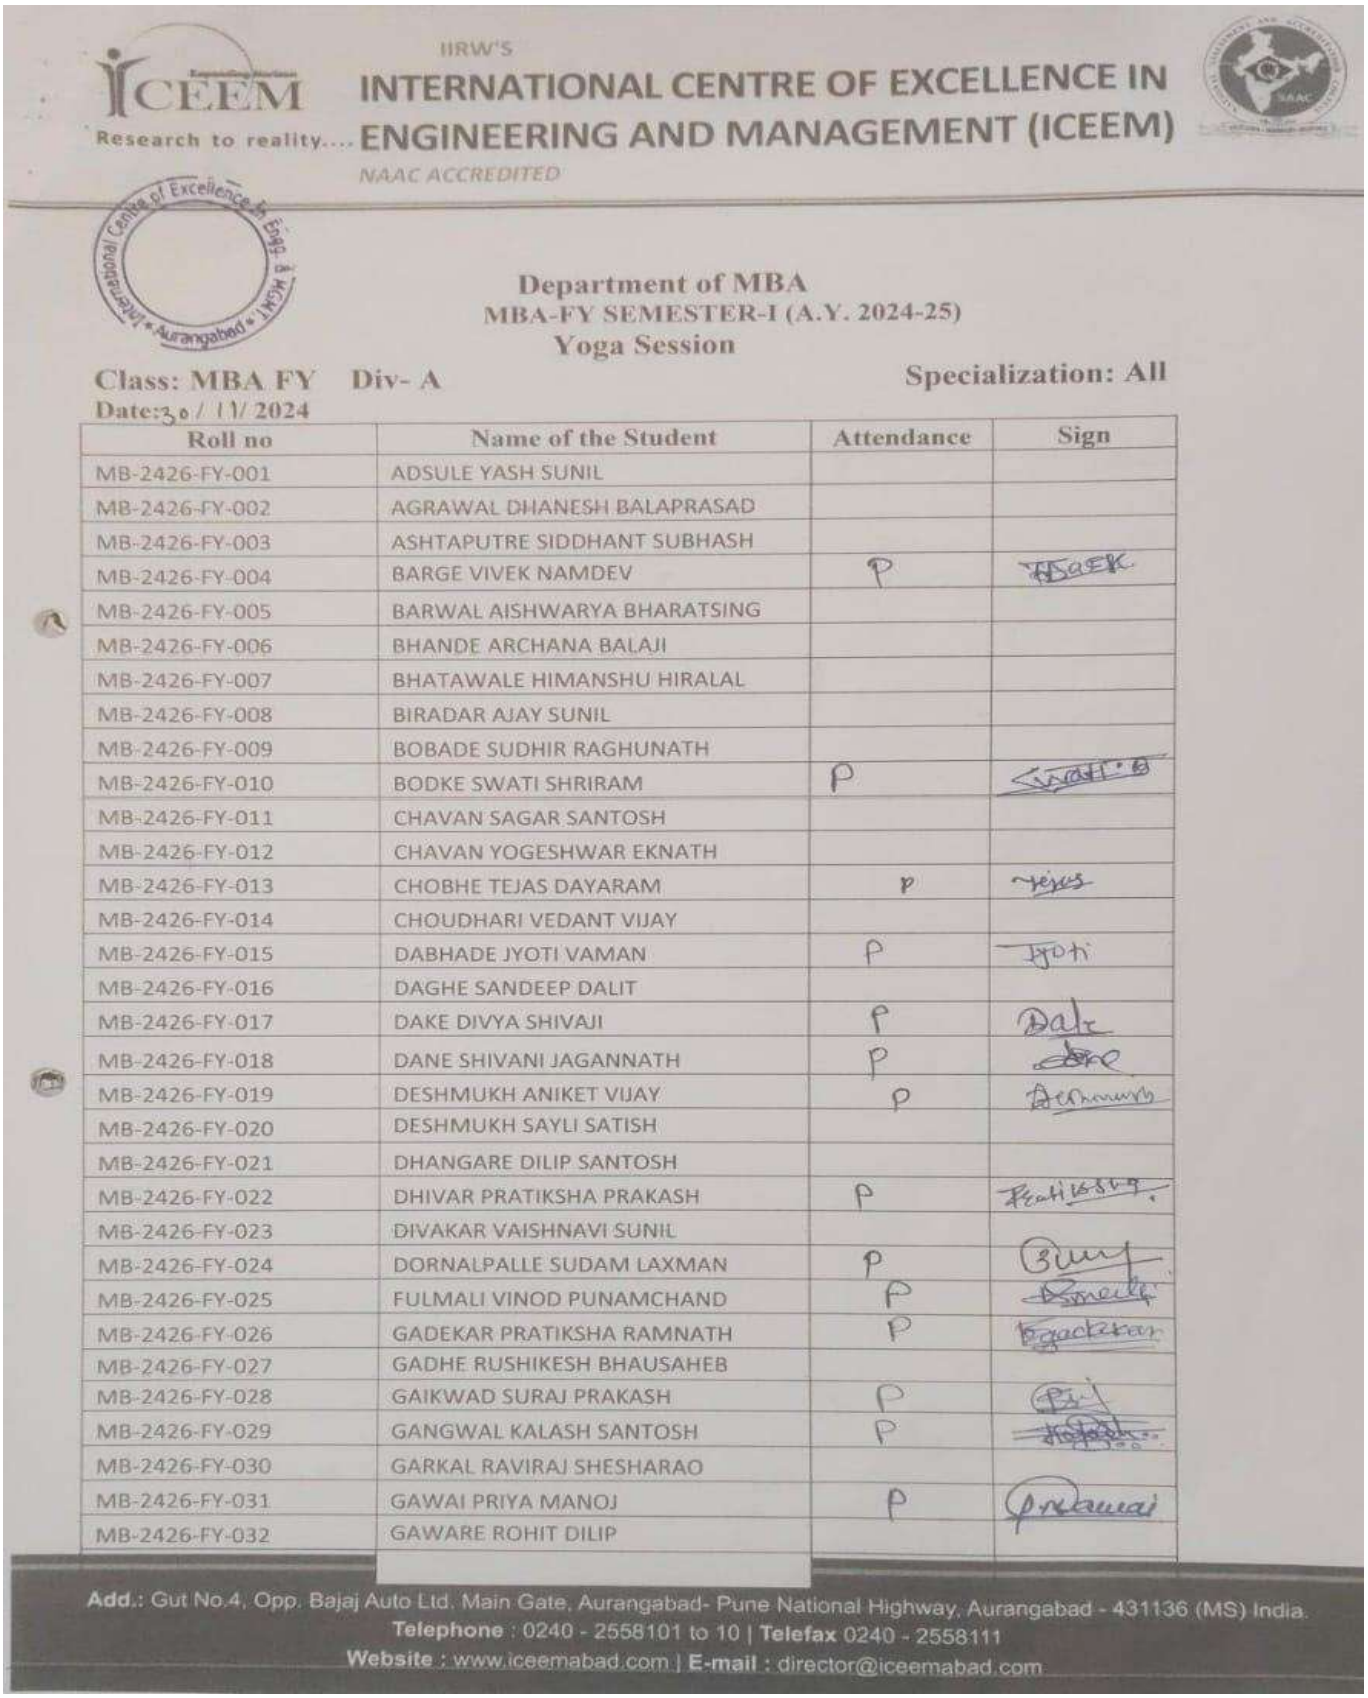

Vote of Thanks

At the conclusion of the session, Professor Savita Gayke delivered a heartfelt vote of thanks, expressing sincere gratitude to Mrs. Sulbha Ther Madam for her invaluable contribution and for sharing her extensive knowledge of yoga with the students. She acknowledged Mrs.Ther Madam's expertise and the positive impact of the session on the students' understanding of yoga. She thanked the students for their active participation and encouraged them to incorporate the practices they had learned into their daily routines for better health and well-being.

To,

Mr. SulbhaTher,

Subject: Letter of Thanks for YOGA Session.

Respected Madam,

We, on behalf of International Centre of Excellence in Engineering and Management, would like to thank you for giving us your precious time to share your valuable knowledge of Yoga and experience to the Students and our Faculty members.

We admire that you have sacrificed your valuable time and shared your knowledge with our Students; it was a source of inspiration for us.

We wish the same kind of cooperation in future.

Thanking you,

Yours Sincerely,

HOD

ICEEM/2024-25/NSS/04 Date: 16th Nov 2024

NOTICE

All ICEEM students are hereby informed that " **Voting Awareness Program "** is scheduled under NSS on occasion of '**Maharashtra Assembly Elections 2024** 'on date 18/10/2024 sharp 01:30 pm.

NSS coordinator NSS In-charge Director (IQAC) Campus Director

Report on Voting Awareness Program

By: Dr.R.R Deshmukh sir, Director, ICEEM, Chhatrapati Sambhajinagar.
Dr.C.S.Padmavat sir, Campus Director, ICEEM, Chhatrapati Sambhajinagar.
Prof. H.L Jadhav sir, Vice Principal, ICEEM, Chhatrapati Sambhajinagar.
Date: 18/11/2024
Department: NSS, ICEEM.

---

1. Introduction

The college is dedicated to fostering responsible citizenship among its students. Recognizing the crucial role of voting in a democracy, the ICEEM College organized a **Voting Awareness Program** aimed at educating students about the significance of voting, the electoral process, and their rights and responsibilities as voters. The program was a part of our broader initiative to encourage active civic engagement and participation among students, particularly those eligible to vote for the first time.

This report provides an overview of the program's objectives, activities, participation, and key outcomes, as well as recommendations for future events.

---

2. Objectives of the Voting Awareness Program

The main objectives of the **Voting Awareness Program** were to:

1. **Educate students about the importance of voting** as a fundamental right and civic duty in a democracy.
2. **Inform students about voter registration** procedures, deadlines, and necessary documentation.
3. **Promote active participation** in upcoming elections at local, state, and national levels.
4. **Debunk common myths** and misconceptions about the voting process.
5. **Encourage informed voting** by equipping students with knowledge about how elections function and the impact of their vote.
6. **Provide a platform for discussion** on political participation, voting systems, and how students can engage in democratic processes beyond elections.

---

3. Program Overview

Date of the Event: 18/11/2024
Duration: 1:30- 3:30 pm
Venue: Seminar Hall ICEEM College

The Voting Awareness Program was a one-day event that combined **interactive workshops, presentations, and hands-on activities**. The event was designed to cater to all students, particularly first-time voters. It featured multiple sessions, each focusing on a different aspect of the voting process.

Key Sessions and Activities:

1. **Opening Address:**
   - The program was inaugurated by the Director of College Guidance, [Director's Name], who highlighted the significance of voting in shaping the future of the country and encouraged students to become responsible citizens.
2. **Session 1: "Understanding Voting Rights"**
   - This session explained the constitutional right to vote, voter eligibility criteria (age, nationality, residence), and the process of registration. The session also covered the various forms of ID required and how to verify voter registration status.
3. **Session 2: "How Elections Work"**
   - A detailed explanation of the election process, including types of elections (local, state, national), the role of political parties, and the voting systems used (first-past-the-post, proportional representation, etc.).
4. **Session 3: "The Power of Your Vote"**
   - This session focused on how voting impacts government policies, local governance, and national decision-making. Discussions included the importance of voting in shaping laws, taxes, healthcare, education, and more.
5. **Session 4: "Debunking Myths About Voting"**
   - An interactive discussion that addressed common myths about voting (e.g., "My vote doesn't count," "The process is too complicated," "Voting is time-consuming"). Students were encouraged to ask questions and share concerns.
6. **Voter Registration Assistance Desk:**
   - Volunteers and faculty members helped students with the voter registration process, guiding them through the online registration system, explaining eligibility criteria, and answering any questions related to registration.
7. **Q&A and Open Discussion:**
   - A live Q&A session where students could interact with political science experts, faculty members, and local election officials. Students were encouraged to ask questions regarding voter rights, election procedures, and how to be an informed voter.
8. **Interactive Polling Exercise:**
   - A mock election was held where students participated in a simulated voting process. This allowed them to experience the voting procedure firsthand, reinforcing the importance of making informed choices during elections.

4. Participation and Audience Engagement

The program saw enthusiastic participation from over **[insert number] students**, with a large number of first-year students attending. The majority of attendees were between the ages of 18-21, representing potential first-time voters.

Feedback collected from participants through surveys showed a high level of engagement and interest, with many students expressing that they felt more confident about the voting process after attending the program. Key points of feedback included:

- **Increased Awareness:** Many students mentioned that they were not fully aware of how to register or the significance of voting until the program.
- **Confidence in Voting:** Several first-time voters expressed feeling more prepared to vote in the upcoming elections.
- **Clarity on Voting Myths:** A large portion of students appreciated the session that cleared up misconceptions about the voting process.

The interactive mock election was particularly well-received, as it allowed students to practice the act of voting in a supportive and educational environment.

---

5. Key Outcomes

1. **Voter Registration:**
    - Over **[insert number]** students registered to vote during the program, either on-site at the registration desk or through assistance provided online. This represents a significant increase in voter registration within the student body.
2. **Enhanced Civic Engagement:**
    - The program successfully increased awareness about the importance of voting, with many students expressing a renewed sense of civic duty and commitment to participate in future elections.
3. **Informed Students:**
    - The program's interactive sessions and discussions contributed to a more informed student body, with participants reporting that they now understood how elections work and felt more prepared to engage in the democratic process.
4. **Community Collaboration:**
    - The program was made possible through collaboration with local election officials, guest speakers from political science departments, and student volunteers. This partnership enriched the experience and ensured that accurate, up-to-date information was shared with the students.

---

6. Recommendations for Future Programs

Based on the success of this program and the feedback received, the following recommendations are made for future voting awareness initiatives:

1. **Expanded Outreach:**
   - To reach a wider audience, future programs should include promotional efforts through social media, programus flyers, and collaboration with student organizations.
2. **Additional Workshops:**
   - Offer more detailed workshops on the political process, such as how to evaluate candidates, understanding policy issues, and the impact of voting on local communities.
3. **More Registration Support:**
   - Provide extended support for voter registration, especially for students who are living away from their home districts and need assistance with absentee voting.
4. **Ongoing Awareness:**
   - Continue the conversation around voting throughout the academic year, with follow-up workshops, guest speakers, and resources available for students to stay engaged in the political process.

---

7. Conclusion

The **Voting Awareness Program** was a successful initiative that met its objectives of educating students on the importance of voting and the election process. The event not only informed students but also inspired many to take active roles in shaping their communities and nation through their votes. The enthusiastic participation, the increase in voter registrations, and the positive feedback highlight the importance of such initiatives in fostering responsible citizenship among young adults.

The ICEEM Collegeis committed to continuing this work and ensuring that students have the resources and knowledge they need to engage fully in the democratic process.

NOTICE

All the students of CSE. Department are hereby informed that the CSE Dept. has organized Online Guest Lecture on subject "Java Networking." by Dr. Anil V. Turukmane, Professor CSE, Vellore Institute of Technology, Andhra Pradesh.

- **Venue: Smart Class**
- **Date: 14th Nov.2024**
- **Number of days: 1 day.**
- **Timing: 10:00 am to 12.00 pm**

Note: 100% Attendance is compulsory for all students.

Report on

Online Guest Lecture

By

Dr. Anil V. Turukmane

Mob: +91- 9421667848

On Behalf of ICEEM CSE Department we have organized Online Guest Lecture for All Second YEAR, Third Year and Final year Student Which Is Conducted by " **Online Guest Lecture**" and the resource person for this program was "Dr. Anil V. Turukmane"

The session was arranged in CSE Department. It was Online Session which is started at 10.00 am sharp and it was for 2 hour The Topic of the Session was **"Java Networking".**

The Session was really very good and helpful for the students mainly he focused on four aspects in the session.

1. Firstly he introduced about sockets and the TCP/IP protocol.
2. In second part he focused on the fundamentals of socket programming in java and dataflow and client server interaction work was explained.
3. Some kind of Motivation is given to the Student to upgrade the Technical Skills.
4. Last point of Discussion was question answer session, student those who have doubt they have cleared all the doubt of the student

1. Introduction of the Speaker

2. Welcome of the Speaker

3. Students Present for the Session

4. Start of the Session

5. Q & A Session

6. Vote of thanks

Anchoring was done by student Vaibhavi Patil
Sir has cleared the many doubts of faculties in Q & A Session.
At last vote of thanks given by student Narayan Adhude.

NOTICE

All MBA students are hereby informed that we are conducting an Industrial Vis
Endress + Hauser and Lesokart MIDC Chh. Sambhajinagar on 12th March,
(Tuesday).

Attendance is compulsory.

Departure time from campus:- 10:00 am Sharp.

Mandatory requirements during the visit are as follows:

1. Uniform is compulsory.
2. No shouting/speaking in loud tone by anyone. Strict discipline to be maintained.
3. Carry note book along with you for recording the observations.
4. Sport Shoes.

Industrial Visit

Request email to Endress+Hauser

From: TPO ICEEM <tpo@iceemabad.com>
Sent: Tuesday, October 8, 2024 4:04 PM
To: Narendra Joshi <narendra.joshi@endress.com>; Naushad Shaikh <naushadn97@gmail.com>
Subject: Request for Industrial Visit for MBA Students

Dear Narendra Sir,

I hope this letter finds you well. I am writing to you on behalf ofICEEM, where our students are currently pursuing MBA Courses. As part of our academic curriculum, we are keen to enhance our practical knowledge by visiting leading companies in the industry to understand their operations, production processes, and management strategies.

We are highly interested in visiting Enhauser due to your company's exemplary reputation in specific industries. We believe that an industrial visit to your esteemed organization would offer our students valuable insights into real-world business processes and operations.

We would like to request your permission for an industrial visit to your facility, for a group of students of MBA FY and Staff, accompanied by 35 . We are looking for the visit on 17th OCt 2024 or 18th OCT 2024 and we would be grateful if you could suggest a suitable schedule as per your convenience. Additionally, we are happy to comply with any guidelines or protocols required for the visit.

We believe that this visit will provide our students with a deeper understanding of the practical aspects of their academic studies and inspire them as future professionals.

We look forward to your positive response and are eager to learn from your team. Please feel free to contact us at 9503600208 if you require any further details or clarification.

Thank you for considering our request.
Yours sincerely,
Naushad Shaikh.

To,

The Director,

ICEEM, Chh. Sambhajinagar.

Sub: Approval for bus facility for Industrial visit

Dear Sir,

MBA Department is going for an **industrial visit** to **Endress + Hauser and Leso-kart** MIDC, Waluj on **12th November, 2024** (Tuesday) with our MBA students. We would require bus facility for around 40+ students with 5 faculties.

Time of departure from campus: 10:30 am

Time of arrival at campus: 5:00 pm

So, I request you to give permission & approval for the same.

Industrial Visit Report of MBA F.Y and S.Y
Endress + Hauser.
Chh. Sambaji Nagar (Aurangabad)

Date of Visit: 12/11/24

Industrial Visit to Endress + Hauser Company

Introduction

The visit to Endress+Hauser at Waluj MIDC aimed to gain insights into their innovative solutions in process automation and instrumentation. Known globally for their high-precision instruments, Endress+Hauser provides measurement and automation equipment for various industries, including chemical, food, and water management sectors. The objective of this visit was to observe how cutting-edge technology is utilized to ensure quality and efficiency in industrial processes.

Objectives of the Visit:

Understanding Process Automation: To learn about the technologies used for process control and automation.
Exploring Instrumentation Techniques: To observe various measurement devices and solutions.
Observing Quality Control and Safety Protocols: To understand the company's approach to quality and safety.
Exploring Sustainability Practices: To see how Endress+Hauser integrates sustainability into its operations.
This visit provided valuable insights into the role of instrumentation in modern industries and the company's commitment to innovation.

Company Overview

Endress+Hauser is a global leader in process instrumentation and automation solutions. The Waluj MIDC facility specializes in manufacturing sensors, measuring instruments, and control systems essential for monitoring processes like temperature, pressure, and flow in industrial environments. Their solutions are widely used across sectors such as oil and gas, water treatment, and pharmaceuticals, where precision and reliability are critical.

Reputation and Commitment:

High Precision: Endress+Hauser's equipment is renowned for accuracy and reliability, ensuring safety and efficiency in industrial processes.
Innovation and R&D: The company invests heavily in research to develop advanced solutions for complex industrial challenges.
Sustainability Focus: Endress+Hauser integrates eco-friendly practices, including energy-efficient processes and waste management.
This facility plays a pivotal role in providing high-quality equipment and services to its Indian and international clients.

3. Observations and Insights from the Visit

During the visit, several key aspects of Endress+Hauser's operations were observed:

Process Automation Technology
Endress+Hauser utilizes sophisticated automation systems that streamline and control industrial processes. Some of the observed technologies included:

Flow Meters and Sensors: These devices measure fluid flow rates with high precision, essential for industries requiring accurate material handling.
Level and Pressure Measurement Devices: We observed instruments designed to detect levels and pressures in tanks and pipelines, crucial for maintaining safe operating conditions.
Temperature Sensors: Temperature measurement is critical in many manufacturing processes, and Endress+Hauser offers devices with high sensitivity and reliability.
Each device is developed to withstand harsh conditions, ensuring accurate measurements even in challenging environments.

Manufacturing Workflow

The manufacturing workflow at the Waluj facility is designed to optimize efficiency and ensure product quality:
Material Handling: Raw materials are processed and assembled in a systematic way, with different sections dedicated to sensors, flow meters, and monitoring equipment.
Assembly and Calibration: Each instrument undergoes precise assembly and is calibrated to meet stringent quality standards.
Testing: Final products are rigorously tested to ensure accuracy and compliance with industry standards before they are shipped.
This efficient workflow enables Endress+Hauser to maintain high production standards and meet client demands effectively.

Quality Assurance and Safety Protocols
Quality and safety are foundational to Endress+Hauser's operations, reflecting their commitment to delivering reliable products and maintaining a safe working environment.

Quality Control Measures
Endress+Hauser applies strict quality control measures, including:

Calibration: Each device is calibrated meticulously to meet industry-specific accuracy requirements.
In-Process Quality Checks: Quality inspections are conducted at various stages to ensure compliance with specifications.
Final Testing and Certification: Each instrument undergoes a final inspection and is certified before dispatch, ensuring high standards of performance.
Their quality control department follows international standards, which reinforce the company's reputation for reliability and accuracy.

Safety Standards and Employee Training
Safety is a top priority, especially given the complexity of the equipment and high standards for industrial

instrumentation:
Protective Gear: Employees are required to wear protective equipment, including gloves, safety glasses, and ear protection.
Regular Safety Training: Ongoing training programs educate employees about the correct handling of machinery and emergency protocols.
Safety Systems: Machines are equipped with safety interlocks and emergency stop functions, ensuring safe operation.
By enforcing rigorous safety protocols, Endress+Hauser fosters a safe and productive environment, contributing to employee well-being and operational efficiency.

Technological and Sustainability Practices

Endress+Hauser is committed to technological advancement and sustainability:

Advanced Automation and Data Integration
The facility incorporates smart sensors and IoT-enabled devices, allowing for real-time data collection and monitoring. This data is analyzed to improve process efficiency, reduce downtime, and provide predictive maintenance insights.

The use of automated systems minimizes human error, ensures consistent quality, and improves productivity. The integration of these technologies underscores Endress+Hauser's commitment to pioneering automation in the industry.

Sustainability Initiatives

Endress+Hauser adopts several eco-friendly practices at the Waluj facility:

Waste Management: The facility has effective systems for recycling electronic waste and reducing non-biodegradable waste.
Energy-Efficient Processes: Energy-efficient manufacturing processes reduce power consumption and support the company's environmental objectives.
Green Manufacturing: Endress+Hauser employs sustainable manufacturing practices, aiming to minimize the environmental impact of their production processes.
These initiatives align with global sustainability goals and reflect Endress+Hauser's commitment to responsible business practices.

Conclusion and Personal Insights
The industrial visit to Endress+Hauser's Waluj MIDC facility offered valuable insights into modern process automation and the importance of instrumentation in industrial settings. Observing the use of advanced measurement devices and the integration of automation was particularly enlightening, showcasing the company's role in enhancing operational efficiency across sectors.

Key Takeaways:

Technological Expertise: Endress+Hauser's use of advanced automation and data-driven solutions sets a benchmark in instrumentation.
Quality and Safety Standards: The emphasis on rigorous quality control and employee safety is a testament to their commitment to excellence.
Sustainability: The company's sustainable practices are commendable and align with contemporary environmental goals.
Relevance to Future Goals: This visit highlighted the critical role of instrumentation in industrial automation, which is highly relevant for careers in engineering, manufacturing, and process control. Endress+Hauser's dedication to precision and innovation serves as an inspiring example.

In conclusion, Endress+Hauser's Waluj facility exemplifies excellence in industrial instrumentation and sustainable manufacturing. This visit was highly educational, and I extend my gratitude to the company for the opportunity to explore their operations and gain meaningful insights.

Industrial Visit Report of MBA F.Y and S.Y
Leso-Kart
Chh. Sambaji Nagar (Aurangabad)

Date of Visit: 12/11/24

Industrial Visit to Leso-Kart Company

1. Introduction:- The visit to Leso-Kart Sheet Metal Cutting Company was organized to gain first-hand exposure to modern sheet metal manufacturing, explore advanced machinery, and understand the practical application of safety and quality standards in an industrial setting. Sheet metal cutting is a foundational process in numerous industries, from automotive to electronics, making it a critical part of modern manufacturing. This visit aimed to explore how Leso-Kart implements state-of-the-art technologies, ensures high-quality standards, and maintains efficient workflows.

Objectives of the Visit:

Understand Sheet Metal Cutting Technology: Observe the specific machines and processes used for precision cutting.
Examine Quality Control Measures: Learn how the company maintains stringent standards.
Observe Safety Protocols: Understand the safety measures in place to protect employees.
Identify Sustainability Efforts: Explore the company's approach to minimizing waste and reducing environmental impact.
This visit offered an invaluable perspective on how theoretical knowledge in metal cutting is applied practically in an industrial environment.

Company Overview

Leso-Kart Sheet Metal Cutting Company is a leader in sheet metal fabrication, providing custom cutting solutions for industries like automotive, construction, and electronics. Known for its commitment to quality, the company specializes in precise cutting services that meet industry standards and customer requirements. Leso-Kart uses various cutting technologies to ensure accuracy and efficiency, adapting its processes to client specifications.

Leso-Kart's reputation is built on:

Precision Cutting: Ensuring cuts are accurate down to the millimeter.
Innovation: Investing in advanced machinery and innovative technologies.
Sustainability: Employing eco-friendly practices to reduce waste and energy consumption.
Leso-Kart's relevance in the industry lies in its adaptability and responsiveness to the growing demand for high-quality metal components. By focusing on efficiency and sustainability, it maintains a competitive edge in the sheet metal fabrication industry.

Observations on Sheet Metal Cutting Process:-

During the visit, we observed several key stages in the sheet metal cutting process at Leso-Kart

Cutting Technology and Machinery Leso-Kart utilizes a range of cutting-edge machinery for metal fabrication.

Laser Cutters: High-precision laser machines allow for intricate cuts and patterns. The laser cutting technology provides smooth edges and minimal distortion, making it ideal for delicate parts and tight tolerances.

CNC (Computer Numerical Control) Machines: CNC machines automate cutting processes, ensuring consistent precision. Programmed to follow exact specifications, CNC machines are used for both high-volume production and complex designs.

Hydraulic Shears: These are used for cutting thicker sheets, where high force is needed for straight cuts. Hydraulic systems improve speed and reduce operator fatigue.
Each machine is calibrated for accuracy, and operators monitor the process to ensure consistent quality. These machines also help reduce material wastage by optimizing sheet layout, which is essential for sustainability.

Manufacturing Workflow
The manufacturing process begins with the selection of sheet metal based on client requirements. Sheets are placed into cutting machines, where operators program dimensions and designs into the machine's software. Laser or CNC cutters then execute the cuts with high precision. Following the initial cut, parts may undergo additional processes like debarring to remove sharp edges or cleaning to ensure a smooth finish.
The manufacturing floor is organized to support a smooth flow of materials, minimizing idle time and ensuring efficient production cycles. The efficiency observed in Leso-Kart's workflow allows for high throughput without compromising on quality**.**

4. Quality Assurance and Safety Protocols
Leso-Kart places a high emphasis on quality and safety. Quality control is implemented at each stage to ensure compliance with industry standards**.**

Quality Assurance Measures
Quality control begins with a dimensional inspection to verify the accuracy of cuts and finishes. Each part is measured against specifications using tools like calipers and laser measurement systems. Additionally, surface inspections check for any deformities, ensuring that only flawless parts proceed to the next stage. Leso-Kart's commitment to quality is evident in its strict tolerance limits, which reduce the chance of defects.
Final inspections are conducted before packaging, where parts are tested for strength and durability, especially if they are intended for industries with high safety standards, like automotive manufacturing.

Safety Standards and Employee Training:-
Safety is paramount at Leso-Kart, especially given the use of high-powered machinery. Safety protocols include mandatory personal protective equipment (PPE) like gloves, safety goggles, and ear protection for operators. Regular safety training sessions are conducted to ensure all employees understand machine operations and emergency procedures.

5. Technological and Sustainability Practices

Leso-Kart has adopted a range of practices to integrate technology and sustainability into its processes:

Automation and Digital Integration

Advanced automation helps Leso-Kart streamline its operations. CNC programming allows operators to automate repetitive tasks, reducing errors and increasing efficiency. Additionally, real-time monitoring of machines ensures that production runs smoothly, and any issues can be quickly addressed.

The use of software to optimize sheet layouts reduces material wastage by calculating the best arrangement for cuts, further supporting Leso-Kart's sustainability goals.

Sustainability Efforts

Leso-Kart is committed to reducing its environmental footprint. Recycling programs are in place to collect and process metal scraps, and energy-efficient machinery is utilized to minimize power consumption. Waste management systems ensure that the company adheres to environmental regulations, and Leso-Kart actively explores new ways to reduce emissions and conserve resources.

6. **Conclusion and Personal Insights**

The visit to Leso-Kart Sheet Metal Cutting Company provided deep insights into the manufacturing industry's technological advancements, efficiency practices, and quality standards. Observing real-world applications of metal cutting technologies like laser and CNC machinery helped bridge the gap between theoretical learning and practical application. The company's focus on precision, safety, and sustainability reflects current trends in manufacturing**.**

Key Learning's:

Technological Integration: Automation and precision technology are essential for efficient manufacturing.
Sustainability: Companies are increasingly prioritizing eco-friendly practices, from waste reduction to energy conservation.
Quality and Safety: High-quality standards and rigorous safety protocols are critical for both product reliability and employee well-being.
Relevance to Future Goals: This visit has reinforced the importance of technological expertise in manufacturing and highlighted the value of sustainability practices. These insights are highly relevant for pursuing a career in manufacturing or industrial engineering.

In conclusion, Leso-Kart's commitment to precision and sustainability is impressive, making it an exemplary model for modern sheet metal cutting. I extend my gratitude to Leso-Kart for their hospitality and the opportunity to learn from their cutting-edge operations.

ICEEM College: Report of Night and Morning Study Schedule

Introduction: International Centre of Excellence in Engineering and Management (ICEEM) is implementing a comprehensive Night and Morning Study Schedule to enhance academic performance and overall student development. This report provides detailed information about the schedule for both boys and girls, covering the period from November 11, 2024, to December 17, 2024.

Night Study Schedule

Boys:

- **Venue:** Boys Hostel
- **Time:** 8:00 PM to 11:00 PM (Daily)

Girls:

- **Venue:** College Library
- **Time:** 8:00 PM to 11:00 PM (Daily)

Morning Study Schedule

Boys:

- **Venue:** Boys Hostel
- **Time:** 07:00 AM to 10:00 AM (Daily)

Girls:

- **Venue:** College Library
- **Time:** 07:00 AM to 10:00 AM (Daily)

Activities:

- **Self-study:** Students can focus on individual subjects, review notes, and work on assignments without distractions in a quiet environment.
- **Group Discussions:** Collaborative sessions where students share ideas, clarify concepts, and engage in problem-solving with their peers.
- **Doubt-solving Sessions:** Designated time for students to seek clarification on challenging topics with the assistance of faculty or senior mentors.

- **Mentoring by College Faculty:** Faculty members provide personalized guidance, helping students develop strategies for tackling academic challenges and improving their understanding of complex topics.

Key Features of the Study Schedule

1. **Dedicated Study Spaces:**
    - The boys' hostel provides a secure, comfortable, and distraction-free environment exclusively for male students. The college library, open to all, offers a quiet, resource-rich setting ideal for individual and group study.
2. **Flexible Timings:**
    - The schedules are thoughtfully designed to accommodate different learning preferences. Evening sessions allow students to consolidate their day's learning, while morning sessions provide an opportunity to start the day with focused study and preparation.
3. **Faculty Support:**
    - Experienced faculty members will be present during study hours to offer personalized guidance, clarify doubts, and assist with challenging academic topics. Their presence ensures students receive the necessary support to excel in their studies.
4. **Peer Learning Opportunities:**
    - Group discussions and mentoring sessions encourage collaboration among students. By interacting with peers, students can share knowledge, exchange ideas, and develop critical problem-solving skills in a cooperative environment.
5. **Regular Monitoring:**
    - The college administration will implement a robust monitoring system to track attendance and active participation in the study sessions. This oversight will ensure accountability and help identify areas for improvement in the program.

Expected Outcomes

❖ **Academic Performance:**

- **Improved Grades:** Consistent, dedicated study time can lead to better understanding of concepts and improved academic performance.

- **Enhanced Problem-Solving Skills:** The structured study environment can foster critical thinking and problem-solving abilities.
- **Increased Knowledge Retention:** Regular revision sessions during study hours can solidify learning and improve long-term retention.

❖ **Time Management:**

- **Efficient Time Utilization:** The schedule encourages effective time management by allocating specific time slots for study.
- **Prioritization Skills:** Students learn to prioritize tasks and allocate time efficiently.
- **Reduced Procrastination:** The structured environment can help students overcome procrastination tendencies.

❖ **Self-Discipline:**

- **Increased Focus:** The dedicated study hours cultivate focus and concentration.
- **Habit Formation:** Regular study habits can become ingrained, leading to a disciplined approach to learning.
- **Self-Motivation:** The structured environment can inspire self-motivation and a strong work ethic.

❖ **Reduced Academic Stress:**

- **Lower Anxiety Levels:** Consistent study habits can reduce anxiety and stress associated with exams and assignments.
- **Improved Mental Health:** Regular study sessions can contribute to better mental health and overall well-being.
- **Enhanced Confidence:** Improved academic performance can boost self-confidence and reduce stress.

❖ **Stronger Peer Bonds:**

- **Collaborative Learning:** Group study sessions can foster collaboration and teamwork.
- **Social Support:** The shared experience of studying together can strengthen friendships and provide emotional support.
- **Positive Peer Influence:** The influence of motivated peers can inspire and encourage individual effort.

Summary of Report: The implementation of the Night and Morning Study Schedule is a significant step towards creating a supportive and stimulating academic environment at ICEEM. By providing dedicated study spaces, expert guidance, and opportunities for collaborative learning, the college aims to empower students to achieve their full potential.

Report on

Online Guest Lecture

By

Dr. Seema R.Chaudhari

Mob: +91-9423149783

On Behalf of ICEEM CSE Department we have organized Online Guest Lecture for All Second YEAR, Third Year and Final year Student Which Is Conducted by " **Online Guest Lecture** " and the resource person for this program was "Dr.Seema R.Chaudhari"

The session was arranged in CSE Department. It was Online Session which is started at 1.00 pm sharp and it was for 2 hour The Topic of the Session was

"Event Handling In JAVA"

The Session was really very good and helpful for the students mainly he focused on four aspects in the session.

1. Firstly she introduced about Java swing program and demonstration was given.
2. In second part she focused on different events like keyboard and mouse events were handled with programming and JDBC was explained.
3. Some kind of Motivation is given to the Student to upgrade the Technical Skills.
4. Last point of Discussion was question answer session, student those who have doubt they have cleared all the doubt of the student.

1. Introduction of the Speaker

2. Welcome of the Speaker

3. Students Present for the Session

4. Start of the Session

5. Q & A Session

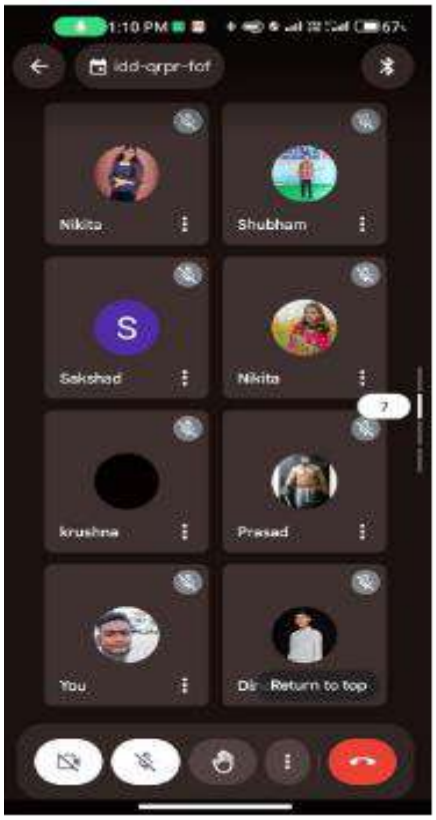

6. Vote of thanks

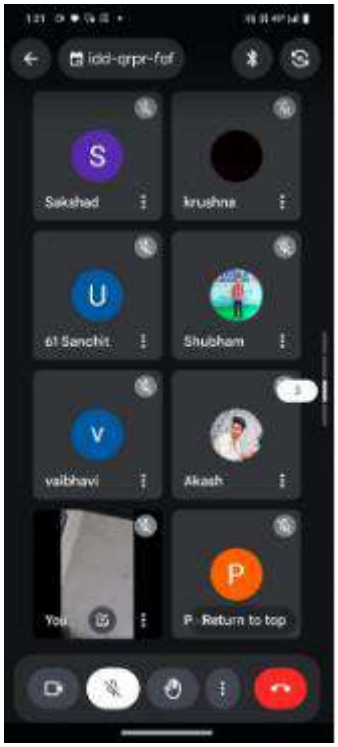

Anchoring was done by student Vaibhavi Patil
Ma'am has cleared the many doubts of faculties in Q & A Session.
At last vote of thanks given by student Narayan Adhude.

Industrial Visit Report

Department :Electrical and Electronics Engineering Department
Visited Company Name: CG Power and Industrial Solutions Limited
Location: Waluj, Chh. Sambhajinagar
Date of Visit: 3 October 2024
Duration: 3 Hrs
Participants: Staff members of EEE Department: 1) 2) Prof. S.G.Rathod
3) Prof. P.U. Bhagat 4)Prof. P.V.Kurhe
All SE, TE and BE Students of EEE Department

Introduction:

CG Power and Industrial Solutions Limited, formerly known as Crompton Greaves Limited, is a leading Indian company in the field of power transmission and distribution. The company manufactures a wide range of products, including transformers, switchgears, and circuit breakers.

Objectives:

The objectives of the industrial visit were:

1. To understand the manufacturing process of electrical equipment.
2. To gain knowledge about quality control measures.
3. To observe the application of theoretical concepts in real-world scenarios.

Observations and Learning's:

Key takeaways from the visit include:

1. Emphasis on safety and quality.
2. Use of advanced technology and automation.
3. Importance of supply chain management.
4. Employee skill development and training programs.

CG Power and Industrial Solutions Limited (CG Power) is a leading Indian company that manufactures electrical equipment and provides solutions for power and industrial systems. Working or training at CG Power Company can provide valuable learning experiences in various areas, including:

Electrical Engineering

- Design, development, and manufacturing of electrical equipment such as transformers, switchgears, and circuit breakers.
- Understanding of electrical systems, including power generation, transmission, and distribution.

Power Systems

- Knowledge of power systems, including generation, transmission, and distribution.
- Familiarity with power system analysis, planning, and operation.

Industrial Automation

- Understanding of industrial automation technologies.
- Familiarity with industrial control systems and their applications.

Manufacturing and Quality Control

- Lean manufacturing techniques and quality control processes.
- Understanding of manufacturing processes, including fabrication, assembly, and testing.

Research and Development

- Exposure to R&D activities, including new product development and innovation.
- Familiarity with design tools and material used in electrical engineering.

Business and Management

- Understanding of business operations, including sales, marketing, and supply chain management.
- Familiarity with business analytics and data analysis.

Soft Skills

- Teamwork and collaboration.
- Communication and presentation skills.
- Problem-solving and analytical thinking.

Conclusion:

The industrial visit to CG Power and Industrial Solutions Limited provided valuable learning experiences in various areas, including the manufacturing process and operations of a leading power industry company. We gained practical knowledge and understanding of theoretical concepts, which will benefit us in our future endeavours.

Acknowledgments:

We express our gratitude to CG Power and Industrial Solutions Limited for accommodating our visit and providing valuable information. Special thanks to Mr.Dilip Shirsath sir (HR manager CG P&I Limited) for guiding us throughout the visit.

- Working professionals explaining about work to students

- **Team of** CG Power and Industrial Solutions Limited and ICEEM EEE Department Staff and Students

Dear Sir,

On behalf of International Centre of Excellence in Engineering and Management, we deeply appreciate the time you have given to guide & share the knowledge with our students at your industry. From the feedback have got from students, we found that you were meticulous when explaining the whole process regarding operation and working at each step. Even the hospitality that you showered on them was remarkable. Thank you for that.

Our students were very happy with the overall outcome of visit at your Crompton Greaves Limited. In totality, after visiting your Crompton Greaves Limited, they have certainly had an enriching learning experience. I again express my gratitude for hosting our students at your industry and providing a fruitful experience.

We wish the same kind of cooperation in future.

A REPORT ON

"Expert Talk on Goal Setting In Career"

By

Dr. Deepmala Biradar

FOR FIRST YEAR ENGINEERING STUDENTS

ON

03rd October, 2024

Expert Speaker: Dr. Deepmala Biradar
HOD(MBA Dept) ICEEM
Ch.Sambhajinagar

Speaker: Dr. Deepmala Biradar.

Date: 03rd October 2024.

Venue: Conference hall.

Audience: First year engineering Students.

Topic: Expert Talk on Goal Setting in Career.

Total no. of students attended: 100

Humanity and Science department of International Centre of Excellence in Engineering and Management organized Expert talk on Goal setting in career by Dr. Deepmala Biradar on 03rd October 2024(Thursday) for First year engineering students. The Guest speaker Dr. Deepmala Biradar(PHD Management Science, MBA HR,MBA IT) working as HOD of MBA department of ICEEM Waluj Ch. Sambhajinar Having 6yrs of Academic and 10 yrs of Industrial experience.

Session was started by welcoming our guest by Head of the Department prof. kale M.P prof. J. V. Dighole gives guests introduction to students. Lecture started by introducing importance of setting goals form career perspective with the help of real time examples.

Following points were briefly explain by guest

1. SMART Goal setting
2. Looking towards new opportunities in career
3. Benefits of setting Goals early.
4. Strategic Planning

The guest also conducted some fun activates for students. This program helped students understand setting clear, specific, and measurable goals is fundamental. Engineers need a precise understanding of what they aim to achieve. Lastly the session was concluded with vote of thanks by Ms. Savita Gevande.

MBA Fresher's Party at Srushti Agro Hotel

The MBA Fresher's Party held at Srushti Agro Hotel on 28 Sep 2024 was an event filled with enthusiasm, laughter, and unforgettable memories. The program was meticulously organized, offering students a warm welcome, engaging games, the Mr. and Miss Fresher competition, a delectable lunch, and a dance Activity to cap off the day.

Program Highlights:

1. Student Arrival: The festivities kicked off with the arrival of MBA students at the beautiful Sushi Agro Hotel. The lush surroundings set the perfect backdrop for a day of celebration and bonding.

2. Welcome and Program Overview: Dr. Deepmala Biradar, welcomed the students with a heartfelt address. He provided an overview of the day's events, encouraging active participation and a spirit of camaraderie among the students.

3. Lamp lighting: The fresher's party illuminated not just the room, but the hearts of all attendees. As the first lamp was lit, it symbolized the warmth of new beginnings and friendships waiting to blossom. Each flicker of light represented the unique spirit of our incoming class, creating an atmosphere filled with excitement and anticipation. Together, we ignited a spark that will guide us through our journey ahead, making memories that will last a lifetime.

3. Indoor Games: The indoor games at the fresher's party transformed the atmosphere into one of laughter and friendly competition. Participants eagerly engaged in a variety of games, from classic board games to lively team challenges, fostering connections and camaraderie. Each round was filled with excitement, as teammates cheered each other on and shared moments of joy.

4. Mr. and Miss Fresher Competition: Our Student Sandip Kelode hosted the eagerly awaited Mr. and Miss Fresher competition. Contestants showcased their talents and charisma, making the task of the judges incredibly challenging. Principal Prof. Magar, had the honor of crowning the Mr. Fresher, while Prof. kale madam, a respected faculty member and HOD, bestowed the title of Miss Fresher. The winners received crowns and sashes as tokens of their achievement.

5. **Felicitation ceremony**: The felicitation ceremony at the Fresher's Party of our faculty was a heartwarming occasion that celebrated the vibrant spirit of our incoming students. Esteemed faculty members welcomed the fresher's with inspiring speeches, highlighting the importance of community and academic excellence. The event featured cultural performances, fostering camaraderie among students. This initiative not only recognized the achievements of the new entrants but also set a positive tone for their journey ahead. The atmosphere was filled with enthusiasm, promising a fruitful academic year.

5. Lunch Extravaganza: Srushti Agro Hotel treated the attendees to a delectable lunch spread featuring a diverse range of culinary delights. The meal provided students and faculty with an opportunity to unwind, connect, and share their experiences in a relaxed and enjoyable setting.

6. Cake Cut Ceremony: The cake-cutting ceremony at the Fresher's Party was a delightful highlight of the event, symbolizing the warm welcome extended to our new students. As the faculty and fresher are gathered around, the atmosphere was filled with joy and anticipation. The act of cutting the cake together fostered a

sense of unity and celebration, marking the beginning of their academic journey. This simple yet meaningful gesture reinforced the community spirit within our faculty, creating cherished memories that the students will carry throughout their time at college. Overall, it was a heartwarming moment that encapsulated the essence of togetherness and support.

6. Outdoor Games: The outdoor activities at the Fresher's Party provided an exhilarating and engaging experience for all participants. Students participated in team-building games, sports competitions, and fun challenges, fostering camaraderie and collaboration among the fresher's. This vibrant atmosphere encouraged new friendships and helped ease the transition into college life. The outdoor setting, coupled with the enthusiasm of the participants, created lasting memories and set a positive tone for the academic year ahead.

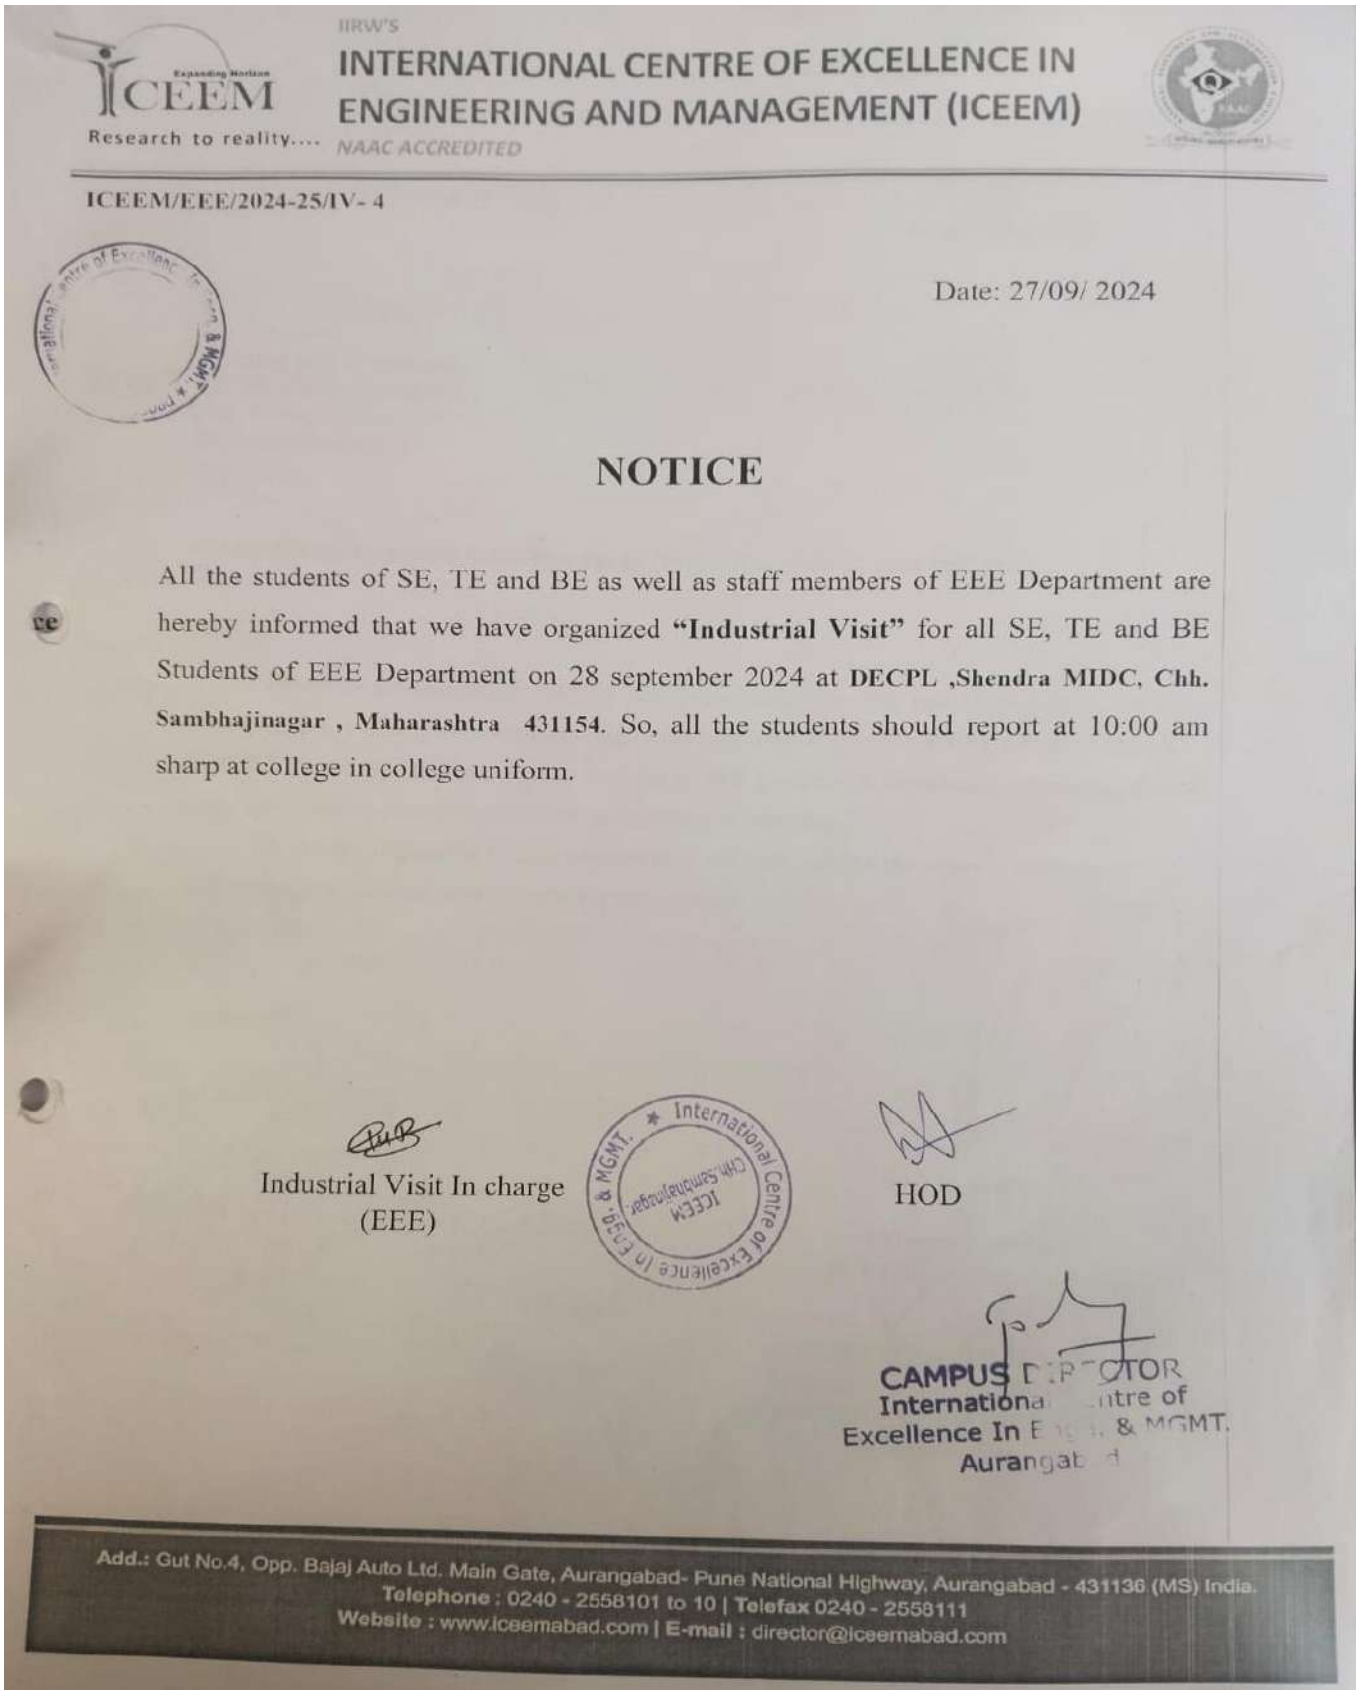

The MBA Fresher's Party at Srushti Agro Hotel was an immense success, setting a lively and inclusive tone for the academic year. While the interactive games, Mr. and Miss Fresher competition, delectable lunch, and

Outdoor Games made it a day to remember.

The event exemplified the institution's commitment to fostering a vibrant and welcoming academic community. It provided students with an opportunity to relax, bond, and form lasting connections that will undoubtedly enrich their MBA journey.

Industrial Visit Report
Venue :Deogiri Electronics Cluster Pvt. Ltd. (DECPL) Training &Innovation, Chh Sambhajinagar Maharashtra

Date of Visit : 28 th September 2024
Duration of Visit: 3 Hrs
Purpose of Visit: Industrial Visit

Introduction : Deogiri Electronics Cluster Pvt. Ltd. (DECPL), located in Chh Sambhajinagar Maharashtra, is a leading electronics manufacturing services (EMS) company.It is a 9 years 8 months old Private Limited Company incorporated on 15-Jan-2015.The major activity of Deogiri Electronics Cluster Private Limited is Manufacturing of PCB , Cabinet Manufacturing, Electronics Designs & Testing ,Electronics Manufacturing, Training and Innovation.DECPL is classified as Micro enterprise in the financial year 2023-24. It has its unit situated at Chh Sambhajinagar, Maharashtra.Our team visited DECPL to get knowledge about PCB manufacturing, SMD component manufacturing, Electronics equipments manufacturing

Objectives:
The primary objectives of our visit were:

- To understand DECPL's electronics manufacturing capabilities.
- To explore potential partnership opportunities.
- To witness their quality control and assurance processes.

Observations and Findings:
During our visit, we observed:

- State-of-the-art manufacturing facility with advanced equipment.
- Robust quality control measures, including testing and inspection.
- Diverse product portfolio, catering to various industries.
- Strong emphasis on research and development.

Highlights:
The highlights of our visit included:

- Comprehensive presentation on DECPL's services and capabilities.
- Tour of the manufacturing facility, showcasing PCB assembly, testing, and packaging.
- Interactions with technical teams, providing insights into their design and development processes.

Meetings and Discussions:
We held productive discussions with:

- Mr. Sachin Inamdar Manager AIC Manager, DECPL
- Mr. Aniket Dharmadhikari HR Technical DECPL.

Conclusion:
Our visit to Deogiri Electronics Cluster Pvt. Ltd. was highly informative, showcasing their expertise in electronics manufacturing. We were impressed by their commitment to quality and innovation.

Subject: Letter of Thanks.

Dear Sir,

On behalf of International Centre of Excellence in Engineering and Management, we deeply appreciate the time you have given to guide & share the knowledge with our students at your MSEDCL.From the feedback have got from students, we found that you were meticulous when explaining the whole process regarding operation and working at each step. Even the hospitality that you showered on them was remarkable. Thank you for that.

Our students were very happy with the overall outcome of visit at your Training and Innovation, DECPL.

In totality, after visiting your Training and Innovation, DECPL, they have certainly had an enriching learning experience. I again express my gratitude for hosting our students at your training and Innovation, DECPL and providing a fruitful experience.

We wish the same kind of cooperation in future.

Notice

All the students of SE, TE, BE of Electrical & Electronics Engineering Department are hereby informed that we have Inaugural ceremony of IEC (students association) For the Academic year 2024-25 for which applications are invited for the post of President, Vice President, Secretary, Treasurer. This is a fantastic opportunity for you to get involved, represent your peers, and make a difference in our college community. Interested students should give their names to respective class teachers till 14 August 2024, 5.00. P.M. .

About IEC(Ingenious Electro-Cavalry):

IEC aims to organize technical activities of the department. Some of the events organized by the association are as follows

- Hardware and Software workshops
- Arrangement of Guest Lectures
- Industry Institute Interaction
- Seminar and Projects Competitions
- Arrangement of Industrial Visits
- Paper Presentation and Projects Competitions.
- Departmental cultural and occasional functions

Eligibility:

- All students from SE, TE, BE EEE are eligible to run for positions on the IEC Student Council.
- Nominees must maintain good academic standing and adhere to the code of conduct of the College.

Positions Available:

- President
- Vice President
- Secretary
- Treasurer
- SE CR,TE CR, BE CR Members

Results will be announced on 16 August 2024

We encourage all students to participate in this process.Your voice and Ideas matters, and this is a great way to contribute to our Departments success!

Workshop Report

Venue: Dr. A. P. J. Abdul Kalam Seminar Hall, EEE Dept., ICEEM

1. Event

The 2-day Workshop on IP by Dr. Suryakant Patil was arranged on 20/09/2024 & 21/09/2024 for all staff of ICEEM at 10:00 am at Dr. A. P. J. Abdul Kalam Seminar Hall, EEE Dept., ICEEM.

2. Participants

- **Keynote Speaker – Dr. Suryakant Patil, Patent to Start-up Mentor & IP/Incubation Consultant, ICEEM Incubation Center, ICEEM.**
- **Campus Director- Dr. C. S. Padmavat, ICEEM.**
- **All staff members of ICEEM**

3. Objectives

The 2-day Workshop on IP by Dr. Suryakant Patil was arranged on 20/09/2024 & 21/09/2024 for all staff of ICEEM at 10:00 am at Dr. A. P. J. Abdul Kalam Seminar Hall, EEE Dept., ICEEM to take guidance and knowledge about IP Patent Acquisition and transforming patents into Start-ups.

In this workshop, Firstly, Sir has given detailed overview about IP, Patent, Start-ups and emerging technologies.

Along with information about emerging technologies, Sir has explained complexities of business development, strategic planning and market positioning. With these aspects, how to transform IP Patents in business was guided briefly by Sir.

The different sessions of 2 days were really informative for our faculty members to motivate and improve themselves in the knowledge about IP Patents and different Start-up ideas and Strategies to establish them.

Program flow:

- Firstly, Dr. C. S. Padmavat, Campus Director, ICEEM welcome and introduce our Keynote Speaker Dr. Suryakant Patil, Patent to Start-up Mentor & IP/Incubation Consultant, ICEEM Incubation Center, ICEEM.

- After that, Keynote speaker have guided all the faculty members about IP Patent Acquisition and transforming patents into Start-ups along with different strategies to establish start-ups in all the sessions of 2-days.

- Finally, Vote of Thanks was given by Dr. C. S. Padmavat, Campus Director, ICEEM.

Outcome:

After this workshop, faculty members have gained brief knowledge about about IP Patents and transforming patents into Start-ups along with different strategies to establish start-ups.

REF.NO: ICEEM/EEE/2024-25/SEM-I/WS/03 **Date: 21/09/2024**

To,

Dr. Suryakant Patil,
Patent to Start-up Mentor & IP/Incubation Consultant,
ICEEM Incubation Center, ICEEM.

Subject: Letter of Thanks.

Dear Sir,

We, on behalf of Electrical & Electronics Engineering (EEE) Department of International Centre of Excellence in Engineering and Management, would like to thank and appreciate for sharing knowledge & guiding in **'2- day Workshop on IP**.

The Workshop was really informative and beneficial for all the faculty members who have attended the session of yours.

We express our heartiest thanks to you for the valuable time, guidance and sharing knowledge with our faculty members.

We wish the same kind of cooperation in future.

With Regards,

Dr. C.S.Padmavat
Campus Director
ICEEM, Chh. Sambhajinagar

MBA Induction Program Report

Date: 13th Sep 2024

Venue: ICEEM Institute

This report provides a comprehensive overview of the successful execution of the Student Induction Program at ICEEM held on 13th September 2024. The purpose of this program was to welcome and integrate new MBA students into the academic and social environment of the institution, ensuring a smooth transition and enhancing their overall learning experience.

Welcome of Guest of Honor-

The Student Induction Program for the academic year MBA First commenced on a grand note with the warm welcome of our esteemed Guest of Honor, Mr. Vijay Salve sir and Dr. Vinay Deolankar Sir. The event was graced by his presence, and he added significant value to the program with his inspiring insights.

Saraswati Pujan-Following the welcome, we celebrated the auspicious occasion of Saraswati Pujan, a tradition that symbolizes reverence for knowledge and wisdom. The ceremony commenced with the lighting

of the sacred lamp, signifying the dispelling of darkness by knowledge. It was a moment of spiritual reflection and an embodiment of our commitment to academic excellence.

Felicitation of Guest of Honor, and Dignitaries-

To express our gratitude for their invaluable presence and support, we felicitated our Guest of Honor, Mr. Vijay Salve sir and Dr. Vinay Deolankar Sir, with a token of appreciation. He was presented with a traditional shawl and a plant as a token of our respect.

The program further witnessed the felicitation of our esteemed dignitaries:

Strategic Director,Dr. Saha Sir, for his visionary leadership.

First Address by MBA HOD to Students

The highlight of the program was the insightful address by our Head of the Department for MBA, Dr. Deepmala Biradar Mam. She shared valuable advice, motivating the new batch of students to embark on their academic journey with enthusiasm and dedication. Dr. Deepmala Biradar emphasized the importance of hard work, discipline, and continuous learning in achieving success in the field of management.

Second Address by Dr. Saha Sir

The program continued with an engaging address by our esteemed faculty member, Dr.Saha Sir. Sir brought forth a fresh perspective on the importance of holistic development during the MBA program. He emphasized the significance of both academic and extracurricular activities in shaping well-rounded individuals capable of

excelling in the corporate world.

Sir shared anecdotes from his own professional journey and encouraged the students to dream big and work diligently towards their goals. His inspiring words resonated with the audience, leaving a lasting impression on the minds of the new students.

Guest of Honor Speech

The program culminated with an inspiring speech by our Guest of Honor,Mr. Vijay Salve sir and Dr. Vinay Deolankar Sir. Both are shared valuable life lessons and experiences, motivating the students to aim high and persevere in their academic journey. His words of wisdom resonated with the audience, leaving everyone inspired and eager to embark on their academic endeavors.

Academic and Staff Introduction

Dr. Deepmala Biradar mam also introduced the faculty members and support staff who would be guiding and mentoring the students throughout their academic journey. she encouraged the students to make the most of the resources and opportunities available at our institution.

This provided an opportunity for students to familiarize themselves with the support system available to them.

Vote of Thanks-

One of the key highlights of the program was the Vote of Thanks delivered by Miss. Pratiksha Salunke.

We extend our heartfelt thanks to all those who made this event possible and memorable.

Dr. Sagar Bhalekar	**Dr. Deepmala Biradar**	**Dr. R. R. Deshmukh**
Induction Coordinator	**HOD, MBA**	**Director**

Report on Industrial Visit to L&T Training Centre

Date of Visit: 13/09/2024

Venue: L&T Training Centre, Madh, Mumbai

Introduction: An industrial visit to the L&T Training Centre was organized to provide students with practical exposure to cutting-edge technologies and engineering practices. The visit focused on the demonstration of basic electrical and mechanical labs, along with a comprehensive explanation of the Internet of Things (IoT) and virtual imagination technologies. The purpose of this visit was to bridge the gap between theoretical knowledge and real-world applications.

Objectives:

- To gain hands-on experience in basic electrical and mechanical engineering principles.
- To understand the significance and working of IoT in modern industries.
- To explore the concept of virtual imagination and its applications in engineering.

Basic Electrical Lab

1. Multimeter

- **Purpose:** Measures voltage, current, and resistance in circuits.
- **Types:** Digital and analog.
- **Use:** Troubleshooting electrical circuits, testing batteries, or measuring continuity.

2. Wire Strippers

- **Purpose:** Strips insulation from electrical wires.
- **Use:** Preparing wires for connections or repairs without damaging the conductor.

3. Voltage Tester

- **Purpose:** Detects the presence of voltage in a circuit.
- **Use:** Verifying whether a wire or circuit is live before working on it.

4. Insulated Screwdrivers

- **Purpose:** Prevents electrical shock while tightening or loosening screws in electrical work.
- **Use:** Installing or removing switches, sockets, or other electrical components.

5. Pliers (Needle-Nose and Lineman's)

- **Purpose:** Grips, cuts, and bends wires.
- **Use:** Shaping wires, making precise adjustments, and pulling or twisting conductors.

6. Crimping Tool

- **Purpose:** Compresses a connector onto a wire.
- **Use:** Making secure electrical connections with terminal connectors.

7. Cable Cutters

- **Purpose:** Cuts through electrical cables cleanly.
- **Use:** Cutting wires and cables to length during installations.

8. Fish Tape

- **Purpose:** Pulls wires through conduits or walls.
- **Use:** Running wires in hard-to-reach areas during installations.

9. Circuit Breaker Finder

- **Purpose:** Identifies which breaker controls a specific outlet or circuit.
- **Use:** Labeling and organizing circuits for maintenance and repairs.

10. Conduit Bender

- **Purpose:** Bends metal conduit pipes.
- **Use:** Shaping conduits to fit around structures or walls during installations.

11. Electric Drill with Bits

- **Purpose:** Drills holes in walls or metal for running wires.
- **Use:** Mounting electrical boxes, running cables, and installing fixtures.

12. Utility Knife

- **Purpose:** Cuts insulation, tape, or cables.
- **Use:** Trimming wires, cutting cable sheaths, or stripping outer insulation.

13. Heat Gun

- **Purpose:** Applies heat for shrinking heat-shrink tubing or loosening adhesives.
- **Use:** Sealing wire connections or stripping old paint in preparation for electrical work.

14. Label Maker

- **Purpose:** Creates labels for wires and electrical components.
- **Use:** Organizing wires in panels, circuit boxes, and other installations.

15. Circuit Tester

- **Purpose:** Verifies the functionality of circuits or receptacles.
- **Use:** Checking for open grounds, reverse polarity, or wiring issues

- **Circuit Analysis:** The lab provided demonstrations on how to design, analyze, and troubleshoot basic electrical circuits. Students observed the workings of series and parallel circuits, power distribution systems, and basic electrical instruments like ammeters, voltmeters, and multimeters.
- **Transformer Operations:** A hands-on demonstration was provided on the working principles of transformers, with particular emphasis on step-up and step-down transformers. The explanation covered how transformers are used in real-world power transmission systems.
- **Motor and Generator Principles:** The functioning of electric motors and generators was demonstrated, providing insights into their applications in industrial settings. Concepts such as electromagnetism and energy conversion were explained in detail.

This session emphasized the importance of electrical engineering fundamentals in building and maintaining industrial systems, providing students with practical knowledge on how to handle basic electrical equipment.

2. Basic Mechanical Lab:

The **Basic Mechanical Lab** was an equally important part of the visit. It focused on the following demonstrations:

- **Mechanical Workbench Tools:** The demonstration included the use of basic mechanical tools such as wrenches, lathes, and milling machines. Students were guided through their practical applications, such as cutting, shaping, and drilling.

- **Thermodynamics and Fluid Mechanics Experiments:** The team showcased practical experiments involving fluid flow and heat transfer. This was supplemented by demonstrations of basic thermodynamic cycles, which are essential for understanding the workings of mechanical engines and HVAC systems.
- **Material Testing:** The lab also included a session on testing the mechanical properties of materials, such as tensile strength, hardness, and ductility. These experiments provided valuable insights into how materials behave under stress and are crucial in designing mechanical components.

This session allowed students to understand the principles of mechanical engineering and their relevance to industrial processes.

3. Explanation of IoT (Internet of Things):

Following the lab demonstrations, a detailed explanation of **IoT (Internet of Things)** was given. IoT is a transformative technology that connects everyday devices to the internet, allowing them to collect, exchange, and act on data.

- **Applications in Industry:** The discussion centered on how IoT is revolutionizing industries by enabling smarter manufacturing processes, predictive maintenance, and real-time monitoring of equipment. Specific examples included how sensors are used in factory automation to monitor machines' health and efficiency, and how IoT-driven data analytics can lead to significant improvements in productivity and cost management.
- **Smart Grids and Energy Efficiency:** The session also explored the role of IoT in energy management, particularly in smart grids, which help optimize energy usage and reduce wastage by monitoring energy flows in real time.
- **Security Challenges:** While IoT brings numerous benefits, the discussion also addressed the challenges, particularly related to data security and privacy, emphasizing the need for robust cybersecurity measures.

4. Virtual Imagination:

The final session was an introduction to the concept of **Virtual Imagination**, which refers to the use of virtual reality (VR) and augmented reality (AR) in engineering and industrial settings.

- **Applications in Design and Prototyping:** Virtual imagination tools are used to visualize and design complex systems in a simulated environment before building them in the real world. The demonstration

included examples where VR is used to model and test structures, machinery, and even factory layouts. This ensures that any flaws or inefficiencies are identified early in the design phase.

- **Training and Skill Development:** Another significant application of virtual imagination is in training. VR environments allow engineers and technicians to train on complex machinery and hazardous processes in a safe, simulated environment.
- **Collaborative Engineering:** The session also highlighted how virtual imagination allows for real-time collaboration between engineers in different parts of the world, facilitating innovation and rapid problem-solving.

A photovoltaic (PV) solar system converts sunlight into electricity using solar panels. Here's a breakdown of its key components and how it works:

1. **Solar Panels**: Made of photovoltaic cells, these capture sunlight and convert it into direct current (DC) electricity.
2. **Inverter**: Converts DC electricity from the solar panels into alternating current (AC) electricity, which is used in homes and businesses.
3. **Mounting Structure**: Supports the solar panels on rooftops or on the ground.
4. **Battery Storage (optional)**: Stores excess energy for use during cloudy days or at night.
5. **Charge Controller (optional)**: Regulates the voltage and current coming from the solar panels to protect the battery.
6. **Grid Connection**: Allows excess energy to be fed back into the grid, often providing credits or compensation.

How It Works

1. **Solar Energy Capture**: Solar panels absorb sunlight and generate DC electricity.
2. **Conversion to AC**: The inverter converts DC to AC electricity, making it usable for home appliances.
3. **Energy Use**: The electricity powers your home, with excess energy being sent back to the grid or stored in batteries.
4. **Monitoring**: Systems can include monitoring technology to track energy production and usage.

Benefits

- **Renewable Energy Source**: Reduces reliance on fossil fuels.

- **Lower Electricity Bills**: Generates free electricity after installation costs.
- **Increased Property Value**: Solar systems can enhance home resale value.
- **Environmental Impact**: Decreases carbon footprint and greenhouse gas emissions.

Photovoltaic (PV) solar panels come in several types, each with its own characteristics, advantages, and disadvantages. Here are the main types of solar panels:

1. Monocrystalline Solar Panels

- **Description**: Made from a single continuous crystal structure.
- **Efficiency**: Typically the most efficient, with conversion rates around 15% to 22%.
- **Space Requirement**: Requires less space for installation due to higher efficiency.
- **Lifespan**: Generally has a longer lifespan and comes with better warranties (25 years or more).
- **Appearance**: Uniform dark color; often considered more aesthetically pleasing.
- **Cost**: Generally more expensive to produce, leading to higher upfront costs.

2. Polycrystalline Solar Panels

- **Description**: Made from multiple crystal structures melted together.
- **Efficiency**: Slightly less efficient than monocrystalline, typically around 13% to 16%.
- **Space Requirement**: Requires more space due to lower efficiency.
- **Lifespan**: Slightly shorter lifespan but still generally offers warranties around 25 years.
- **Appearance**: Blue hue with a speckled look, which some may find less attractive.
- **Cost**: Generally cheaper than monocrystalline panels, making them more accessible.

3. Thin-Film Solar Panels

- **Description**: Made by depositing a thin layer of photovoltaic material onto a substrate (like glass or plastic).
- **Efficiency**: Generally lower efficiency, typically around 10% to 12%, though some advanced models can be higher.
- **Space Requirement**: Requires more space for the same energy output due to lower efficiency.
- **Lifespan**: Shorter lifespan compared to crystalline panels, with warranties often around 10 to 15 years.

- **Appearance**: Flexible and lightweight; can be integrated into building materials.
- **Cost**: Usually the least expensive option, but efficiency and lifespan may impact long-term costs.

4. Bifacial Solar Panels

- **Description**: Can capture sunlight on both sides, increasing energy generation.
- **Efficiency**: Similar to monocrystalline or polycrystalline in terms of efficiency but benefits from reflected light from surfaces beneath the panels.
- **Space Requirement**: Can produce more energy in the same area compared to traditional panels.
- **Lifespan**: Typically long-lasting, with warranties similar to monocrystalline panels.
- **Appearance**: Generally similar to monocrystalline panels; may require specific mounting to take advantage of dual-sided energy generation.
- **Cost**: Higher initial cost but potentially lower levelized cost of energy due to increased output.

Choosing the Right Type

The best type of panel for a specific situation depends on various factors, including:

- **Budget**: Initial cost vs. long-term savings.
- **Space**: Available roof or ground space for installation.
- **Aesthetic Preference**: How the panels will look on your property.
- **Energy Needs**: Total energy consumption and efficiency requirements.

Conclusion: The industrial visit to the L&T Training Centre provided a comprehensive understanding of various engineering fields, including electrical, mechanical, and cutting-edge technologies like IoT and virtual imagination. The hands-on demonstrations and detailed explanations enriched the students' practical knowledge and understanding of how these technologies are applied in real-world industrial scenarios. This visit reinforced the importance of interdisciplinary learning and prepared students for future challenges in their respective fields.

Industrial Visit Report
Industry name: Metal Man Auto Ltd.

1. Event

The Industrial visit was organized for FE Students of Humanity and Science Department on23 August, 2024at Metal Man Auto Ltd. Chh. Sambhajinagar.

2. Participants

All FE Students and Staff members of Humanity and Science Department.

1) Prof. N.V. Kalyankar
2) Prof. AmeykumarKapale

3. Objectives

Industrial Visit was organized at Metal Man Auto Ltd. Chh. Sambhajinagar to take guidance and knowledge regarding whole production process and to learn about its working at each step. The visit was very beneficial for better understanding of Auto parts manufacturing. In general, procedure / method of explaining the concepts was appreciable, how they provide products with good quality, how to maintain machines used in production process and what safety precautions should take to work machines in good condition and safety precautions for workers etc. are the points were taught by their staff. They also provide facility for students to take training regarding all machines including its operation.

After visit at this industry, students had an enriching learning experience about Auto parts.

Subject: Letter of Thanks.

Dear Sir,

On behalf of International Centre of Excellence in Engineering and Management, we deeply appreciate the time you have given to guide & share the knowledge with our students at your industry. From the feedback have got from students, we found that you were meticulous when explaining the whole process regarding operation and working at each step. Even the hospitality that you showered on them was remarkable. Thank you for that.

Our students were very happy with the overall outcome of visit at your industry. In totality, after visiting your industry, they have certainly had an enriching learning experience. I again express my gratitude for hosting our students at your industry and providing a fruitful experience.

We wish the same kind of cooperation in future.

To,
The Senior Manager,
Marathwada Auto Cluster
Chh.Sambhajinagar

Subject: Letter of Thanks.

Dear Sir,

On behalf of International Centre of Excellence in Engineering and Management, we deeply appreciate the time you have given to guide & share the knowledge with our students at your substation. From the feedback have got from students, we found that you were meticulous when explaining the whole process regarding operation and working at each step. Even the hospitality that you showered on them was remarkable. Thank you for that.

Our students were very happy with the overall outcome of visit at your substation. In totality, after visiting your substation, they have certainly had an enriching learning experience. I again express my gratitude for hosting our students at your substation and providing a fruitful experience.

We wish the same kind of cooperation in future.

With Regards,

Dr. C. S. Padmavat

FIELD VISITED :-Dr.Babasaheb Ambedkar Marathwada University Chh.Sambhajinagar
Date :- 23rd August 2024

Total Students-30
Faculty Accompanied:-
1) Prof.P.V.Kurhe
2) Prof.M.K.Jadhwar

Geo-Spectral maps use images at different wavelength to determine units with similar spectral indices giving information on the uppermost part of the surface.

In this study present a techniques to combine geospectral and geomorphological maps into one product which contain more information than its constituents.

Computer & IT Department program or seminar hall

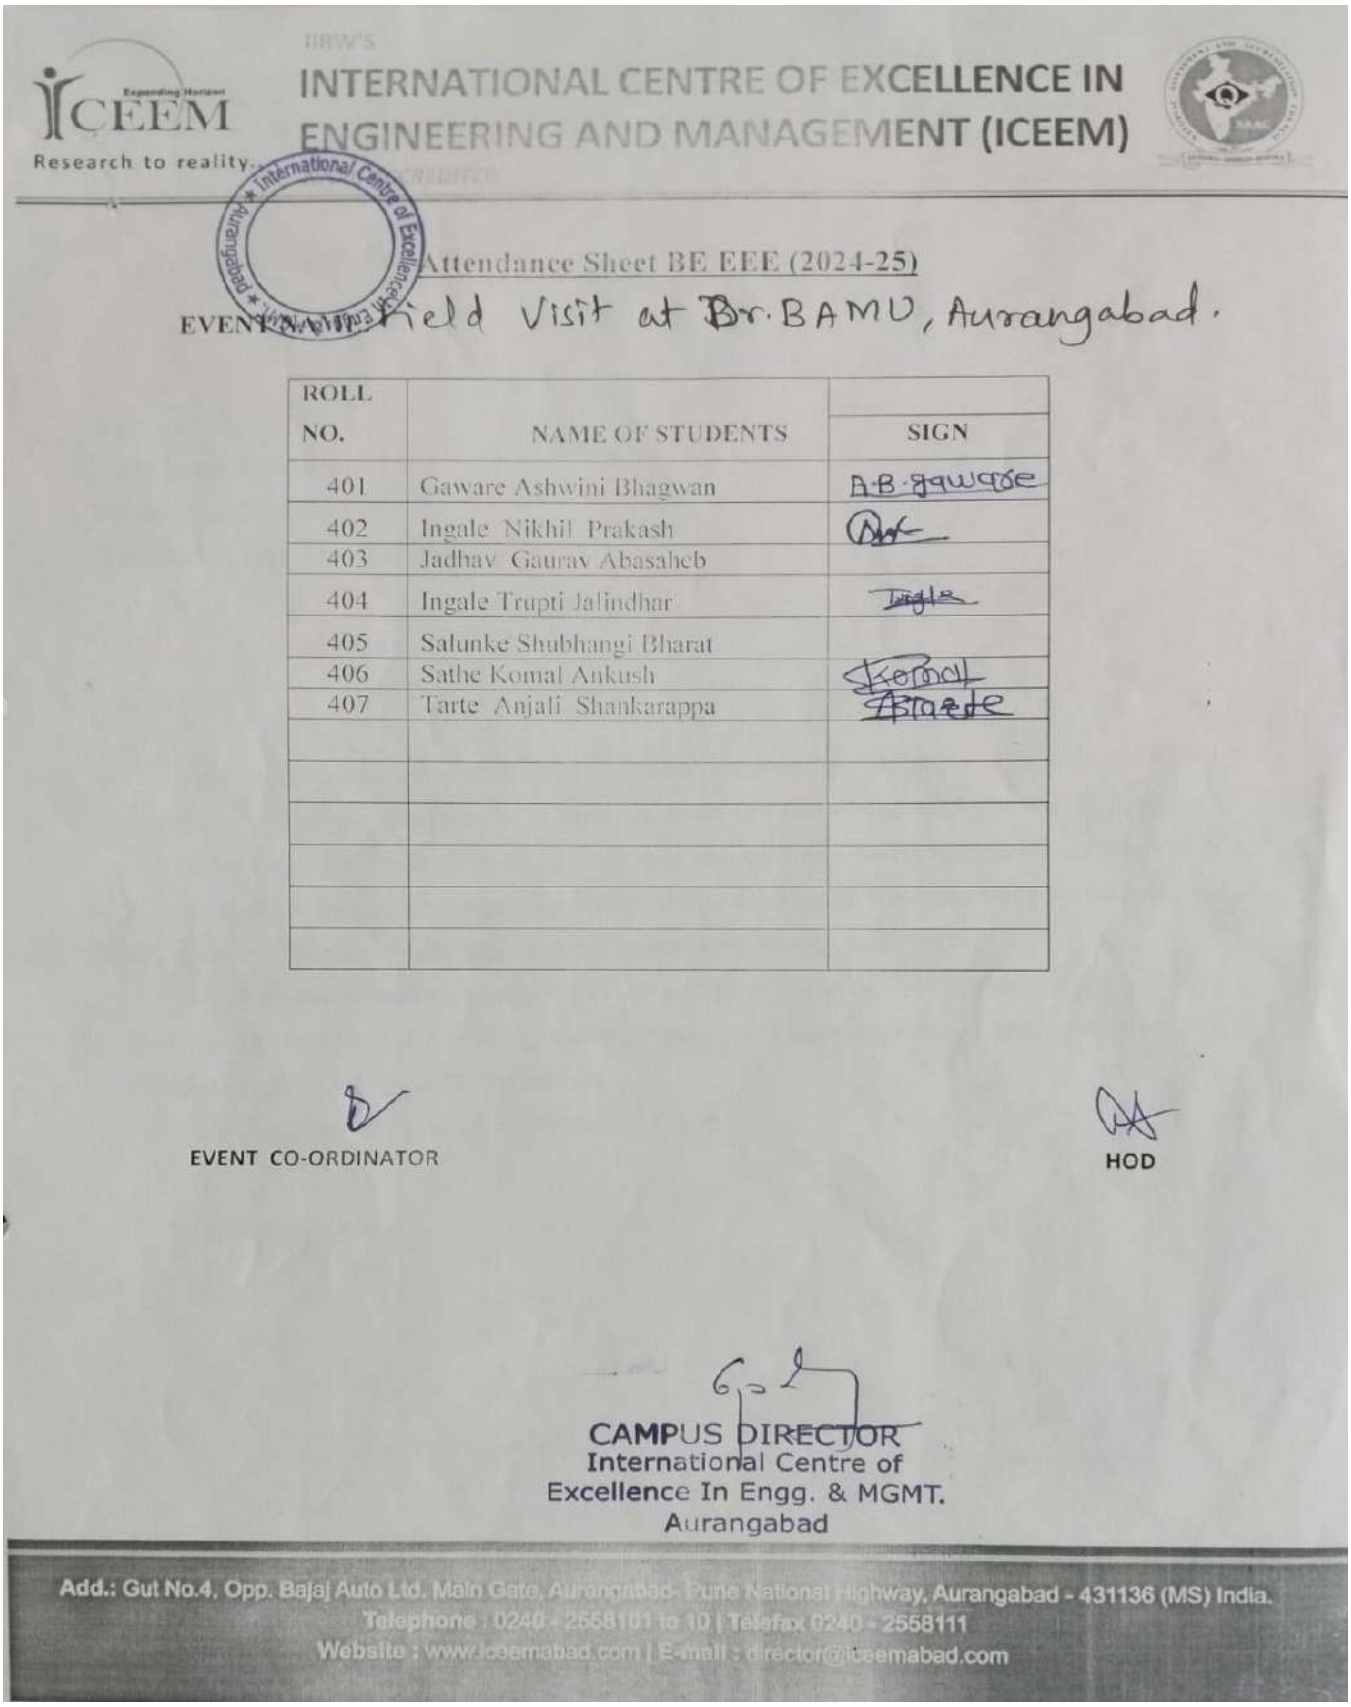

So student understand about detail geomorphological map using Geo-specral map. Team showed step step by description of creation Spectromorphological map.

Spectromorphological map can improve geomorphological map on they provide additional information on study area which might be able to further distinguish units and complete the story of an area.

FIELD VISIT REPORT

NAME OF COLLEGE :- INTERNATIONAL CENTRE OF EXCELLENCE IN ENGINEERING AND MANAGEMENT (ICEEM)

DEPARTMENT :- EEE Department

FIELD VISITED :-Don Bosco-mobility Institute,chh.sambhajinagar-431001 –India

Date :-27 th July 2024

Total Students-19

Faculty Accompanied:-1)Prof.S.A.Nagarkar
2) Prof.P.V.Kurhe
3) Prof.M.K.Jadhwar
4) Prof.P.U.Bhagat
5)) Prof.SK Sufiyan Ahmed

FIELD PROFILE :-

Don Bosco-mobility Institute or social welfare centre , Naigaon (MH).for last three year they are making many more electrical cycle ,electric hero Honda,electric two wheeler.In this centre detailed study about the electrical vehical component with multi – purpose kits are available also Li-ION /LEAD Acid battery pack charge- discharge tester. Two wheeler ,Four wheeler making procedure with detail parts study by experienced staff present there.

AIM OF THE INSTITUTE :-

1) **To interact the students with actual industry personals.**
2) **To make them aware of the industrial procedures required to enter in any company.**
3) **To experience the working environment in industry and visualize all the important Department in industry**
4) **Interaction of students with the peoples of all important departments.**
5) **To prepare the students for the selection of carrier path in different departments of industry**

Ground report:-

According the route and time plan one busses was departed and reached the gate of Don Bosco-mobility Institute or social welfare centre , Naigaon (MH) after study and checking we went return with same bus for college with students and all staff.

WE VISITED FIRST GATE:-

AT THE MAIN INSTITUTE:-

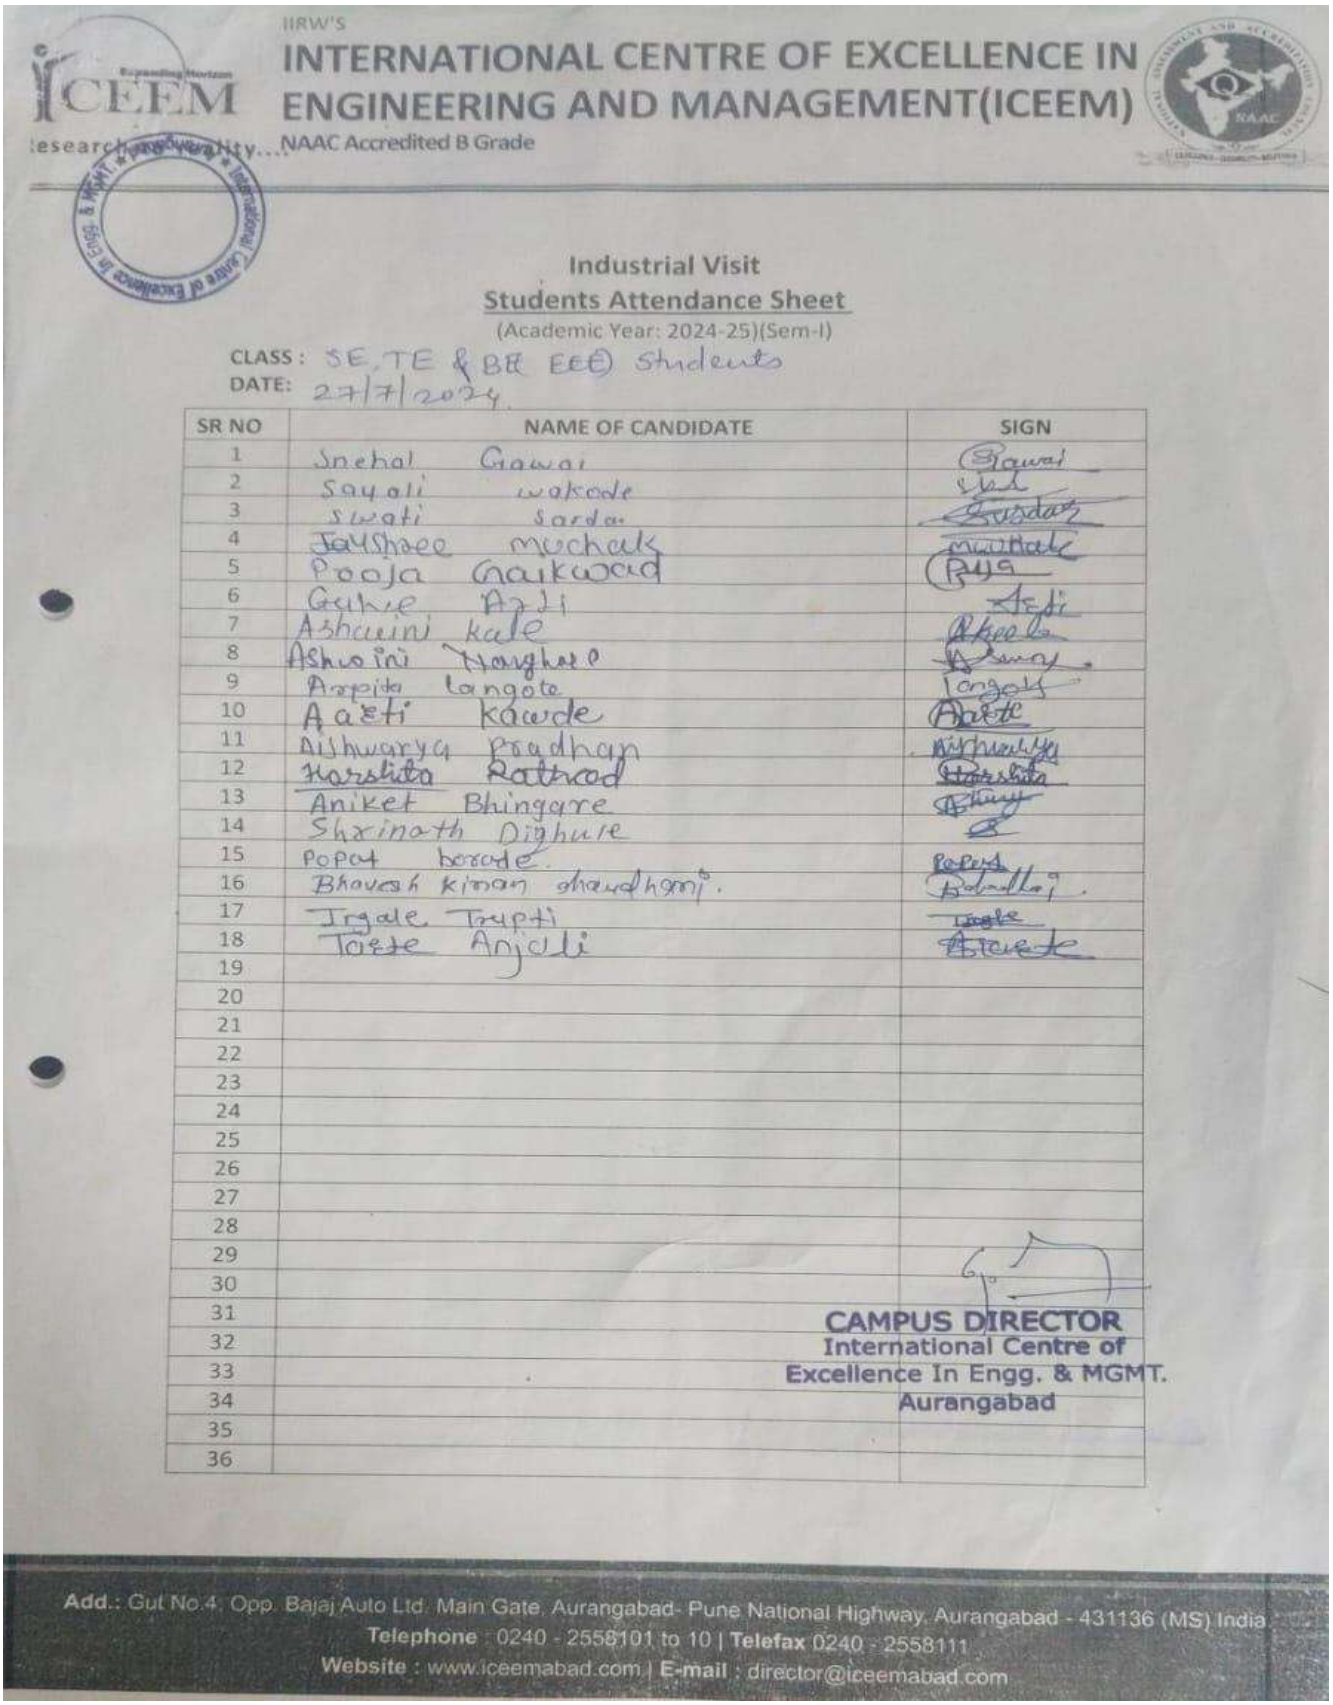

After reaching at Institute , management team informed all students about:- 1.) Safety measures. 2.) Engin parts of vehical how to work,which part is light weighted why it is

use 3) Information about the cost which part is cheap or expensive 3.) Technical platform and their control on the process.

Introduction: The college magazine serves as a platform for students, faculty, and staff to showcase their talents, share their thoughts, and highlight the achievements and activities of the college community. “SANWWAAD” an annual college magazine 2024 publication was done with great enthusiasm and all students participation in ICEEM, Aurangabad. The event, organized by the cultural committee of ICEEM College. It was significant occasion to promote the importance of cultural and Literature activity in and out of the college campus. It showcases the creativity, scholarship, and community spirit that define our college community. By providing a platform for expression and reflection, the magazine contributes to the intellectual and cultural enrichment of our campus. Moving forward, we recognize the magazine's ongoing importance in promoting dialogue, celebrating achievements, and preserving our collective history.

Report on एक पेड माँ के नाम - Plant4Mother

Date: 18/07/2024

Venue: ICEEM Campus

Tree plantation is takes on behalf of "एक पेड माँ के नाम - Plant4Mother" by ICEEM college. The ICEEM College of Engineering, Chh. Sambhajinagar, plants trees as part of its annual tree-planting celebration. This year, ICEEM's National Service Scheme Cell launched a new project that involved giving trees to the institute's employees and students. This project was carried out under the Maharashtra government's "Plant4mother" initiative. Numerous tree species, including Aamla, Guava, Sitafal, Setu, and Lemon, were dispersed. The planting of plants benefited both teaching and nonteaching staff members. During the planting, every staff member and student was requested to take a picture with a planted tree. The program's motto is to give each plant personalised attention and attentive care all year round by staff and students. Prof. A.B. Humbe, the NSS programme officer, expertly directed the activity under the direction of Director R.R. Deshmukh, Campus Director DR. C.S. Padmavat, ICEEM Chh. Sambhjinagar.

An operation to plant trees was carried out on the campus of ICEEM College in Chh. Sambhajinagar. Staff members have planted trees in the campus area as a means of mitigating the growing warmth and pollution that come with each passing day.

Report on Clean-up Drive for Pandharpur Yatra

Date: 17/07/2024

Venue: Nagar Naka to Pandharpur Temple

The Pandharpur Yatra, a yearly visit to the Vithoba temple in Pandharpur, Chh. Sambhajinagar, Maharashtra, gathers millions of devotees. Given the large footfall, trash management and environmental cleanliness are key issues.

On this occasion Sahyog Foundation and ICEEM College NSS Volunteers take initiative in clean up drive. This drive's primary goals are to recycle and properly dispose of rubbish produced during the Yatra, as well as to maintain the cleanliness of the pilgrimage site and surrounding areas during the event.

In this drive group of nss volunteers was assembled, consisting of locals. The use of cleaning equipment, safety procedures, and waste segregation were all included in the volunteer training. Cleaning supplies such as gloves, bags, brooms, dustbins, and protective gear were procured.

Clean-up drive is successful completed the guidance of Ms.Minal Naik Chairman of Sahyog Foundation Dr. R.R. Deshmukh Director, Dr. C.S. Padmavat Campus Director, Prof. A.B. Humbe NSS Incharge ICEEM, Prof. Kiran Chavan CSE Dept.

To,
Dr. Nirmala S. Padmavat
Director, IQAC,
Nutan Mahavidyalaya, Selu.

Sub: Invitation as a Resource Person for 5 Days FDP.

Dear Madam,

With reference to above mentioned subject, On behalf of the Internal Quality Assurance Cell (IQAC) of ICEEM, I am pleased to extend a cordial invitation to you to serve as a Resource Person for our upcoming Faculty Development Training program.

This program is scheduled to take place from the 9th of July to the 13th of July and will focus on the crucial topic of "Preparation of Self-Study Report (SSR) for NAAC Cycle-2" Given your extensive expertise and significant contributions to the field of quality assurance in higher education, we believe that your insights and experience would be incredibly valuable to our faculty members

The aim of this training program is to equip our faculty with the necessary knowledge and skills to effectively prepare the Self-Study Report, which is a pivotal element of the NAAC accreditation process. Your participation would not only enrich the program but also inspire and guide our faculty in achieving excellence in this critical endeavor.

We would be honored to have you join us and share your expertise on this topic. Please let us know at your earliest convenience if you are available and willing to contribute to this important initiative. Should you have any specific requirements or need further information, do not hesitate to contact us.

Thank you for considering our invitation. We look forward to your positive response and the opportunity to benefit from your valuable knowledge and experience.

Warm regards,

Campus Director

Faculty Development Training Program Report

Theme: Preparation of SSR for NAAC Cycle Two

Dates: 9th July to 13th July

Organized by: Internal Quality Assurance Cell (IQAC), International Centre of Excellence in Engineering and Management (ICEEM).

Day 1: 9th July

9:00 AM - 9:30 AM: Inauguration Ceremony

The program commenced with a warm welcome address by the Director, setting the tone for the week's activities. Dr. Nirmala S. Padmavat delivered an inspiring keynote speech, emphasizing the importance of the Faculty Development Program (FDP) and the role of NAAC accreditation. The IQAC Coordinator provided an overview of the FDP, outlining the objectives and the schedule for the week.

9:30 AM - 11:00 AM: Session 1 - Introduction to NAAC Accreditation Process

Speaker: Dr. Nirmala S. Padmavat

Dr. Padmavat presented an insightful overview of the NAAC accreditation process, highlighting its significance for institutional development and quality enhancement. She detailed the steps involved in achieving accreditation and the benefits it brings to educational institutions.

11:00 AM - 11:15 AM: Tea Break

11:15 AM - 1:00 PM: Session 2 - Understanding the Self-Study Report (SSR)

Dr. Padmavat continued with a detailed discussion on the components of the SSR. She provided a criterion-wise overview, explaining each aspect comprehensively to ensure participants understood the intricacies involved.

1:00 PM - 2:00 PM: Lunch Break

2:00 PM - 4:00 PM: Workshop 1 - Setting Up the Institutional Framework

Participants engaged in a hands-on workshop focused on forming the IQAC, collecting data, and documenting processes. This session aimed to establish a robust institutional framework essential for preparing the SSR.

Day 2: 10th July

9:00 AM - 11:00 AM: Session 3 - Criterion I: Curricular Aspects

Speaker: Dr. Nirmala S. Padmavat

Dr. Padmavat elaborated on the key indicators and metrics related to Curricular Aspects, stressing the importance of curriculum design, development, and delivery in achieving accreditation.

11:00 AM - 11:15 AM: Tea Break

11:15 AM - 1:00 PM: Session 4 - Criterion II: Teaching-Learning and Evaluation

This session covered innovative teaching methods and assessment strategies, focusing on enhancing the teaching-learning process and evaluating its effectiveness.

1:00 PM - 2:00 PM: Lunch Break

2:00 PM - 4:00 PM: Workshop 2 - Documentation and Evidence Collection

Participants learned about various templates and tools for documentation and evidence collection. Best practices for maintaining accurate and comprehensive records were also discussed.

Day 3: 11th July

9:00 AM - 11:00 AM: Session 5 - Criterion III: Research, Innovations, and Extension

This session focused on promoting research, fostering innovations, and encouraging collaborations and outreach activities. Strategies to enhance the institution's research capabilities were discussed.

11:00 AM - 11:15 AM: Tea Break

11:15 AM - 1:00 PM: Session 6 - Criterion IV: Infrastructure and Learning Resources

Dr. Padmavat addressed the importance of infrastructure development and effective resource management, essential for creating a conducive learning environment.

1:00 PM - 2:00 PM: Lunch Break

2:00 PM - 4:00 PM: Interactive Session - Q&A and Peer Learning

An open discussion session allowed participants to share experiences, ask questions, and learn from each other. This interactive segment fostered peer learning and provided valuable insights.

Day 4: 12th July

9:00 AM - 11:00 AM: Session 7 - Criterion V: Student Support and Progression

This session highlighted various student services and the significance of alumni engagement. Dr. Padmavat provided strategies to enhance student support systems and track their progression.

11:00 AM - 11:15 AM: Tea Break

11:15 AM - 1:00 PM: Session 8 - Criterion VI: Governance, Leadership, and Management

The discussion focused on effective governance practices, leadership roles, and the institution's vision. Dr. Padmavat emphasized the importance of strategic planning and management.

1:00 PM - 2:00 PM: Lunch Break

2:00 PM - 4:00 PM: Workshop 3 - Creating an Action Plan

Participants engaged in creating strategic plans and implementation roadmaps for their institutions, ensuring alignment with NAAC accreditation requirements.

Day 5: 13th July

9:00 AM - 11:00 AM: Session 9 - Criterion VII: Institutional Values and Best Practices

This session covered the promotion of inclusivity, sustainability, and ethical practices within the institution. Dr. Padmavat provided examples of best practices that align with institutional values.

11:00 AM - 11:15 AM: Tea Break

11:15 AM - 1:00 PM: Session 10 - Mock Peer Team Visit

A simulation of the NAAC peer team visit was conducted, involving role-playing and feedback. This exercise aimed to prepare participants for the actual accreditation process.

1:00 PM - 2:00 PM: Lunch Break

2:00 PM - 3:00 PM: Panel Discussion - Challenges and Opportunities in SSR Preparation

Panelists: Dr. Nirmala S. Padmavat and other experts

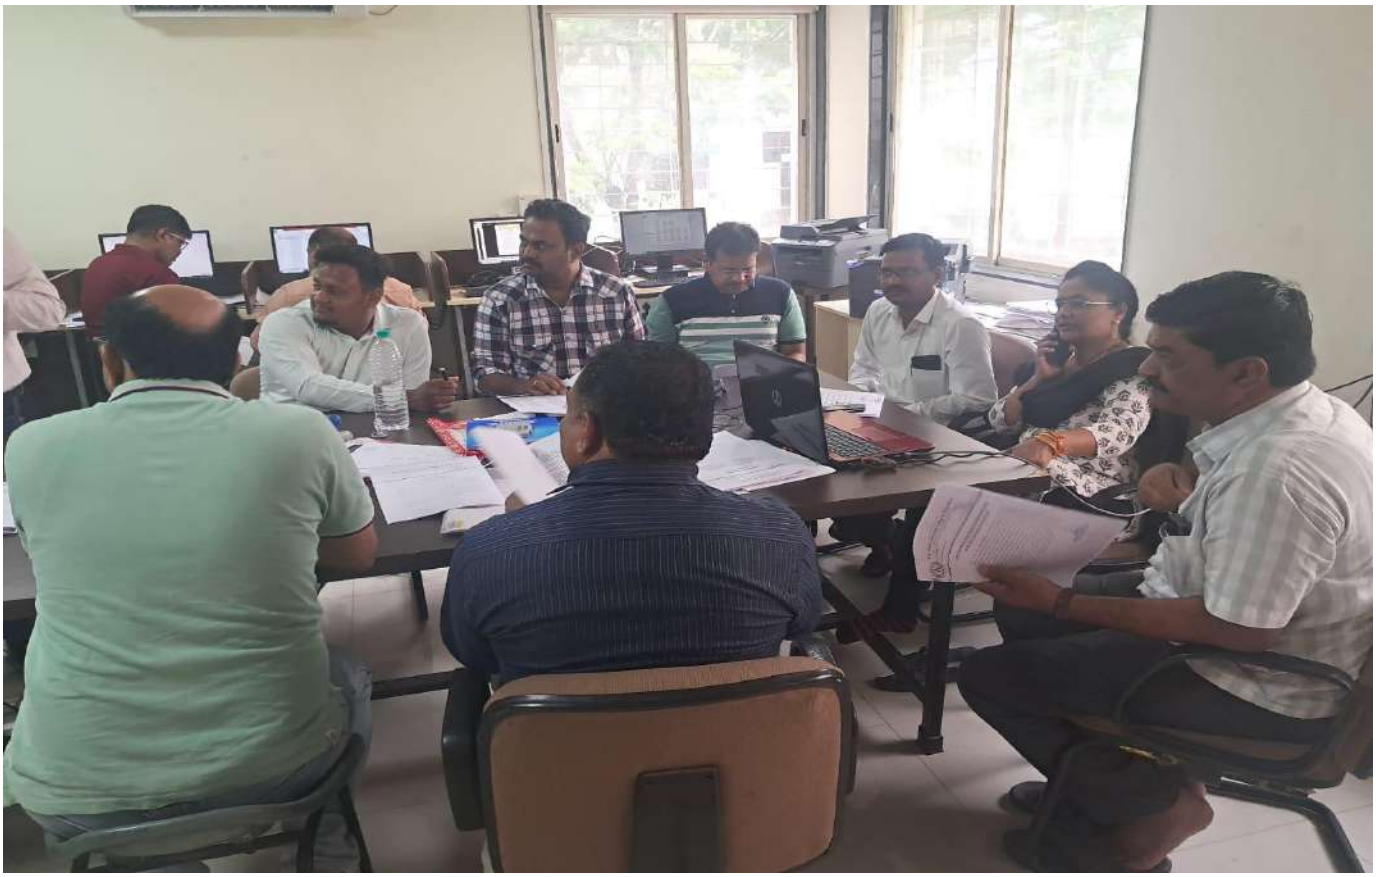

The panel discussion provided a platform to address challenges faced during SSR preparation and explore opportunities for improvement. Expert panelists shared their insights and solutions.

3:00 PM - 4:00 PM: Valedictory Ceremony

The FDP concluded with a summary of the sessions, feedback from participants, and distribution of certificates. The event ended with a vote of thanks, acknowledging the efforts of organizers, speakers, and participants.

The Faculty Development Training Program successfully equipped participants with the knowledge and skills needed for preparing the SSR for NAAC Cycle Two. The sessions, workshops, and interactive discussions provided valuable insights, fostering a collaborative and supportive environment for quality enhancement in higher education.

IQAC Coordinator **Campus Director**

Date: 13/07/2024

To,
Dr. Nirmala S. Padmavat
Director, IQAC,
Nutan Mahavidyalaya, Selu.

Dear Madam,

On behalf of the Internal Quality Assurance Cell (IQAC) and the entire faculty of International Centre of Excellence in Engineering and Management (ICEEM), I extend my heartfelt gratitude to you for serving as a resource person during the Faculty Development Training Program held from 9th July to 13th July. Your sessions on the preparation of the Self-Study Report (SSR) for NAAC Cycle Two were truly enlightening and immensely beneficial.

Your expertise and detailed insights into the intricacies of SSR preparation have significantly enhanced our understanding and capabilities. The clarity with which you addressed complex aspects of the process and your willingness to engage with our queries have left a lasting impression on all participants. Your contributions have not only equipped us with the necessary skills and knowledge but also inspired us to strive for excellence in our accreditation endeavors.

The practical tips and strategies you shared will undoubtedly play a crucial role in our journey towards achieving NAAC accreditation. Your dedication and commitment to quality assurance in higher education are truly commendable and serve as an inspiration to all of us.

Once again, thank you for your invaluable contribution to our Faculty Development Training Program. We look forward to the possibility of working with you again in the future and wish you continued success in all your professional endeavors.

With warm regards,

Campus Director

Parent-Teacher Meeting Report

Date: 7th May 2025

Time: 3:00pm to 5:00pm

Venue: Function Hall

Target Audience: FE Students and their Parents

Organized By: Humanity and Science Department.

1. Objective of the Meeting

The main objective of the Parent-Teacher Meeting was:

To discuss students' academic progress and areas for improvement.

To enhance parent-teacher collaboration in supporting students.

To address behavioral, attendance,Sem-I Result and co-curricular concerns.

To provide feedback on Institute initiatives and gather suggestions from parents.

2. Detailed Report

The meeting commenced at 3:00pm at function hall, with parents being welcomed by the all the faulty members of humanity and science deparment. The meeting started with formal inaugural welcome by Prof. S.D.Gavande followed by address and introductory speech by Director Dr. R. R. Deshmukh sir, campus Director Dr.C.S.Padmavat sir and Prof. A.S. Humbe sir. Then all subject teachers and teacher guardians introduce to parents, attendance ,result of SEM-I,MARKS OF CT-I(SEM-II) ,identified as low performance were advice to improve their performance ,Parents expressed their happiness towards quality education at college and department.

Parents give their valuable feedback for parents meet as well as our teachers and teacher guardians for taking their efforts.meeting conclude with Vote of Thanks by Vice-Principal, Prof H.L. Jadhav sir and refreshment.

Teachers presented individual student performance reports including:

- Academic results from recent exams.
- Attendance records.
- Behavior and discipline observations.
- Participation in extracurricular activities.

Subject teachers and HOD were available for in-depth discussions.

Special attention was given to students showing a decline in performance or irregular attendance.

School management shared updates on new policies, upcoming events, and infrastructure developments.

Feedback forms were distributed to parents for their suggestions and observations.

3. Outcomes of the Meeting

- Parents appreciated the opportunity to interact directly with teachers.
- Several learning challenges were identified and personalized action plans were suggested.
- Teachers noted behavioral issues in a few students, which parents agreed to monitor at home.
- Constructive feedback from parents was received on teaching methods and school facilities.
- Strengthened communication channels between school and home.
- Plans were made for follow-up meetings with some parents for further monitoring.

Conclusion

The PTM was a successful initiative that helped bridge the communication gap between parents and the school. It reinforced the shared responsibility of academic and personal development of the students. Regular PTMs will continue to be held to maintain this collaborative effort.

Subject: Educational Visit Proposal – Exploring Historic Architectural Heritage in Marathwada

Respected Sir,

In alignment with the syllabus for the Echoes of Ingenuity: Exploring the Indian Knowledge System course, I propose an educational visit to explore the historic architectural heritage of Marathwada. This visit would provide practical exposure to the rich architectural traditions covered in Unit-I of the course, particularly the architectural heritage that defines the region's historical narrative.

Objectives of the Visit:

1. Understanding Historic Architecture: Students will gain firsthand experience in understanding various types of historical heritage, including Hindu, Buddhist, Jain, Mughal, architectural structures.
2. Cultural Context: The visit will serve as a live case study to examine the importance of historic architectural heritage in understanding the history and culture of Marathwada.

Proposed Site:

1. Religious Architecture (Ellora Caves): Sites featuring Hindu, Buddhist, and Jain temples, which showcase the spiritual and philosophical integration of architecture with the region's cultural values.

I look forward to your approval for this visit.

Thanking You.

G Degree E-77

Recommended to pay Rs. 18100/- (Eighteen Thousand one hundred) via online to shikhare's sir's account

Verul leni (Ellora Caves) Chh. Sambhajinagar

1. Event

The study visit was organized for FE Students of Humanity And Science Department on 21 April, 2025 at Verul leni (Ellora Caves) Chh. Sambhajinagar.

2. Participants

All FE Students and Staff members of Humanity and Science Department.

1) Prof. M.P. Kale
2) Prof. Vinod B. Shikhare
3) Prof. Jyoti Dighole
4) Prof. Ameykumar Kapale
5) Prof. Savita Gawande
6) Prof. Vaishnavi Divakar
7) Prof. N.V. Kalyankar
8) Mrs. Pooja Pawar

3. Objective

The study visit organized for the First-Year Engineering (FE) students of the Humanities and Science Department on 21st April 2025 aimed to provide students with a practical understanding of historical and cultural heritage. The visit to the Ellora Caves (Verul Leni), located in Chh. Sambhajinagar, offered an opportunity for students to explore the architectural brilliance, religious significance, and cultural importance of the caves. The primary objective was to enhance students' knowledge of ancient Indian history, art, and architecture, while encouraging interdisciplinary learning and fostering a deeper connection between the students' academic studies and real-world heritage sites.

Website : www.iceemabad.com | E-mail : director@iceemabad.com

ACTIVITY REPORT

1. Title of the Activity: **Green AI Skilling Programme**
(A Hands-on Training Initiative in Collaboration with Edunet Foundation and MS Shell)

2. Organizing Institution:

International Centre of Excellence in Engineering and Management (ICEEM), Chh, Sambhajinagar.
NAAC Accredited | Affiliated to Dr. Babasaheb Ambedkar Technological University

3. Collaborating Partners:

- Edunet Foundation
- MS Shell

4. Duration and Timings:

Dates: 7th April to 12th April 2025
Time: 10:00 AM to 5:00 PM (Daily) (Six Days, 40 Hrs)

5. Venue:

ICEEM Campus – Training & Placement Cell, Computer Labs and Seminar Hall

6. Target Audience:

Second Year (SE), Third Year (TE), and Final Year (BE) students from AIML, EEE, CSE, and Mechanical Engineering.

7. Participants:

Total Registrations: 100 Students
Selection Criteria: First-Come-First-Serve basis, confirmed via email
Participation: All 100 registered students successfully attended all 6 days

8. Trainer:

Mr. Jitendra Rathod served as the lead trainer for the programme, delivering expert sessions on Python programming, AI/ML applications, and deployment of sustainable AI solutions.

9. Objective of the Programme:

To equip students with awareness and skills in green technologies and artificial intelligence. Key goals included:
- Introducing Green Skilling concepts aligned with the UN SDGs
- Providing hands-on AI/ML training
- Empowering students to create real-world solutions for sustainability challenges

10. Programme Structure and Curriculum:

The programme was based on an integrated curriculum covering:
- Sustainability fundamentals and green technologies
- AI and Machine Learning concepts
- Python programming and visualization tools
- Deployment using Flask, Heroku, GitHub
- Generative AI, LLMs, and AI ethics
- Capstone Projects using real environmental datasets

11. Hands-on Activities and Projects:

Green Expense Tracker Application
- Pollution Data Clustering and Analysis
- Deforestation Risk Prediction Model
- Renewable Energy Optimization

- Waste Classification using CNN and OpenCV
- GPT-based Climate Report Generation

12. Industry Relevance:

Real-world case studies from Microsoft's AI for Earth, Shell Energy Transition Campus, Tata Steel, ITC Ltd. were presented. Students also explored platforms like Zindi.Africa and DrivenData for AI competitions.

13. Capstone Project Methodology:

Using design thinking, students created AI-powered green solutions. The process included empathizing with users, defining problems, ideating solutions, prototyping, testing, and deploying AI applications.

14. Outcomes:

100% student participation and engagement
- Completion of practical projects and AI model deployments
- Increased awareness of sustainable development through technology
- Positive student feedback on programme relevance and delivery

15. Feedback and Recommendations:

'articipants appreciated the hands-on approach and industry linkage. Suggestions included expanding it as a semester-long course and offering internship pathways through industry partners.

16. Conclusion:

The Green and AI Skilling Programme was a successful initiative that merged education, innovation, and environmental responsibility. Students gained industry-relevant skills while contributing to sustainability goals.

CYBER SECURITY

By

Ms. Priya Ghurde
Cyber Investigation Specialist, Indian Cyber Crime Centre (I4C), Ministry of Home Affairs (MHA), Govt. of India

Date :03 Apr 2025

To,
The Director,
ICEEM, Engg. & MBA College,
Waluj, Chh. Sambhajinagar.

Subject: Permission Request to Organize Expert Talk on Cyber Security for SE/TE/BE Students

Respected Sir

We, the Department of Computer Science & Engineering, in association with Computer Engineering Students Association (CESA), kindly seek your permission to organize an Expert Talk on "Cyber Security" for our Second Year (SE), Third Year (TE) and Final Year (BE) students.

Event Details:
Topic: "Cyber Security: Emerging Threats & Career Opportunities"
Date: 4th April 2025 (Friday)
Time: 3:30 PM to 5:00 PM
Venue: College Function Hall
Resource Person: Ms. Priya Ghurde
Cyber Investigation & Forensics Specialist
Indian Cyber Crime Coordination Centre (I4C), MHA

This session will be highly beneficial for our students' academic and professional development in the field of cyber security.

Kindly grant us permission at the earliest to proceed with the necessary arrangements.

Sincerely,
Prof. Sujata Chechare
Asst. Professor
CSE,ICEEM

Subject: Request for Approval of Expenses for Expert Lecture on 'Cyber Security

Respected Sir

On behalf of the Department of Computer Science and Engineering, I am writing to seek your approval for the allocation of funds to organize a Guest Lecture on "**Cyber Security" Date: 4th April 2025**

we plan to invite an expert in the field to deliver a expert lecture. Expert lecture conducted by **Ms.Priya Ghurde (Cyber Investigation Specialist), Indian Cyber Crime Centre (I4C),MHA** This event will not only enhance the academic understanding of our students but also inspire them to explore new research opportunities and applications in Cyber Security

To ensure the successful organization of this event, we have estimated the following expenses:

1. Honorarium for the Guest Speaker: ₹2000

Total Estimated Expenses: ₹2000

We kindly request your approval for the allocation of ₹2,000 to cover these expenses. The guest lecture will be a valuable addition to our academic calendar, and we are confident that it will significantly benefit our students and faculty.

Thank you for your continued support in fostering academic excellence and innovation within our institution.

Approved
4.4.25

Engineering Degree Expenses

Thanking You.

Ref: ICEEM/CSE/2024-25 **Date: 3rd April 2025**

COMPUTER SCIENCE & ENGINEERING DEPARTMENT

NOTICE

All Students of SE,TE and BE are hereby informed that CESA organized an Expert Talk on **'Cyber Security '** on **4th April 2025** in **function hall** conducted by **Ms.Priya Ghurde (Cyber Investigation Specialist)** works with **Indian Cyber Crime Centre (I4C),MHA.**

Venue: function hall

Date: 4rd April 2025

Time: 03:30PM To 05:00 PM

Resource Person: Ms.Priya Ghurde

Indian Cyber Crime Centre (I4C),MHA

International Centre of Excellence in Engg. & Mgmt. * Aurangabad *

CESA Precident **CESA Co-ordinator** **Head of Department**

Organized by:
Department of Computer Science and Engineering (CSE)
Computer Engineering Students Association (CESA)
In Collaboration with: ICEEM Engineering College

Event: Expert Guest Lecture on **"Cyber Security"**

Date: 4th April 2025

Time: 03:30 PM to 05:00 PM

Venue: Function Hall, ICEEM Engineering College

Resource Person: Ms. Priya Ghurde

(Cyber Investigation Specialist, Indian Cyber Crime Centre (I4C), Ministry of Home Affairs (MHA), Govt. of India)

The guest lecture aimed to:

- Enhance students' understanding of cyber threats, digital forensics, and cybercrime investigations.
- Provide insights into real-world cybercrime cases and preventive measures.
- Inspire students to explore career and research opportunities in cybersecurity.

Event Highlights:

1. Inauguration & Welcome Address:

- The session began with a welcome speech by the Director of ICEEM College , emphasizing the importance of cyber security in today's digital world.
- A brief introduction of Ms. Priya Ghurde was given, highlighting her expertise in cyber investigations.

2. Expert Lecture by Ms. Priya Ghurde:

Ms. Ghurde discussed emerging cyber threats, phishing attacks, ransom ware, and social engineering scams. She shared case studies from I4C, explaining how cybercrimes are investigated and prevented.

- Key topics included:
- Cyber Laws in India (IT Act, IPC Sections related to cybercrime)
- Role of Indian Cyber Crime Centre (I4C) in combating cyber threats

- Best practices for online safety and secure digital transactions

3. Interactive Q&A Session:

Students actively participated, asking questions about ethical hacking, cyber forensics, and career paths in cyber security. ,Ms. Ghurde provided valuable guidance on certifications (CEH, CISSP) and internships in cybercrime cells.

4. Vote of Thanks & Closing Remarks:

- The CESA coordinator expressed gratitude to Ms. Ghurde for her insightful session.
- Students were encouraged to participate in cyber security Expert Talk

Outcome & Feedback:

- Over 150+ students and faculty members attended, gaining practical knowledge on cyber defence mechanisms.
- The session was highly engaging, with students appreciating the real-life examples and career advice.
- Many students showed interest in pursuing cyber security as a specialization.

The guest lecture successfully bridged the gap between theoretical knowledge and industry

practices in cyber security. Such initiatives by CESA and the CSE Department play a crucial role in preparing students for future challenges in the digital world.

Report on

Study in Japan

By

Dr. Pankaj Koinkar

Vice Director

Center of International Research & Educational Cooperation Tokushima University, Japan.

Date :25 Mar 2025

To,
The Director,
ICEEM, Engg. & MBA College,
Waluj, Chh. Sambhajinagar.

Subject: Permission Request to Organize Expert Talk on "Study in Japan: Opportunities for Indian Students in Higher Education"

Respected Sir/Madam,

The Department of Computer Science & Engineering, seeks your kind permission to organize an Expert Talk on "Study in Japan: Opportunities for Indian Students in Higher Education" for our Second Year (SE), Third Year (TE), and Final Year (BE) students.

Event Details:
Topic: "Study in Japan: Opportunities for Indian Students in Higher Education"
Date: 27th March 2025 (Thursday)
Time: 02:00 PM to 04:00 PM
Venue: College Function Hall
Resource Person: Dr. Pankaj Koinkar
Vice Director, Centre of International Research & Educational Cooperation,
Tokushima University, Japan

This session will be highly beneficial for students aspiring to pursue higher education abroad, particularly in Japan, and will help them make informed decisions about their academic futures.

Kindly grant us permission at the earliest to proceed with the necessary arrangements.

Sincerely,
Prof. Sujata Chechare

Asst. Professor
CSE,ICEEM

Director
ICEEM ,Chh. Sambhajinagar

The Department of Computer Science and Engineering at ICEEM successfully organized an Expert Talk on the topic "Study in Japan: Opportunities for Indian Students in Higher Education". The session was conducted by Dr. Pankaj Koinkar, an esteemed academician and administrator from Tokushima University, Japan. The event aimed to provide students with insights into higher education opportunities, research prospects, scholarships, and cultural aspects of studying in Japan.

Key Highlights of the Session

1. Introduction to Japanese Higher Education System
    - Dr. Koinkar explained the structure of universities in Japan, including national, public, and private institutions.
    - He highlighted the emphasis on research, innovation, and industry collaboration in Japanese academia.
2. Admission Process & Eligibility Criteria
    - Detailed discussion on application procedures, entrance exams , and language requirements (JLPT for Japanese-taught programs).
    - Importance of research proposals for postgraduate admissions.
3. Scholarships & Financial Support
    - Overview of scholarships like MEXT, JASSO, and university-specific funding for international students..
4. Career Opportunities
    - Information on Japan's growing IT sector, robotics, and AI industries for Indian students.
5. Cultural Adaptation & Student Life
    - Dr. Koinkar shared personal anecdotes on overcoming cultural challenges, including language barriers, work ethics, and social etiquette.
6. Q&A Session
    - Students actively engaged with queries on internship opportunities, cost of living, and comparisons with other study-abroad destinations.

Report on

"TALK REPORT"

Topic: Vision to Venture: The Entrepreneur's Journey

Date: 22nd March 2025
Time: 12:00 PM – 1:00 PM
Venue: College Function Hall
Speaker: Ms. Mansi Shinde, Digivijay Industries

1. Introduction:

An expert talk on "Vision to Venture" was conducted by Miss Mansi Shinde, an accomplished entrepreneur and business strategist. The session aimed to provide insights into transforming visionary ideas into successful business ventures. The talk was attended by students and faculty members eager to learn about entrepreneurship, business strategies, and startup development.

2. Objective of the Talk:

The primary objective of the expert session was to enlighten students on the journey from having a vision to establishing a successful venture. The session covered key aspects such as idea generation, business planning, risk management, funding opportunities, and market positioning.

3. Key Highlights of the Session:

- Understanding Vision and Entrepreneurship: Miss Mansi Shinde emphasized the importance of having a clear vision and how it serves as the foundation for any entrepreneurial journey.
- Business Ideation and Market Research: She explained the significance of identifying business opportunities, conducting market research, and analysing competition before launching a venture.
- Business Planning and Strategy: The session covered essential components of business planning, including setting objectives, resource allocation, financial planning, and defining a value proposition.
- Funding and Investment Strategies: Miss Shinde provided insights into various funding options available for start-ups, such as bootstrapping, angel investment, venture capital, and government grants.
- Challenges and Risk Management: She highlighted common challenges faced by entrepreneurs, including financial risks, market competition, and operational hurdles, along with strategies to mitigate them.
- Innovation and Growth: The importance of continuous innovation, customer feedback, and adapting to market changes were discussed as key elements for sustainable business growth.

4. Interactive Session:

The talk concluded with an engaging Q&A session where students raised queries regarding start-ups challenges, business expansion strategies, and balancing risks with growth opportunities. Miss Shinde provided practical solutions and motivated students to take calculated risks in their entrepreneurial journey.

5. Felicitation of MBA FY and SY Students & Placement Recognition:

As part of the event, a felicitation ceremony was conducted to honours MBA First Year (FY) and Second Year (SY) students for their outstanding academic and extracurricular achievements. Additionally, students who secured placements in reputed organizations were recognized and appreciated for their hard work and dedication. This segment of the event served as an inspiration for other students to strive for excellence in their careers.

6. Conclusion:

The expert talk on "Vision to Venture" by Miss Mansi Shinde was an insightful and inspiring session that provided valuable knowledge on transforming ideas into successful business ventures. The talk encouraged students to develop an entrepreneurial mind-set, plan strategically, and pursue their business aspirations with confidence. The felicitation ceremony further added value to the event by recognizing the achievements of MBA students and those who secured placements.

7. Acknowledgment:

We extend our sincere gratitude to Miss Mansi Shinde for sharing her expertise and guiding aspiring entrepreneurs. Special thanks to the organizers for facilitating this enlightening session and for recognizing the hard work and success of MBA students and placed candidates.

Subject: Heartfelt Appreciation for Your Expert Talk

Dear Ms. Manasi Shinde,

Greetings from the MBA Department of ICEEM!

On behalf of the faculty and students, we extend our sincere gratitude for gracing us with your presence as a guest speaker for the Expert Talk on **"Vision to Venture: The Entrepreneur's Journey."** Your valuable insights into entrepreneurship, HR management, and business growth strategies have greatly enriched our students' knowledge and inspired them to think innovatively about their future careers.

Your engaging session, real-world experiences, and thought-provoking perspectives provided immense learning opportunities for our students. We truly appreciate the time and effort you dedicated to making this event a success.

Once again, thank you for sharing your expertise with us. We look forward to future collaborations and hope to welcome you again at ICEEM.

Best Regards,

REPORT ON

"Expert Talk on Ethics And Values"

By

Prof. Zafar-Ul-Hasan

Assistant Professor
ICEEM Chh. Sambhajinagar

FOR FIRST YEAR ENGINEERING STUDENTS

ON21st and 22ndMarch, 2025

At Function Hall

Date: 20/03/2025

To,
The Director,
ICEEM,
Waluj,Chh. Sambhajinagar.

Subject: Request for Permission to Organize an Expert Talk on Ethics and Values

Respected Sir,

I hope this letter finds you well. I am writing to seek permission to organize an expert talk for F.Y. Engg. students on the topic **"Ethics and Values."** The session aims to enlighten students about the importance of ethical principles and moral values in personal and professional life.

We propose to invite **Prof. Zafar-Ul-Hasan**to deliver this insightful session. The talk is planned to be held on **21st March 2025** at **SeminarHall(Electrical dept.) and 22nd March 2025 at Function Hall**from 3:00pm to 5:00pm.

We believe this session will greatly benefit the students by providing them with a deeper understanding of ethical decision-making and value-based leadership. We assure you that all necessary arrangements will be made to ensure the smooth execution of the event.

We kindly request your approval to proceed with the event. Your support in this initiative will be highly appreciated. Looking forward to your positive response.

Thank you for your time and consideration.

Allowed.

HOD(H&S Dept. ICEEM)

Speaker: Prof. Zafar-Ul-Hasan

Date: 21st and 22nd March 2025.

Venue: Function hall.

Audience: First year engineering Students.

Topic: Expert Talk on Ethics and Values.

Total no. of students attended: 21st March:-72, 22nd march:-56

Humanity and Science department of International Centre of Excellence in Engineering and Management organized Expert talk on Ethics and value by Prof. Zafar-Ul-Hasan. on 21st and 22nd March 2025(Thursday) for First year engineering students. The Guest speaker Prof. Zafar-Ul-Hasan working as Assistanat Professor AIML department of ICEEM Waluj Ch. Sambhajinar Having more than 25yrs of Academic and Industrial experience.

Session was started by welcoming our guest followed by guests introduction to students. The speaker began by defining ethics as a set of moral principles that govern an individual's behavior and values as the fundamental beliefs that guide decision-making. He emphasized the role of ethics and values in shaping a responsible and harmonious society.

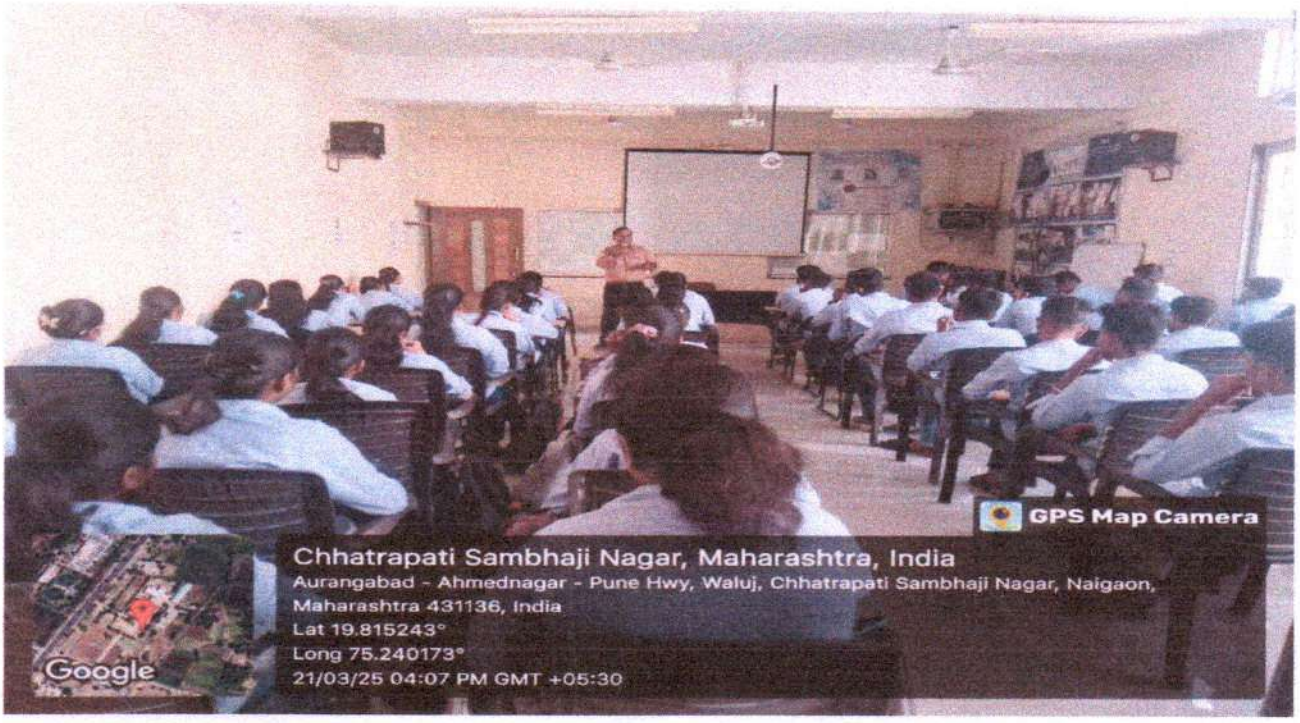

Some of the major points discussed in the session included:

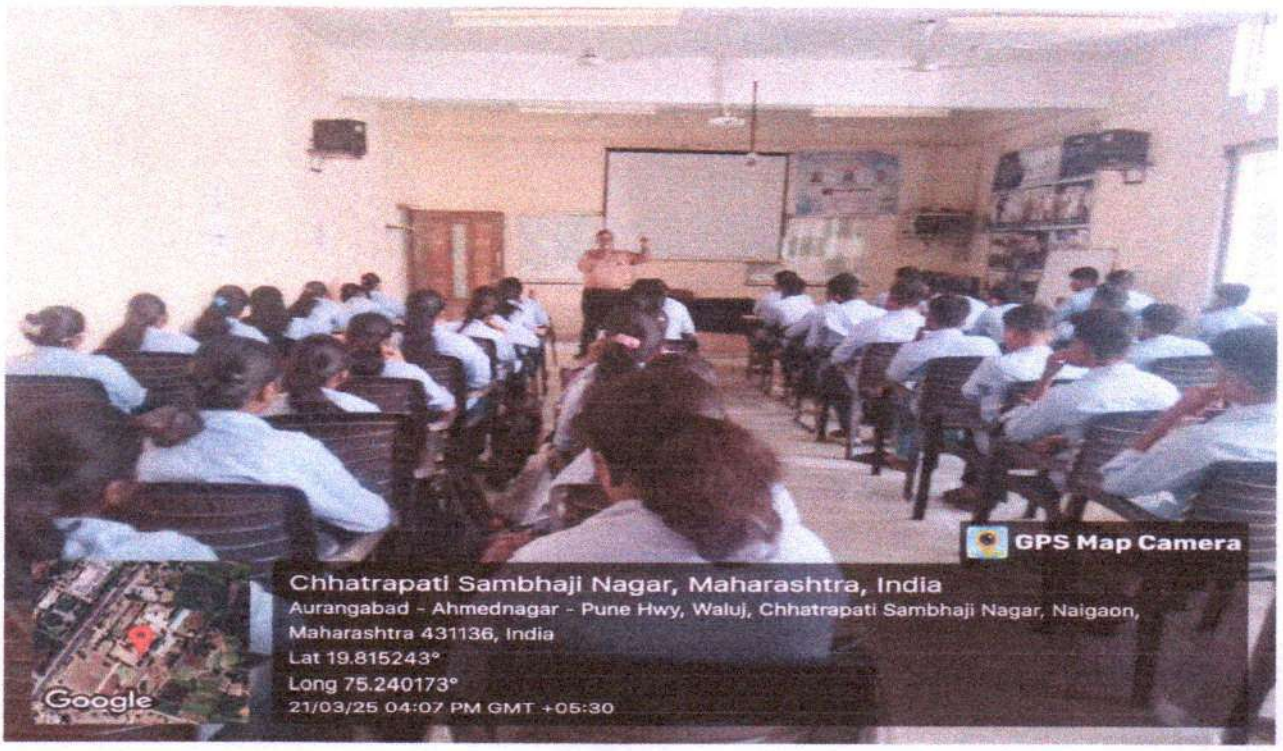

1. **Importance of Ethics in Personal and Professional Life** – The speaker explained how ethical conduct fosters trust, credibility, and integrity, both in personal interactions and in workplaces.
2. **Moral Decision-Making** – Various ethical frameworks, such as utilitarianism, deontology, and virtue ethics, were discussed to help individuals make principled decisions.
3. **Ethical Challenges in Modern Society** – Issues like corruption, corporate misconduct, and ethical dilemmas in technology and artificial intelligence were explored.
4. **Values as a Guiding Force** – The significance of core values like honesty, compassion, respect, and responsibility was highlighted.
5. **Case Studies and Real-Life Examples** – The speaker provided examples from history, business, and day-to-day life to illustrate ethical decision-making in action.

The session was highly engaging, with participants actively involved in discussions and Q&A. Thought-provoking questions were raised regarding ethical dilemmas, and the speaker provided insightful responses on how to navigate them effectively.

Conclusion: The expert talk on ethics and values was an enriching experience that reinforced the importance of ethical conduct in all spheres of life. The session encouraged attendees to reflect on their own values and commit to ethical living. It was a valuable opportunity to gain deeper insights into the role of ethics in building a just and moral society program was concluded with vote of thanks by Ms. S. D. Gavande(Ass. Prof. ICEEM).

Subject: Heartfelt Thanks for Delivering an Expert Talk on "Ethics and Values"

Respected Sir,

On behalf dept. of Humanity and Science ICEEM., I would like to extend our sincere gratitude for delivering an insightful and thought-provoking talk on **"Ethics and Values"** on 21st and 22nd March 2025. Your expertise and engaging presentation captivated our audience and provided them with a deeper understanding of the significance of ethical principles in both personal and professional life.

Your valuable insights, real-world examples, and thought leadership made a lasting impact on our participants, and we truly appreciate the time and effort you invested in making this session a success.

Once again, we thank you for your contribution and look forward to future collaborations. Please accept our heartfelt appreciation for sharing your knowledge and inspiring our attendees.

Best Regards.

REPORT ON INTRACOLLEGE TECHNICAL EVENT

TEKHNIKO'S 2K25

1. Introduction: The **TEKHNIKO'S 2K25** was successfully organized by Ingenious Electro Cavalry (IEC) which is a student association of Electrical and Electronics Engineering (EEE) Department of ICEEM College. on 4/3/2025. The event aimed to foster technical skills, innovation, and collaboration among students. It provided a platform for participants to showcase their knowledge and creativity in various domains of technology.

2. Objectives:

- To encourage students to engage in technical activities and competitions.
- To enhance problem-solving and critical-thinking skills.
- To promote teamwork and knowledge sharing.
- To provide exposure to real-world technical challenges.

3. Event Details:

- **Date:** 4/3/2025
- **Venue:** Function hall, EEE seminar hall and ICEEM sports ground and Campus
- **Participants:** 180
- **Organizing Committee:** Ingenious Electro Cavalry (IEC)
- **Sponsor's for the Event:** Rotary Club

4. Events and Competitions: The event featured multiple technical competitions and activities, including:

- **Tower Building**: Teams collaborated to build paper towers using their technical skills and teamwork capabilities to build highest tower.
- **General Quiz:** A rapid-fire quiz covering various domains of general knowledge.
- **Technical Hunt :** Teams collaborated to develop there logical thinking, technical knowledge, presence of mind to find the clues planted in various departments of college campus.
- **Best out of waste:** Students displayed their innovative projects from waste material and presented the best out of waste..
- **Reel Making:** Teams and indivisuals prepared and presented the reels which were based on social themes which can create awareness among the peoples using social media.

5. Highlights and Achievements:

- The event witnessed enthusiastic participation from students across different departments.
- The Tekhnikos resulted in innovative solutions, with winning teams receiving prizes and certificates.

6. Feedback and Impact:

- Participants found the event enriching and appreciated the opportunity to apply their technical skills.
- Judges and guests commended the quality of projects and presentations.
- Suggestions for future improvements included extending the event duration and adding more hands-on workshops.

Conclusion: The TEKHNIKOS 2k25 was a grand success, achieving its objectives of enhancing technical knowledge and fostering innovation and also team building activities. The event provided students with a platform to interact, learn, and compete, making it a memorable and valuable experience.

Report on

"Investor Awareness and Career Guidance"

Date: 25th February 2025
Time: 3:00 PM – 4:00 PM
Venue: Seminar Hall, ICEEM MBA Department
Speaker: Dr. Anil Jadhav

Introduction

The ICEEM MBA Department organized an expert talk on "Investor Awareness and Career Guidance" on 25th February 2025 from 3:00 PM to 4:00 PM in the seminar hall. The event was graced by the esteemed presence of Dr. Anil Jadhav, a renowned expert in the field of investment strategies and career development. The session aimed to educate students about the importance of financial literacy, investment planning, and career growth strategies in the ever-evolving professional world.

Objective of the Expert Talk

The primary objectives of this expert talk were:

- To create awareness about the significance of investments and financial management among students.
- To guide students in making informed financial decisions for a secure future.
- To provide insights into career opportunities and professional growth in various sectors.
- To encourage students to adopt a disciplined approach toward financial planning and career development.

Key Highlights of the Session

The session commenced with a warm welcome to Dr. Anil Jadhav by the faculty members and students. The expert talk was divided into two main segments: Investor Awareness and Career Guidance.

Investor Awareness

Dr. Jadhav emphasized the importance of financial literacy and how early investment decisions can shape an individual's financial stability. He covered several key topics, including:

- Basics of financial planning and investment strategies.
- The importance of saving and investing from an early age.
- Types of investments such as mutual funds, stocks, fixed deposits, and real estate.
- Risk assessment and risk management techniques.
- The impact of market trends on investments and the importance of diversifying portfolios.

He explained the power of compound interest and encouraged students to start investing even with small amounts to build long-term wealth. Real-life examples were provided to illustrate the benefits and risks associated with various investment options.

Career Guidance

In the second segment, Dr. Jadhav provided valuable insights into career planning and professional growth. The discussion focused on:

- Identifying one's strengths, interests, and career goals.
- Importance of skill development and continuous learning.
- Exploring career opportunities in finance, marketing, entrepreneurship, and emerging industries.
- Resume-building tips and the significance of internships and certifications.
- Preparing for interviews and networking effectively in the corporate world.

Dr. Jadhav highlighted how financial independence and strategic career choices go hand in hand. He motivated students to be proactive in enhancing their knowledge and skills to achieve career success.

Interactive Session and Student Participation

The session was highly interactive, with students actively participating in discussions and asking questions related to investment and career planning. Dr. Jadhav patiently addressed each query, providing practical solutions and expert advice.

Some of the questions raised by students included:

- How can a beginner start investing with minimal capital?
- What are the safest investment options for students?
- How to balance career growth and financial stability simultaneously?
- What are the key skills required to succeed in the finance sector?

Dr. Jadhav's answers were insightful and helped clarify the doubts of the students, making the session highly engaging and informative.

Conclusion and Vote of Thanks

The expert talk concluded with a vote of thanks delivered by Prof. Asmita Mathkari of the MBA department. The session was highly beneficial for students as it provided them with a clear understanding of financial literacy, investment strategies, and career planning.

Students expressed their gratitude for the opportunity to learn from an industry expert and showed enthusiasm in applying the knowledge gained in their personal and professional lives. The event was a great success, leaving a lasting impact on all attendees.

Recommendations and Future Prospects

Considering the positive response from students, it is recommended that similar expert talks be conducted regularly to enhance financial awareness and career preparedness among students. More workshops and training sessions on investment strategies and professional development should be organized to equip students with the necessary skills to navigate their financial and career journeys successfully.

Alumni Meet Report

Introduction: The Alumni Meet at ICEEM College was a grand success, bringing together former students, faculty, and staff to relive cherished memories and strengthen bonds. The event was organized to provide a platform for alumni to reconnect with their alma mater, share their professional experiences, and celebrate the journey of growth and success.

Venue: The event was held at ICEEM College, where different segments of the program took place at designated venues within the campus. The function hall served as the main gathering area, while outdoor spaces were utilized for entertainment and recreational activities.

Alumni Meet Program Schedule on dated 23/02/2025

10:00 AM - 11:00 AM: Registration and Tea @ Function Hall

The event commenced with the registration process where alumni were warmly welcomed by the organizing committee. Attendees were provided with ID tags and souvenirs. A tea session allowed for casual conversations and initial networking.

11:00 AM - 11:30 AM: Preamble and Interaction with Staff @ Function Hall

The official inauguration began with a welcome speech by the event coordinator. Faculty members shared their experiences and expressed their joy in meeting former students. Alumni took the opportunity to introduce themselves and share their journey since graduation.

11:30 AM - 12:15 PM: उजाळाआठवणींना (Nostalgic Reminiscence)

This session was dedicated to sharing past memories, where alumni reminisced about their college days. Old photographs, video clips, and stories were presented, bringing a wave of nostalgia and emotions among attendees.

12:15 PM - 12:30 PM: Venue कडेप्रस्थान (Proceeding to the Next Venue)

After the reminiscing session, everyone proceeded to the next venue for the upcoming activities.

12:30 PM - 1:30 PM: भावनांचाउद्रेक (Emotional Outpouring)

A heartfelt segment where alumni shared their personal experiences, struggles, and successes after leaving the college. Many spoke about how ICEEM played a crucial role in shaping their careers and lives. This session strengthened the bond between past students and the institution.

1:30 PM - 2:00 PM: वनभोजन (Outdoor Lunch)

A delicious outdoor lunch was arranged, where alumni enjoyed traditional dishes amidst a serene and refreshing atmosphere. This informal gathering allowed everyone to relax and socialize.

2:00 PM - 3:00 PM: संगीत-नृत्यमैफील (Musical & Dance Extravaganza)

An entertaining segment where alumni showcased their musical and dancing talents. The session was filled with fun performances, singing, and enthusiastic participation from everyone.

3:00 PM - 3:30 PM: Fun Games

Interactive and engaging games were organized to add a competitive and lively spirit to the event. Alumni participated in group activities, which brought laughter and joy to the gathering.

3:30 PM - 4:00 PM: DJ Session

The final segment of the event was a DJ session, where attendees danced and enjoyed themselves to the beats of vibrant music, concluding the Alumni Meet on a high-energy note.

Summary of Report: The Alumni Meet at ICEEM College was a memorable event that rekindled old friendships, reinforced professional networks, and deepened the connection between the alumni and the institution. The day was filled with joy, nostalgia, and entertainment, making it a remarkable success. The alumni expressed their gratitude to the organizing committee and promised to continue their association with the college in the years to come.

Total Attendance 125 Plus alumni and 30 plus staff members.

Report

On

Health and Medical Insurance Awareness Camp

Introduction:

A Health and Medical Insurance Awareness Camp was organized on **14/02/2025** at **International Centre of Excellence in Engineering and Management (ICEEM), Waluj, Chh. Sambhajinagar** to educate the public about the importance of health insurance and the benefits it offers. The event was conducted in collaboration with **Aditya Birla Health Insurance, Chh. Sambhajinagar.**

Objective:

The primary objective of the camp was to create awareness about health and medical insurance policies, their advantages, and the financial security they provide against medical emergencies. Additionally, the camp aimed to address misconceptions about insurance and guide participants on selecting suitable policies.

Activities Conducted:

1. **Awareness Sessions:** Experts from the insurance and healthcare sectors conducted informative sessions on the necessity of health insurance, different policy options, and claim procedures.
2. **One-on-One Consultation:** Insurance advisors provided personalized guidance to attendees, helping them understand the best insurance plans based on their needs.
3. **Distribution of Informational Brochures:** Pamphlets and brochures detailing various insurance policies and their benefits were distributed among the participants.
4. **Q&A Session:** A dedicated session was held where attendees could ask queries regarding health insurance and receive expert answers.

Key Highlights:

- 23 faculty members attended the camp. Representatives from major insurance companies were present to explain their schemes and address customer concerns.
- Many attendees expressed interest in purchasing health insurance after gaining awareness about its benefits.

Challenges Faced:

- Some individuals had misconceptions and distrust regarding insurance providers.
- Lack of prior knowledge made it difficult for some participants to understand complex insurance terms.
- Limited outreach resulted in fewer participants from remote areas.

Recommendations:

- Organizing such awareness camps regularly in different locations, especially in rural areas.
- Simplifying insurance information for better public understanding.
- Partnering with local organizations to ensure greater participation and outreach.

Conclusion:

The Health and Medical Insurance Awareness Camp was a successful initiative in spreading crucial information regarding health insurance. It helped many individuals understand the significance of being insured and guided them toward making informed decisions. Future initiatives should focus on broader outreach and continuous awareness efforts to maximize impact.

Subject: Request for Permission to Inaugurate the Computer Science and Engineering Student Association.

Respected Sir,

I hope this letter finds you well. On behalf of the **Department of Computer Science and Engineering**, I am pleased to inform you that we have initiated the formation of a **Computer Science and Engineering Student Association** at **ICEEM College**. This association aims to enhance students' technical skills, encourage innovation, and create a collaborative environment for academic and professional growth.

formally commence its activities, we propose to organize an **Inaugural Ceremony** on **13th February 2025**. The event will include an introduction to the association's objectives, student involvement, and upcoming initiatives. We also plan to invite an esteemed guest speaker from the industry to motivate and guide our students.

In this regard, we kindly seek your approval and support for the inauguration of the association. Your guidance will be invaluable in making this initiative a success. We would be grateful for any suggestions or recommendations you may have regarding the event.

Looking forward to your positive response and support.

Thank you.

Yours sincerely,

Head of the Department
Department of Computer Science and Engineering
ICEEM College.

Date: 09th Oct 2024

Notice

All the students of CSE are hereby informed that our department is going to form **Computer Engineering students Association (CESA)** for current **AY 2024-25.** So we are forming association body to conduct various technical & academic activities in our department. Interested students can enroll their application for the following post on or before 11-10-24 up to 3.00 pm.

Prof. Pallavi Kathar

CESA Faculty Coordinator

The Department of Computer Engineering at ICEEM successfully organized the inaugural function of the Computer Engineering Student Organization on 13th February 2025. The event was held in the ICEEM Function Hall at 3:00 PM and witnessed enthusiastic participation from students, faculty, and distinguished guests.

Event Highlights:

Inauguration Ceremony:

The chief guest for the event was **Mr. Deepak Gadekar**, a renowned professional in the field of Computer Engineering. The event was also graced by esteemed dignitaries on the dice, including **Dr. Subhash Jhavar Chairman IIRW, Ms. Kalpana Jhavar, Campus Director, Dr. C.S. Padmavat** , and Director **Dr. R.R. Deshmukh**. Their presence added great value to the occasion and motivated the students to actively participate in the organization's activities.

Proceedings of the Event:

The event commenced with a warm welcome speech by the host, followed by the traditional lighting of the lamp, signifying the enlightenment and growth of knowledge in the field of Computer Engineering. The welcome address was delivered by the CESA President Abhishek Zade, who highlighted the objectives and vision of the student organization.

Mr. Deepak Gadekar, in his keynote address, emphasized the importance of technical skill development, industry trends, and the significance of student involvement in various projects and research activities. His inspiring words encouraged students to actively engage in learning beyond the curriculum.

Following this, **Dr. R.R. Deshmukh** addressed the audience, appreciating the efforts taken by the department to establish the student organization. They stressed the role of teamwork and innovation in shaping successful engineering careers.

Dr. C.S. Padmavat, the Campus Director, spoke about the institution's commitment to fostering student-led initiatives and encouraged students to make the best use of the platform for their academic and professional growth. **Dr. R.R. Deshmukh** also shared valuable insights on technological advancements and their impact on future career opportunities.

Launch of the Student Organization:

The formal inauguration of the **Computer Engineering Student Organization** was marked by unveiling its official banner and presenting the organization's roadmap for the academic year. The event also included the announcement of office bearers and core committee members who will be responsible for planning and executing various activities under the organization.

- **Vote of Thanks:** Vote of Thanks was done by our final year Niraj Dagade student. On this occasion all staff and students were present.

Concluding Remarks: The program concluded with a vote of thanks by Niraj Dagade our final year student. He expressed gratitude towards all the students who contributed in Poster publication competition work, the organizing committee, and the dignitaries for making the event a grand success.

Inaugural function of the Computer Engineering Student Organization in ICEEM was a remarkable event that brought together the student to celebrate their extra activities. The collective effort of the Staff Members of CSE Department of ICEEM, and all the students made the event a resounding success, fostering a spirit of unity and well-being among the participants.

Subject: Invitation as Chief Guest for the Inauguration of Computer Engineering Student Association

Dear Sir,

It is with great pleasure that we invite you to grace the inauguration ceremony of the **Computer Engineering Student Association** as well as inauguration of **Tech Vision (Poster Making Competition)** as our esteemed **Chief Guest**. The event is scheduled to be held on **February 13, 2025, at 2:30 PM** at Function Hall, ICEEM.

Your presence and inspiring words would be highly valuable in motivating our students as they embark on this new journey of academic and professional growth. We believe that your insights and experience in the field will greatly encourage and guide our young minds.

We look forward to your positive confirmation and hope to welcome you on this special occasion. Please let us know your availability at your earliest convenience.

Thank you, and we look forward to your presence.

Warm Regards,

Head of the Department

Subject: Heartfelt Thanks for Gracing the Inauguration Ceremony

Dear Mr. Deepak Gadekar,

On behalf of the **Computer Science Department** at ICEEM, I extend my heartfelt gratitude for your esteemed presence as the **Chief Guest** at the **inauguration ceremony of the Computer Engineering Student Association (CESA)** on **February 13, 2025, at 2:30 PM**.

Your inspiring address and valuable insights greatly motivated our students and faculty. Your words of encouragement and wisdom will undoubtedly guide our students toward innovation, leadership, and excellence in the field of computer engineering.

We sincerely appreciate the time and effort you took to be a part of our event despite your busy schedule. Your presence added great value to the occasion, making it a memorable and successful event.

Once again, thank you for your gracious presence and support. We look forward to future collaborations and the opportunity to welcome you again.

Warm Regards,

International Centre of Excellence in Engg. & MGMT. * Aurangabad *

Subject: Request for Permission to Organize an Expert Talk on "Artificial Intelligence" in the College Function Hall on 05th February 2025 by Ms. Swapnali Naik, Scientist 'D'/Joint Director, NIELIT Centre.

Dear Sir

I am writing to formally request permission to organize an Expert Talk on the topic of "Artificial Intelligence" in the college function hall. The talk will be delivered by Ms. Swapnali Naik, who holds the esteemed position of Scientist 'D'/Joint Director at the NIELIT Centre.

Artificial Intelligence is a rapidly evolving field with significant relevance to engineering and management disciplines. This expert talk aims to provide students with insights into the latest advancements, applications, and career opportunities in AI, thereby enhancing their knowledge and inspiring innovation.

The proposed event details are as follows:

- Topic: Artificial Intelligence
- Speaker: Ms. Swapnali Naik, Scientist 'D'/Joint Director, NIELIT Centre
- Venue: College Function Hall
- Date and Time: 05th February 2025 (Time to be finalized upon your approval)
- Duration: Approximately 1. hours, including a Q&A session

We believe this expert talk will be highly beneficial for the students and faculty alike, fostering a deeper understanding of AI and its transformative potential. We kindly request your approval to proceed with the event and provide access to the college function hall for the same. We look forward to your positive response.

Thank you for your support and encouragement.

Sincerely,
Prof. Sujata Chechare
Asst. Professor

Subject: Request for Approval of Expenses for Guest Lecture on Artificial Intelligence

Respected Sir

On behalf of the Department of Computer Science and Engineering, I am writing to seek your approval for the allocation of funds to organize a Guest Lecture on "**Artificial Intelligence**". **Date: 05th Feb 2025**

we plan to invite an expert in the field to deliver a guest lecture. Guest lecture conducted by **Ms Swapnali Naik Scientist 'D'/ Joint Director NIELIT Center**, New Delhi This event will not only enhance the academic understanding of our students but also inspire them to explore new research opportunities and applications in AI.

To ensure the successful organization of this event, we have estimated the following expenses:

1. Honorarium for the Guest Speaker: ~~₹2000~~ 1500/-
2. Travelling Expense for pickup and Drop ₹500
3. Miscellaneous Expenses : ₹200

Total Estimated Expenses: ₹2700

We kindly request your approval for the allocation of ₹2,000 to cover these expenses. The guest lecture will be a valuable addition to our academic calendar, and we are confident that it will significantly benefit our students and faculty.

Thank you for your continued support in fostering academic excellence and innovation within our institution.

Permitted for N.G.P.L
Remuneration as per UGC Norms
4.2.25

Thanking You.

Subject: - Invitation for conducting Guest lecture on Artificial Intelligence

Greeting from ICEEM,

We, the department of Computer science and Engineering wish to organize Guest Lecture on subject "Artificial Intelligence ".

It is great pleasure to invite you for the same. This will increase the knowledge in Academic perspective of the subject.

Hope for a great time.

Details of Guest Lecture are mentioned below:

- **Venue: function hall**
- **Date: 05th Feb 2025**
- **Number of days: 1 day.**
- **Timing: 2:00 PM**

Thanking You.

COMPUTER SCIENCE & ENGINEERING DEPARTMENT

NOTICE

All Students of SE,TE and BE are informed that we have arranged an Expert Guest Lecture on **'Artificial Intelligence'** on **05th Feb 2025** in **function hall** conducted by **Ms Swapnali Naik** works with NIELIT Center, New Delhi. As a **Scientist 'D'/ Joint Director**

Venue: function hall
Date: 05th Feb 2025
Time: 02:00PM To03:00 PM
Resource Person: Ms Swapnali Naik
Scientist 'D'/ Joint Director
NIELIT Center, New Delhi

Program Co-Ordinator

Head of Department
HOD
CSE Dept.
ICEEM

The Department of Computer Science and Engineering (CSE) and Artificial Intelligence and Machine Learning (AIML) organized a one-day guest lecture on the topic "Artificial Intelligence" on **05th Feb 2025** The event was attended by students from Second Year (AIML), Third Year (CSE), and Final Year (CSE). The lecture was delivered by Ms. Swapnali Naik, Scientist 'D'/ Joint Director at NIELIT Center, New Delhi, who is an esteemed expert in the field of Artificial Intelligence (AI).

Ms. Naik began the session by providing an overview of Artificial Intelligence, explaining its significance in today's technologically driven world. She highlighted how AI is transforming industries such as healthcare, finance, education, and transportation. The lecture focused on the latest advancements in AI, including machine learning, deep learning, natural language processing, and computer vision.

She emphasized the importance of ethical considerations in AI development, discussing issues such as bias in algorithms, data privacy, and the societal impact of AI. Ms. Naik also shared real-world applications of AI, such as autonomous vehicles, chatbots, and predictive analytics, which captivated the audience.

The session included interactive discussions, where students had the opportunity to ask questions and clarify their doubts. Ms. Naik encouraged students to explore AI research and innovation, stressing the growing demand for skilled professionals in this domain.

The lecture concluded with a vote of thanks by the faculty coordinator, who expressed gratitude to Ms. Naik for sharing her expertise and insights. Overall, the event was highly informative and inspiring, providing students with a deeper understanding of Artificial Intelligence and its potential to shape the future. It was a valuable learning experience for all attendees.

REPORT ON

Expert Talk on "Recent Trends in Embedded System Technology and Career Guidance"

Speaker: Mr. K. Krishna Chaitanya, Vector India, Hyderabad
Date: 05/02/2025
Venue: Dr. A.P.J.Abdul Kalam Seminar Hall, EEE Department,ICEEM.
Participants: All Se,TE,BE students of EEE Department

Introduction:

The expert talk on "Recent Trends in Embedded System Technology and Career Opportunities" was delivered by Mr. K. Krishna Chaitanya, a renowned expert from Vector India, Hyderabad. The talk aimed to provide insights into the latest developments and advancements in embedded system technology, as well as explore the career opportunities available in this field.

Key Takeaways: Recent Trends in Embedded System Technology

1. **IoT and Edge Computing:** Mr. Chaitanya emphasized the growing importance of IoT and edge computing in embedded system technology. He explained how these technologies are transforming industries such as automotive, healthcare, and industrial automation.
2. **Artificial Intelligence and Machine Learning:** The speaker highlighted the increasing adoption of AI and ML in embedded systems, enabling applications such as predictive maintenance, anomaly detection, and autonomous vehicles.
3. **Cyber security:** Mr. Chaitanya stressed the importance of cybersecurity in embedded systems, citing examples of vulnerabilities and attacks in IoT devices and automotive systems.
4. **Autonomous Vehicles:** The speaker discussed the latest developments in autonomous vehicle technology, including sensor fusion, computer vision, and machine learning algorithms.
5. **5G and Wireless Connectivity:** Mr. Chaitanya touched upon the impact of 5G and wireless connectivity on embedded systems, enabling applications such as smart cities, industrial automation, and remote healthcare.

Career Opportunities in Embedded System Technology

1. **Embedded Software Engineer:** Mr. Chaitanya emphasized the demand for skilled embedded software engineers, who can design, develop, and test embedded software for various applications.
2. **System Engineer:** The speaker highlighted the need for system engineers, who can integrate hardware and software components to develop complex embedded systems.

5. **Research and Development Engineer:** Mr. Chaitanya encouraged students and professionals to pursue research and development opportunities in embedded system technology, driving innovation and advancements in the field.

Conclusion:

The expert talk by Mr. K. Krishna Chaitanya provided valuable insights into the recent trends and advancements in embedded system technology. The talk also highlighted the exciting career opportunities available in this field, emphasizing the need for skilled professionals to drive innovation and growth. The attendees gained a deeper understanding of the embedded system technology landscape and the skills required to succeed in this field.

Subject: Letter of thanks.

Dear Sir/Madam,

On behalf of International Centre of Excellence in Engineering and Management, we deeply appreciate the time you have given to guide & share the knowledge with our students. From the feedback have got from students, we found that you were meticulous during the Expert Talk. Thank you for that.

Our students were very happy with the overall outcome of your Guidance . In totality, after this Expert talk, they have certainly had an enriching learning experience. I again express my gratitude for hosting our students and providing a fruitful experience.
We wish the same kind of cooperation in future.

With Regards,

Director

Report on

Workshop

By

National Institute of Electronics and Information Technology (NIELIT), Delhi Centre, under the Ministry of Electronics and Information Technology (MeitY), Government of India

Date: 29/01/2025

To,
The Director,
ICEEM, Engg. & MBA College,
Waluj, Chh. Sambhajinagar.

Subject: Request for Permission to Organize an Online Workshop on "Artificial Intelligence"

Dear Sir

I am writing to formally request permission to organize an **Online Workshop** on the topic of **"Artificial Intelligence"** in the college. The workshop is scheduled to be held from **3rd to 7th February 2025 (5 days)** and is being organized on behalf of the **Computer Science and Engineering (CSE)** and **Artificial Intelligence and Machine Learning (AIML)** departments.

The event is being conducted by the **National Institute of Electronics and Information Technology (NIELIT), Delhi Centre**, under the **Ministry of Electronics and Information Technology (MeitY), Government of India**. The workshop will be led by **Ms. Swapnali Naik**, who holds the esteemed position of **Scientist 'D'/Joint Director** at the **NIELIT Center**.

Artificial Intelligence is a rapidly evolving field with significant relevance to engineering disciplines. This online workshop aims to provide students with theoretical knowledge, practical insights, and hands-on experience in AI, enabling them to stay updated with the latest advancements and explore career opportunities in this domain.

We kindly request your approval to proceed with the event and provide the necessary support for its successful execution.

Thank you for your support and encouragement.

Sincerely,
Prof. Sujata Chechare
Asst. Professor
CSE,ICEEM

ICEEM ,Chh. Sambhajinagar

Date:-1st Feb 2025

To.
Ms Swapnali Naik
Scientist 'D'/ Joint Director
NIELIT Center, New Delhi.

Subject: - Invitation for conducting 5 Days Workshop on " Artificial Intelligence".

Greetings from the International Centre of Excellence in Engineering and Management (ICEEM)!

We, the Department of Computer Science and Engineering (CSE) and Artificial Intelligence and Machine Learning (AIML), are pleased to invite you to conduct a 5-day Online workshop on "Artificial Intelligence" for our students. Your expertise and guidance in this field will greatly benefit our students and enhance their academic and practical understanding of this cutting-edge technology.

Hope for a great time.

Details of workshop are mentioned below:

- **Venue: CSE & AIML Labs (OS Lab and Programming Lab for online sessions)**
- **Date: February 3rd to 7th, 2025**
- **Number of days: 5 day.**
- **Timing: 10:00am To 05:00pm**

Thanking You.

HOD

(CSE)
ICEEM, Chh. Sambhajinagar

Ref: ICEEM/CSE/2024-25 **Date: 2nd Feb 2025**

COMPUTER SCIENCE & ENGINEERING DEPARTMENT

NOTICE

All students of **Second Year (AIML)**, **Third Year (CSE)**, and **Final Year (CSE)** are hereby informed that the Department of **Computer Science and Engineering (CSE)** and **Artificial Intelligence and Machine Learning (AIML)** has organized a **5-day online workshop on "Artificial Intelligence"**.

The workshop will be conducted by **Ms. Swapnali Naik, Scientist 'D'/ Joint Director** at **NIELIT Center, New Delhi**. This is a valuable opportunity to gain insights into the latest advancements and applications of Artificial Intelligence from expert.

- **Venue: CSE & AIML Labs (OS Lab and Programming Lab for online sessions)**
- **Date: February 3rd to 7th, 2025**
- **Number of days: 5 day.**
- **Timing: 10:00am To 05:00pm**
- **Resource Person: Ms. Swapnali Naik**

Program Co-Ordinator **Head of Department**

A live workshop session on "Artificial Intelligence" **was successfully conducted for students from the** Computer Science and Engineering (CSE) **(Third Year and Final Year) and** Artificial Intelligence and Machine Learning (AIML) **(Second Year) departments of the** International Centre of Excellence in Engineering and Management (ICEEM)**. The workshop was organized by the** National Institute of Electronics and Information Technology (NIELIT), Delhi Centre**, under the** Ministry of Electronics and Information Technology (MeitY), Government of India , The session was held daily from February 3rd to 7th, 2025, from 10:00 AM to 5:00 PM. The session began promptly at 10:00 AM each day. Both the live sessions and assignments were conducted with student participation.

- Institution: International Centre of Excellence in Engineering and Management (ICEEM)
- Target Student 88: B.E. (CSE), T.E. (CSE), S.E. (AIML) Students
- Dates: February 3, 2025 – February 7, 2025
- Software Used: Anaconda Navigator, Python
- Conducted By: Ms. Swapnali Naik, **Scientist 'D'/Joint Director (Technical)**
- **Platform –Googel meet**

Workshop Objectives:

The workshop aimed to provide students with a practical understanding of Python programming and its applications in data visualization and image processing. The curriculum focused on building fundamental skills through hands-on assignments and real-world examples. Workshop Content and Assignments:The workshop was structured around three primary assignments, progressively increasing in complexity:

February 3, 2025 (Day 1): Introduction to Python and GitHub

Activities:

- Introduction to the workshop and objectives.
- Overview of Python programming and its applications.
- Setting up the development environment: Installation of Python and Anaconda Navigator.
- Introduction to GitHub: Creating accounts and repositories.
- Introduction to Jupyter Notebooks.

- Start of Assignment No. 1: Creating GitHub accounts and beginning basic python scripting within jupyter notebooks.

February 4, 2025 (Day 2): Python Fundamentals and GitHub Integration

Activities:

- Continuation of Python fundamentals: Data types, lists, strings, and basic operations.
- Practical exercises: Writing Python programs to manipulate lists and strings.
- Guidance on uploading Jupyter Notebooks to GitHub repositories.
- Completion of Assignment No. 1.

February 5, 2025 (Day 3): Image Processing with OpenCV

Activities:

- Introduction to the OpenCV library for image processing.
- Demonstration of image loading, display, and basic manipulation.
- Practical assignment: Assignment No. 2, part 1, image manipulation. Explanation of image dimension, resizing, and flipping.

February 6, 2025 (Day 4): Data Visualization Basics

Activities:

- Completion of Assignment No. 2, part 1, and starting part 2.
- Introduction to data visualization using Python libraries (likely Matplotlib or Seaborn).
- Practical exercises: Creating line plots and bar charts.
- Visualization of the Khumb Mela dataset.
- Focus on adding legends, gridlines, and saving plots.

February 7, 2025 (Day 5): Advanced Data Handling and Assignment Completion

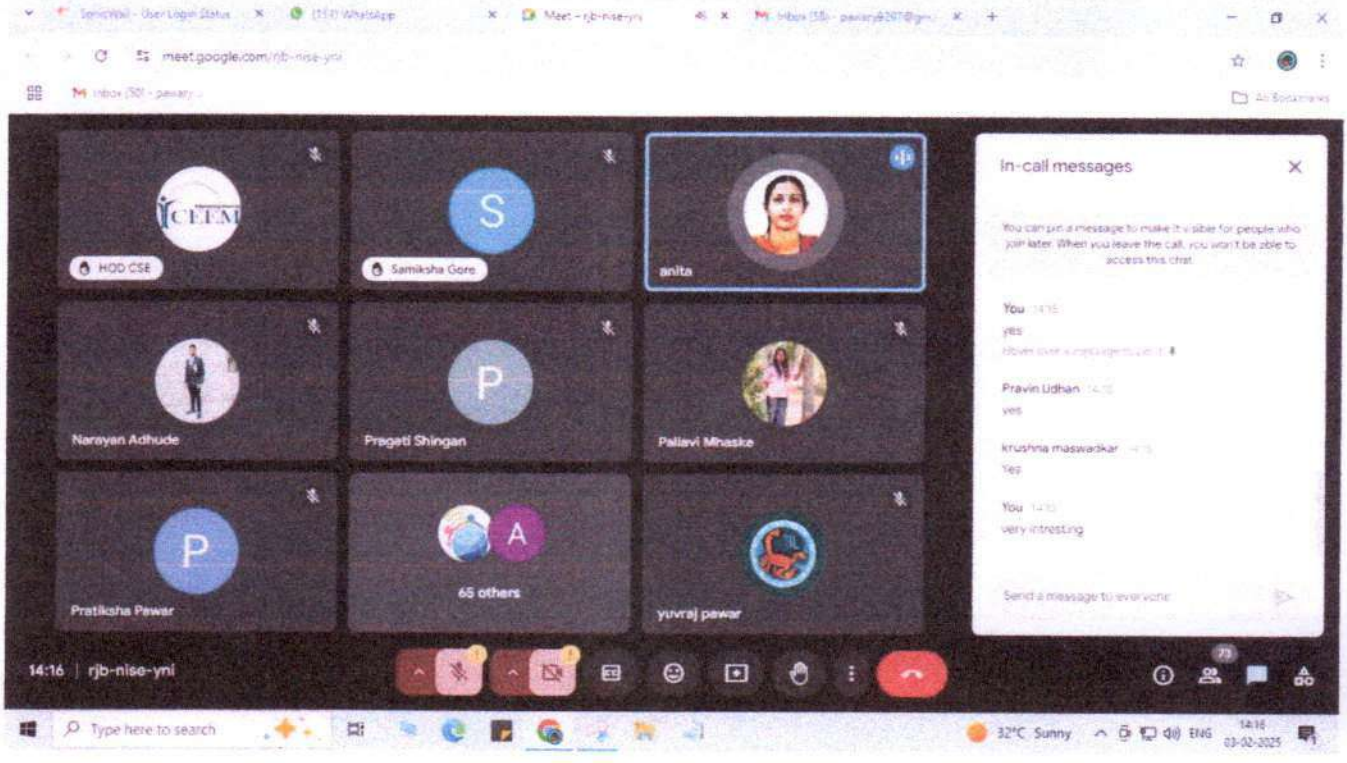

Activities:

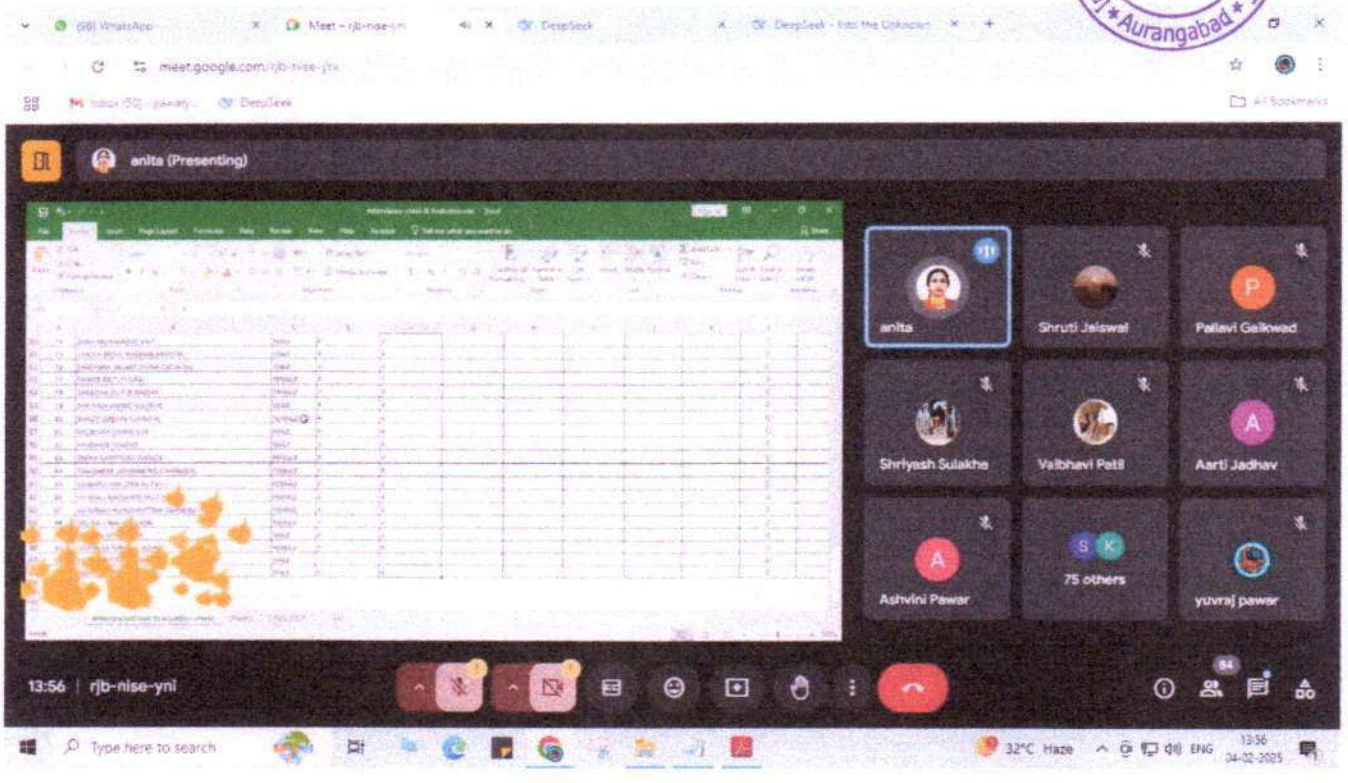

- Assignment No:3, data manipulation and visualization of the popular Indian singers dataset.
- Review of all assignments and Q&A session.
- Finalization of GitHub submissions.
- Final evaluation, and closing remarks.

Key Outcomes:

- Students gained practical experience in Python programming, image processing, and data visualization.
- Students learned to use GitHub for version control and collaboration.
- Students successfully completed hands-on assignments.
- I hope this date-wise breakdown is helpful.

Subject: Letter of Thanks

Dear Ms. Swapnali Naik,

On behalf of the Department of Computer Science and Engineering (CSE) and Artificial Intelligence and Machine Learning (AIML) at the International Centre of Excellence in Engineering and Management (ICEEM), we extend our heartfelt gratitude to you for conducting the 5-day online workshop on "Artificial Intelligence" from February 3rd to 7th, 2025.On our request you have accepted our invitation as a guest of honor and enlightened us with your valuable knowledge, experience and noble thoughts. We are very much thankful to you for the same. We want to express heartiest appreciation to you for the valuable guidance and your continued support.

We wish the same kind of cooperation in future.

With Regards,

Director

Subject: Request for Permission for Industrial Visit

Dear Sir/Madam,

I am writing to request your kind permission to organize an industrial visit for the students of Electrical and Electronics Engineering from **International Centre Of Excellence In Engineering and Management.** Chhatrapati Sambhajinagar. We are planning to visit Mahagenco, Paithan, as part of our curriculum to enhance students' practical knowledge and understanding of industrial operations.

We would like to schedule the visit on at a time convenient for you. We assure you that the students will adhere to all safety regulations and guidelines during the visit, and we will ensure the group is well-organized and respectful of your operational environment.

Please let us know the feasibility of our request and any procedures we need to follow. We would be grateful for the opportunity to visit your esteemed organization and learn more about the power generation processes and technologies used at Mahagenco.

Thank you for considering our request. We look forward to your positive response.

Sincerely,

Add Exe Engg.

Report on Industrial Visit to Hydroelectric Power plant

Date of Visit: 30-01-2025

Venue: Hydroelectric Power plant, Jayakwadi, Paithan 431107.

1. Introduction

On 30-01-2025, All students from the Electrical & Electronics Engineering Department of ICEEM college visited a 12 MW Hydro Power Plant located at Jayakwadi, Paithan, Maharashtra. The purpose of this industrial visit was to provide students with practical knowledge of how hydroelectric power plants operate, their components, and their role in renewable energy generation. This visit allowed students to connect theoretical concepts learned in the classroom with real-world applications.

2. Objectives of the Visit

- To understand the working principles of a hydroelectric power plant.
- To observe the operation of turbines and generators.
- To explore the electrical components involved in the transmission of power.
- To learn about the maintenance and safety protocols followed at the plant.
- To study the environmental impact and sustainability of hydro power generation.

3. Overview of the Hydro Power Plant

The hydroelectric plant has a total installed capacity of 12 MW, utilizing water from Godavari river, Jayakwadi dam to generate electricity. The plant operates on the principle of converting the kinetic energy of flowing water into mechanical energy through turbines, which is then converted into electrical energy by generators. The power plant is connected to the local grid, contributing significantly to the region's energy supply.

Key Features:

- **Installed Capacity**: 12 MW
- **Type of Turbines**: Reversible vertical shaft Francis-type turbine for power generation.
- **Water Source**: Godavari river, Jayakwadi dam
- **Grid Connection**: Plant is connected to the regional power grid
- **Environmental Considerations**: The Surrounding Area Includes The Jayakwadi Bird Sanctuary, Which Provides A Habitat For Numerous Resident And Migratory Bird Species

Scanned with CamScanner

4. Plant Components and Working

The main components of the hydroelectric plant we observed are:

- **Dam**: The dam is built to store water, creating a reservoir that ensures a steady flow of water to the turbines. The water is released in a controlled manner to drive the turbines.
- **Penstock**: This large pipe carries water from the reservoir to the turbines, and the pressure of the water as it flows through the penstock is harnessed to drive the turbine blades.
- **Turbine**: The turbine is the central component of the plant, which converts the mechanical energy of water into rotational mechanical energy.
- **Generator**: The turbine is connected to the generator, which converts the rotational energy from the turbine into electrical energy using electromagnetic induction.
- **Control Room**: The control room is responsible for monitoring and controlling the operation of the entire plant. It contains systems for adjusting water flow, turbine speed, and voltage levels to ensure efficient and safe operation.
- **Transformer and Transmission Lines**: The electrical energy generated is stepped up to a higher voltage using transformers and is then transmitted through high-voltage transmission lines to the grid.

5. Safety Protocols

During the visit, the safety measures followed at the plant were explained to us. Some of the key safety protocols include:.

- **Emergency Shutdown System**: The plant has an automated system that can quickly shut down the operations in case of any emergency, such as equipment failure or a power surge.
- **Fire Safety**: Fire extinguishers, alarms, and emergency exits were pointed out as part of the plant's fire safety measures.

6. Environmental Impact

Hydroelectric power generation is considered environmentally friendly compared to fossil fuel-based power generation, as it does not produce direct emissions of greenhouse gases. However, the construction of dams and reservoirs can have environmental implications, including the displacement of communities and the impact on local ecosystems. The plant management has made efforts to mitigate these issues by:

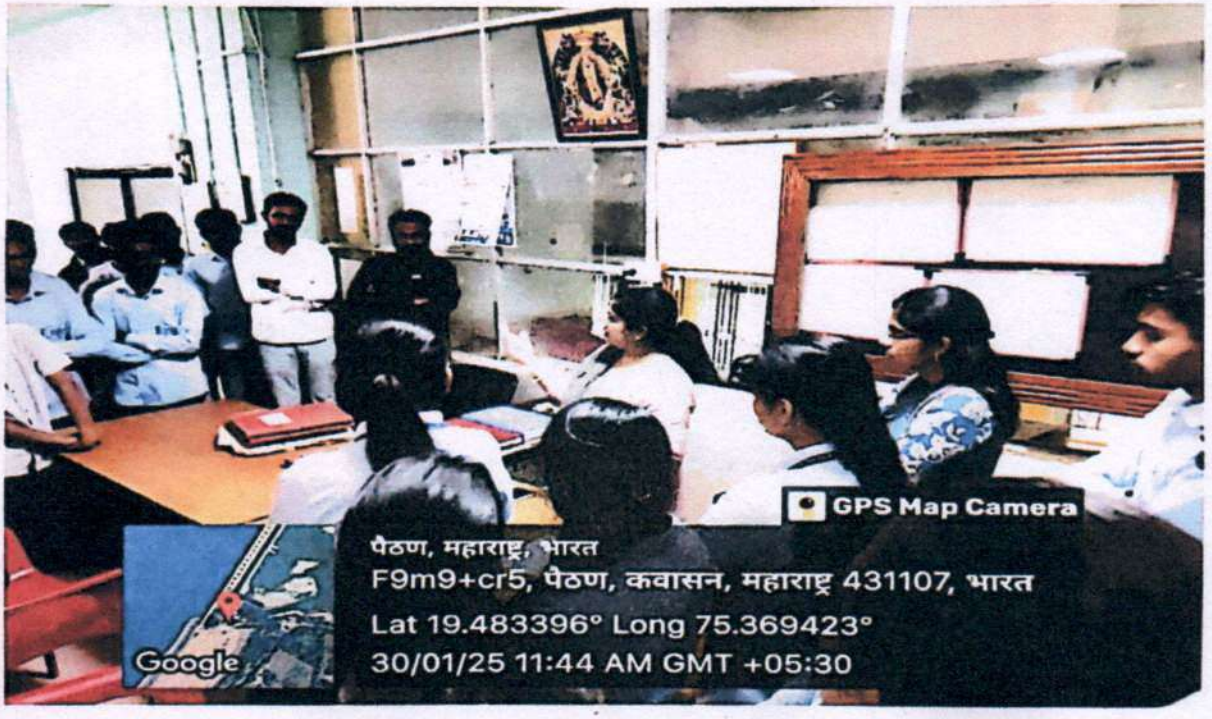

- Implementing fish migration pathways to maintain the aquatic ecosystem.
- Maintaining water quality in the reservoir.
- Using green technologies in plant operation to reduce carbon footprint.

Scanned with CamScanner

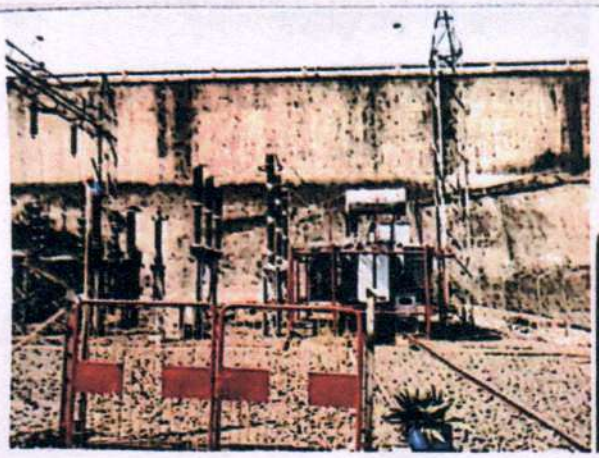

7. Conclusion

The visit to the 12 MW Hydroelectric Power Plant was a valuable learning experience for the students of ICEEM college Electrical & Electronics Department. The practical insights gained from observing the operation of a real hydroelectric plant enhanced our understanding of renewable energy generation and the role of hydropower in the energy sector. We were able to directly observe the principles of electricity generation, energy transmission, and the maintenance required to ensure the smooth operation of such a complex facility.

Subject: Letter of thanks.

Dear Sir/Madam,

On behalf of International Centre of Excellence in Engineering and Management, we deeply appreciate the time you have given to guide & share the knowledge with our students. From the feedback have got from students, we found that you were meticulous when explaining the whole process during the visit. Even the hospitality that you showered on them was remarkable. Thank you for that.

Our students were very happy with the overall outcome of visit. In totality, after visiting **Hydro Electrical Power Plant**, they have certainly had an enriching learning experience During the visit. I again express my gratitude for hosting our students and providing a fruitful experience. We wish the same kind of cooperation in future.

Respected Sir,

I Ms. P.U. Bhagat an Asst. Professor of the Electrical & Electronics E. Department humbly request you for permission to organize an expert lecture for the student of our department.

Details of lecture

Topic :- PLC Certificate Course

Expert's Name :- Mr. Siddharth Magare

Date & time :- 24/01/2025 at 11.00 a.m.

Objective :- To provide insights on the importance of PLC programming, & various course related to PLC.

We kindly request your permission to organize the expert lecture. We assure that the event will be conducted smoothly & without any disturbances to the regular academic activities

Thank you for considering our request

Thanking You

Ms. P.U. Bhagat
Asst. Professor EEE Dept

Subject: Invitation for an Expert Talk on PLC Certificate Course.

Respected Sir,

On behalf of Electrical & Electronics Engineering (EEE) Department of International Centre of Excellence in Engineering and Management, we are inviting you for **an Expert Talk on Plc Certificate Course** at our institute . It will be beneficial for our students to take guidance and knowledge.

So, we are requesting to give suitable date and time slot for the same.

With Regards,

NOTICE

All the EEE students are hereby inform that tomorrow on **24/01/25** we are organizing an Expert Talk by IGTR's Mr. Magare Sir on the upcoming Certificate Course on Programmable Logic Controllers (PLC). The talk will take place tomorrow at 11:00 a.m. **Attendance is mandatory**.

Course Highlights:

- 15-day certificate course (2 hours/day)
- Learn PLC programming and applications
- Enhance job prospects in industries

Special Opportunity:

- Normally, this course costs Rs 25,000. However, we are trying to arrange it under a government scheme, making it **free** for our students.

Eligibility and Documents:

- Only 25 students will be selected (13 SC category and 12 other categories).
- Please bring the following documents tomorrow:
- Proof of age (Aadhaar, PAN card, or TC)
- Category certificate (caste or validity certificate)

Note: Only students with the required documents will be considered for the course. Don't miss this opportunity! Attend the Expert Talk tomorrow and get ready to learn PLC programming.

Report On

Expert Talk on "PLC Certificate Course"

Date: 24th January 2025 (Friday) at 11.00 am

Venue: Dr. A. P. J. Abdul Kalam Seminar Hall, EEE Dept., ICEEM

Resource Person: Mr. Siddharth Magare, Training Engineer, IGTR, Ch. Sambhajinagar, Maharashtra

Participants: All Se,TE,BE students of EEE Department and All Staff of EEE Department

Objective: To provide insights on the importance of PLC programming, various courses related to PLC, and emerging technologies.

Program Flow:

- Firstly, introduction of speaker was given by Prof. S.V.Welanjanjkar
- Felicitation of speaker Mr. Siddharth Magare (Training Engineer, IGTR, Ch. Sambhajinagar, Maharashtra)was done By Prof. H.L.Jadhav (Vice Principal ICEEM, HOD EEE Dept)
- Then,Speakers Mr. Siddharth Magare delivered an expert talk on PLC programming and emerging technologies, guiding students on the significance of PLC programming and its applications. He also discussed various courses related to PLC and other emerging technologies.
- Mr..Siddharth Magare have guided all the students about basics of PLC Automation.
- After that, they have given information regarding use of PLC in Automation for various applications..
- Then vote of thanks was given by Prof. S.V.Welanjanjkar and session ends.

Key Takeaways:

1. Importance of PLC programming in industrial automation
2. Overview of courses related to PLC programming
3. Insights into emerging technologies and their applications
4. Guidance on career opportunities in PLC programming and emerging technologies

Feedback:

The session was highly informative and interactive, with students actively participating in the session. Mr. Magare's expertise and experience in the field added significant value to the session.

Conclusion:

The expert talk was a huge success, providing students with valuable insights into PLC programming and emerging technologies. We express our sincere gratitude to Mr. Siddharth Magare for sharing his expertise and guiding our students.

We would like to thank Mr. Siddharth Magare for his time and effort in delivering the expert talk. We also appreciate the support of the International Centre of Excellence in Engineering and Management in organizing the event.

Subject: Letter of thanks.

Dear Sir,

We, on behalf of International Centre of Excellence in Engineering and Management, would like to thank you for sharing with us & guiding the students regarding Importance of PLC programming and various courses related to PLC and other courses and also guiding the students about the emerging technology and related courses on 24th January 2025(Friday), in this Expert talk

The Session was really informative which will be beneficial for all the students who have attended the talk. We want to express heartiest thaks to you for the valuable guidance and your continued support.

We wish the same kind of cooperation in future.

With Regards,

Director

Subject : Request for Permission to Organize an Expert Lecture on **"Thermal face recognition"** in college function hall

Respected Sir,

I am writing to seek your kind permission to organize an expert lecture on **22nd Jan 2025** the topic **"Thermal Face Recognition"** in the college function hall. This lecture aims to provide students and faculty members with insights into the latest advancements in thermal imaging and its applications in face recognition technology, a rapidly growing field in computer vision.

The proposed lecture will be conducted by **Prof. Kiran Choudhari**, who is currently serving as an **Assistant Professor at Maharashtra Institute of Technology (MIT) , Chh. Sambhajinagar.** With his extensive expertise and research experience in the field of thermal imaging and pattern recognition, Prof. Kiran Choudhari is well-equipped to deliver an informative and engaging session. His lecture will not only enhance the technical knowledge of the attendees but also inspire them to explore innovative applications of this technology.

I kindly request your approval to proceed with the necessary arrangements for this event. Please let me know if any additional information or formalities are required from my end.

Thank you for considering this request. I look forward to your positive response

Sincerely,
Prof. Yuvraj Pawar
Asst. Professor
CSE,ICEEM

Subject: - Invitation for conducting Guest Lecture on **"Thermal face recognition".**

Greeting from ICEEM,
We, the department of Computer science and Engineering wish to organize Guest Lecture on subject **"Thermal face recognition".** It is great pleasure to invite you for the same. This will increase the knowledge in Academic perspective of the subject.

Hope for a great time.

Details of Guest Lecture are mentioned below:

- **Venue: function hall**
- **Date: 22nd Jan 2025**
- **Number of days: 1 day.**
- **Timing: 10:00 am**

Thanking You.

NOTICE

All Students of SE,TE and BE are informed that we have arranged an Expert Guest Lecture on **'Thermal face recognition'** on **22nd Jan25** in **function hall** conducted by **Prof Kiran Choudhari** works with Maharashtra Institute Of Technology. As a Assistant Professor

Venue: function hall

Date: 22nd Jan25

Time: 10.00-12.00 PM

Resource Person: Prof Kiran Choudhari

Program Co-Ordinator **Head of Department**

On Behalf of ICEEM CSE Department we have organized Expert Lecture for All Second YEAR; Third for this program was "**Prof Kiran Choudhari**" The session was arranged in CSE Department. It was Live Session which is Started at 10.00am sharp and it was for 2 hour The Topic of the Session was "**Thermal face recognition**" The Session was Really very good and helpful for the students Mainly he focused on four aspect in the session.

1. Firstly he introduce about "**Thermal face recognition**"

2. In second part he focused on **Emerging Technology**: On-going research and development are continually improving the accuracy and reliability of thermal face recognition algorithms

3. Some kind of Motivation is given to the Student to upgrade the Technical Skills.

4. Last point of Discussion was question answer session, student those who have doubt they have cleared all the doubt of the student.

Subject : Request for Permission to Organize an Expert Lecture on Dipex in college function hall.

Respected Sir,

I hope this letter finds you well. I am writing application for permission to organize an expert lecture on **Dipex** at our college by Mr. Suresh Mate, who is an esteemed professional in the field of Entrepreneurship.

The lecture is scheduled to take place on **16/01/2025** at **function hall**, and it aims to provide students with valuable insights into Entrepreneurship. This session will significantly enhance their knowledge and exposure to real-world applications of the subject.

We assure you that all necessary arrangements will be made to ensure the smooth execution of the event. We kindly request your approval for the same and would be grateful for any guidance or support you may provide.

Thank you.

Sincerely,

To,

Mr. Suresh Mate, ABVP.

Subject: Letter of Thanks

Dear Sir,

V on behalf of International Centre of Excellence in Engineering and Management, would like to thank you for giving us your precious time for the expert talk on **"DIPEX".** on **16/01/ 2025**

On our request you have accepted our invitation as a guest of honor and enlightened us with your valuable knowledge, experience and noble thoughts. We are very much thankful to you for the same. We want to express heartiest appreciation to you for the valuable guidance and your continued support.

We wish the same kind of cooperation in future.

With Regards,

Received

Thanking You.

Five-Day Online Workshop on "Electric Vehicle Master Class"

- **Introduction:** Skill Dzire, a recognized leader in vocational and professional skill development, successfully conducted a comprehensive five-day online workshop titled **"Electric Vehicle Master Class"** from **29th July 2024 to 2nd August 2024**. The workshop aimed to deliver in-depth technical knowledge and practical exposure to the evolving Electric Vehicle (EV) ecosystem, addressing current trends, challenges, and opportunities in the field.

  Workshop Details:

  Organized by: Skill Dzire
  Duration: 29th July 2024 to 2nd August 2024
  Mode: Online (Virtual Sessions)

- **Objectives of the Workshop:** The primary objectives of the workshop were to:
  - Create awareness and build foundational knowledge about Electric Vehicles (EVs).
  - Explore EV architecture, battery technology, power electronics, and charging infrastructure.
  - Bridge the gap between academic learning and the dynamic needs of the EV industry.
  - Empower students, educators, professionals, and innovators with industry-relevant skills and career insights.
- **Workshop Structure:** The five-day program featured interactive live sessions, case studies, virtual hands-on demonstrations, and expert talks from industry and academia.

Day-wise Schedule and Topics Covered:

Day	Date	Topics Covered
Day 1	29/07/2024	Introduction to Electric Vehicles, Global Trends, and Market Overview
Day 2	30/07/2024	EV Architecture: Motors, Controllers, Converters, and Transmission Systems
Day 3	31/07/2024	Battery Technologies: Battery Types, BMS, Charging Protocols, and Thermal Management
Day 4	01/08/2024	EV Charging Infrastructure, Smart Grids, and Government Policies
Day 5	02/08/2024	Career Opportunities, Start-up Ideas, and Expert Panel Discussion

- **Resource Persons:** The sessions were led by a distinguished panel of resource persons, including:
  - **Industry Experts** from established automotive and EV companies
  - **Academic Professionals** with expertise in power electronics and e-mobility systems
  - **Researchers** in battery technology, sustainable transport, and EV innovations
  - **Policy Experts** from relevant government and regulatory bodies
- **Feedback and Outcomes:** Feedback was collected through digital surveys at the end of the workshop. Key highlights include:
  - **95%** of participants rated the workshop as *"Excellent"* or *"Very Good"*
  - Participants praised the clarity of instruction, practical examples, and career-oriented content
  - A significant number expressed interest in pursuing further EV certifications and hands-on training
  - **E-certificates of participation** were issued to all attendees
- **Summary:** The **"Electric Vehicle Master Class"** proved to be a highly successful and insightful learning initiative. It significantly enhanced participant understanding of EV technologies while fostering innovation, technical skills, and entrepreneurial ideas in the e-mobility sector. This initiative reaffirmed Skill Dzire's commitment to nurturing future-ready talent and contributing meaningfully to the sustainable mobility revolution.
